

# Strike Riots in New York

## Round-up of Strike Leaders Begins

### DISORDER IN NEW STRIKE IN N. Y.

Teamsters on Food Trucks  
Strike, Adding to Troubles  
of New York City

Police Reverses Called to  
Halt Attacks on Wagons by  
Strike Sympathizers

NEW YORK, April 15.—Police reserves were sent to the West Side market district today where several hundred teamsters, chauffeurs and porters had walked out at a time when New York was virtually cut off from its food supply by rail. Several trucks were attacked by strike sympathizers. The wagons of produce merchants, sent to transfer the foodstuffs from the freight yards to the market district, were attacked. Men followed trucks carrying provisions and threatened the drivers.

One horse-drawn wagon was attacked by 25 men. They followed the wagon to its destination where they were dispersed by the police.

Business at Standstill  
One hundred policemen, mounted and afoot, were stationed in the district as a precautionary measure. The teamsters' strike affects the transfer of butter, eggs, cheese and frozen poultry from freight yards to markets in Manhattan and Brooklyn. Business was reported almost at a standstill.

### BUYS BEAUTIFUL HOME

Walter J. Bagshaw Purchases  
Dr. Stowell Estate in Fair-  
mount Street

Walter J. Bagshaw of the W. H. Bagshaw Co., has purchased the residence of Dr. Charles H. Stowell, 93 Fairmount street, one of the most pretentious and substantial homes in the city, with building and land valuation of \$13,050.

Situated on the highest point of land in Belvidere, in a purely residential district, the residence has an outlook to the north and west embracing the Concord and Merrimack river valleys, showing the union of these two historic streams. Practically the whole city lies below, while New Hampshire mountain ranges 75 miles distant are plainly visible from the rear of the house.

The residence has 15 rooms, with two baths. The interior finish is rich in design and construction. The dining room is finished in quartered oak and opens onto a large porch on the west side. The library woodwork is mahogany and contains a most beautifully carved rosewood mantle. The garage in the rear of the house has an individual heating plant.

Dr. Stowell in other years spent several thousands of dollars in laying out one of the most charming gardens in this vicinity, a veritable beauty spot in the summer time. This is on the west side of the house, set apart from a broad sweep of lawn by a lattice work fence.

The sale was effected through the office of Abel R. Campbell and Mr. Bagshaw purchases for occupancy.

## Grunau and Six Other "Outlaw" Strike Leaders Are Arrested By Federal Agents

### Warrants Issued for 24 Other Alleged Leaders in Insurgent Railroad Strike—Pres. Grunau, Head of Organization Which Started Nationwide Strike Taken in Raid on 'Strikers' Meeting at Chicago

CHICAGO, April 15.—John Grunau, president of the Chicago Yardmen's association, the "outlaw" organization, which started the nationwide strike of railroad workers, was arrested by federal agents who raided a meeting of the strikers here today. Grunau was arrested while he was addressing the meeting. Six others also were arrested.

Warrants have been issued for 24 other alleged leaders in the insurgent railroad strike, it was said at the federal building.

Those arrested besides Grunau are:

Joseph Scott, trustee of the Chicago Yardmen's association; A. W. Cassedy, secretary; Martin J. Kenney, vice president of Lodge No. 2, C.Y.A., W. L. Rabell, trustee of the association; Fred L. Schultz, vice president of the United Engineemen's association and Michael Kilgas, treasurer, of the engineemen's association.

Department of justice agents expected to arraign the men today before Commissioner Mason.

Foster Refuses to Talk  
PITTSBURGH, April 15.—W. Z. Foster, leader of the late steel strike, whose name was brought out in Washington yesterday as the prime mover behind the outlaw railroad strike, was located at his home here today.

"I have only been out of Pittsburgh once in four months," said Foster. "My time is taken up these days writing a book on the steel strike. I may have something to say about the statements made in Washington later, but not now."

### DOWN TOWN POSTOFFICE

Congressman Rogers Acts on  
Sun Editorial—Writes to  
Postmaster Meehan

The subpoenaed communication has been received by Postmaster Meehan from Congressman Rogers, who after reading the editorial in The Sun has taken up the matter of establishing a sub-postoffice near Merrimack square, disconnected with any store.

April 13, 1920.

Hon. John F. Meehan, Postmaster, Lowell, Mass.

My Dear Mr. Postmaster: I have read with great interest, as no doubt you have also, a strong editorial in last Saturday's Sun advocating the establishment of a separate postoffice, disconnected from any store, in the vicinity of Merrimack square.

From my personal experience, I know that such a postoffice would be useful and convenient to many, and I believe there is a very strong feeling among our citizens favoring the taking of such a step.

It is quite possible that you have already thoroughly canvassed the situation and have made up your mind as to whether or not it will be possible to accede to the public demand. I am writing to learn from you as an expert, what the prospects are and also to offer my services in any organized attempt to emphasize to the post-office department here in Washington, both the need and the demand for such a separate downtown postoffice.

With kind regards, I remain,

Sincerely yours,

JOHN JACOB ROGERS.

Postmaster in Favor

Postmaster Meehan favors the idea of a separate or financial station near Merrimack square; but with rents so high he has been unable to find a suitable location at a reasonable figure. A financial station is one in a separate apartment with all the post-office conveniences except carriers. Such a station would be very serviceable at Merrimack square; but under present conditions the expense is a very serious obstacle.

PATRIOTS DAY OBSERVANCE

Lowell's public and parochial schools will close tomorrow and will not re-open until next Tuesday morning in observance of Patriots day which comes next Monday. A number of the schools have planned formal exercises for tomorrow, but in most of them the observance will be confined to individual classrooms.

Bruce's Glue sticks to stay. Bruce's Glue has no equal.

British Miners Not to Strike

LONDON, April 15.—The members of the Miners' Federation, by a majority of 65,135 votes, have decided to accept the government's offer of a 20 per cent increase on gross earnings. The decision of the men obviates the danger of a strike.

### COMMISSIONER SALMON NAMES NEW FIREMEN

Commissioner John F. Salmon announced today the appointment of 19 new firemen who will begin their duties next Tuesday morning. The appointments come partially as a result of the double platoon system and partly because the vacation season has started in the department and the regular force will be minus from eight to ten men from now until the late fall.

The new appointees are all former service men, one of them, James E. Continued to Page 8

### MAYOR ISSUES CLEAN-UP DAY PROCLAMATION

Mayor Perry D. Thompson, today called upon all men, women and children of Lowell to prepare for the city's annual spring cleaning campaign which this year will begin Monday, April 12, Patriots day.

The local campaign will be part of a nation-wide drive to put the United States in spick and span condition after the storms of winter and consequent accumulation of debris, papers, rags and other inflammable material. The underlying object of the campaign is to remove fire dangers and to this end Commissioner John F. Salmon and Chief Edward F. Saunders of the local fire department have promised the full co-operation of that department in making the drive a success.

Although the mayor's proclamation Continued to Page 8

# ROGER C. SULLIVAN DEAD

Illinois Democratic Leader,  
Led Movement That Made  
Wilson President

CHICAGO, April 15.—Roger C. Sullivan, aged 63, democratic leader of Cook county and prominent in state and national politics for 30 years, died at his home in Chicago yesterday of bronchitis. He had been seriously ill a month.

Mr. Sullivan planned to enter the democratic national convention at San Francisco as leader of the Illinois delegation with the avowed intention of making that his last appearance as a political leader.

Mr. Sullivan, condemned in his own state by his opponents as a "boss" and more than once "read out" of the democratic party by William Jennings Bryan, led the movement that finally resulted in making Woodrow Wilson president.

It was Sullivan who headed the democratic delegation from Illinois at the Baltimore convention in 1912—a delegation pledged to Champ Clark—and who after sufficient ballots had been cast to discharge his obligation to Illinois, switched the state to Wilson.

Roger Sullivan had been a participant in every democratic convention since 1892 and in at least three a prominent figure.

Coming to Chicago in 1879 to work in the railroad shops as an apprentice machinist at \$1.25 a day, Mr. Sullivan was reputed to be worth more than \$1,000,000 at his death. He made his fortune in Chicago gas companies and in the cracker business.

Mr. Sullivan was born in Hololive, Ill., Feb. 2, 1861. He married Helen M. Quinn in Chicago in 1885. They had one son and four daughters.

BY MILTON BRONNER  
European Manager N.E.A.

LONDON, April 15.—Shortly before the Prince of Wales started on his trip to Australia he was a guest of honor at a big dinner. The dinner was very much astonished when, long before the meal was finished the toastmaster arose and gave the toast of "The King." But they got enlightened when they saw the prince smile, gratefully at the toastmaster and immediately light a cigarette. To Americans, it must be explained that at an English formal dinner it is the most awful breach of etiquette to smoke until after the king is toasted.

Earl Beatty, hero of the battle of Jutland, broke into bitter verse when making a speech in support of the Seamen's Hospital society:

God and the sailor we all adore  
When danger looms, but not before;  
The danger past, both are alike  
Forgotten, and the sailor  
sighs.

America is not the only belligerent nation in which red tape was the curse of the army. An architect recently sued the British war office for \$300 for services rendered. The judge, in giving his decision, said: The medical officer sends his request to the D.D.M.S., who transmits it to the D.M.G., who lays it before the B.G.A., who instructs the S.O.E.R., who communicates with the C.R.E., who details an engineer officer to advise the C.M.O.

In England they have the habit of giving their railway engines names. What is more they name their mills. I asked an English friend the other day why a certain mill was called the "Pinchnoggin." "You know, of course, that noggin is a name for a drink," said he. "Well, there was a certain keeper of a bar who was noted for the short drink of liquor he poured out. In other words, he pinched the noggin. Then he got out of the saloon business and became a mill owner. And the neighborhood supplied his mill with the name."

## BRITISH BUSY ON SECRET WARSHIP

Vessel of Entirely New Type  
Last Word in Old Dreadnoughts

Lessons of War Are Being Applied in New Ship Plans

BY MILTON BRONNER  
European Manager N.E.A.

LONDON, April 15.—Somewhere in the secret archives of the British admiralty there is reason to believe there are plans for a new type of big capital fighting ship which is entirely different from anything now afloat.

It differs in armament.  
It differs in armor plate.  
It differs in gun arrangements.  
It differs in protection from torpedoes and submarines.

The serious question for American taxpayers, whose money is to be spent for over \$400,000,000 worth of new ships, is whether our naval board is also taking advantage of the lessons learned in the war or is sticking more or less to old patterns for super-dreadnoughts and battle cruisers.

Hood is "Last Word."

So far as the present types are concerned, England is through.

The giant battle cruiser, Hood, is England's last word in this type.

Three others that were designed to

be sister vessels are not to be built. A halt has been called not only for economy's sake, but because the naval designers want time to digest and apply the war lessons.

What Germans Taught  
The Germans showed the world some new wrinkles in naval matters. Their ships had better protection for their decks; had better projectiles, and had guns that could be elevated to 30 degrees instead of 12.

All these new things were used for building the Hood. Her armor belt was increased from 8 to 12 inches. Her barbettes from 9 to 12 inches. She was given increased deck protection. She was protected from torpedoes by what naval men call a "bulge" arrangement which extends all the length of her machinery and magazines. She has an outer compartment of air and an inner one of special strength. Arranged with separate bulkheads. She could keep her place in battle even if hit by several torpedoes. Result is can still make about 37 miles an hour.

She carries eight 15-inch guns, an anti-torpedo armament of 12 5.5-inch guns, four anti-aircraft guns, and is pierced for six torpedo tubes.

"White Elephant?"

Sir Eustace d'Eyncourt, director of naval construction for the admiralty, recently told all about the Hood to the Institution of Naval Architects. There were people who gasped at this frankness. But Admiral Sir Alfred Chatham, representing the admiralty, let her weight have been increased by 5000 tons over original plans. Her displacement is now 41,200 tons with all her fuel and stores on board and she the cat out of the bag when he said if they were going to design a new ship today, it would not be the Hood.

That's the reason there are no three sister ships to the Hood.

England, which has the greatest stake in sea power of all the nations

## Sure Relief

In the world, is busy on new plans. And her exports may soon spring upon the people something just as revolutionary as the dreadnought was.

### HEALTH ADVICE

By the U. S. Public Health Service

If you want better health, pay the price. Money spent in protecting the health and the lives of the people is the best of all investments. Don't be too eager to pass more health laws, but provide sufficient means to enforce those already on the statute books.

It is a well-known axiom that public health is, within certain limits, a purchasable commodity, and that each community practically fixes by its sanitary policy its sickness and death rates from such preventable diseases as typhoid fever, malaria, tuberculosis, smallpox, etc. The best indication of the adequacy with which a community is handling its health problems is shown in the ability of the existing health organization to lessen the prevalence of sickness.

In the interests of economy and efficiency, for instance, all sanitary work, be it child hygiene, industrial sanitation, school hygiene, milk control, etc., should be centralized and coordinated under properly equipped department of health. Local health administration must be strengthened by the employment of health officers giving their entire time to their duty and fully responsible to the state department of health. The public health service holds that at least 2 per cent of the public revenue should be spent for sanitary work, since from no other expenditure is so much profit ultimately derived.

### REAL CAMELS LEAD THIRSTY CHICAGOANS

CHICAGO.—Real camels, borrowed from a circus, led the first public caravan of the newborn Order of Camels in downtown Chicago. Sad-faced, thirsty men followed sorrowfully in their wake. "Macaris urged the public to 'get a hump' on and 'be a Senator Hitchcock and a Governor Edwards'."

The Camels hope to recruit 100,000 members in Chicago and many more in other cities.

### JUDGE A SOLOMON

AKRON.—Lawrence Larimer was arrested for carrying two bottles of rock and eye. Police Judge O'Neill fined him \$25 and then ruled that the liquor used as evidence against him, be returned to Larimer.

## TEACHING GREAT WORK

Says President of State Federation of Teachers—Better Salary Schedules

Miss Mary McKimmon of Brookline, president of the State Federation of Teachers, told members of the Lowell Teachers' Organization yesterday in high school hall that Massachusetts and the country as a whole is awakened to the needs of its educational force and that appreciation is being shown through the medium of new and much better salary schedules.

"We have passed the worrying stage about getting more pay for teachers," she said, "and the matter of salary is being cared for in this state and throughout the nation. There is no question but what at last this country is wide awake and there is no fear of a lack of teachers now that the proper amount of appreciation is being shown for their sacrificial work."

The meeting was presided over by Miss Genevieve Lawrence, president of the local organization. Miss McKimmon said she would not presume to talk on state federation work inasmuch as all she knows concerning it was told her by the headmaster of the Lowell school, Henry H. Harris, who formerly served as president of the state body.

In part, Miss McKimmon said: "The great trouble today is that we are not getting our very best to come and fit themselves for the work we are doing. One reason for it is that some of us are tired out, and we do not look people in the eye, like the 'illage blacksmith. The best work that comes to women to do, and the best that comes to the best men, is teaching."

"The public schools have gone through a great storm, and we have gone to the bar of judgment, and people are realizing the disgrace that the draft revealed. Besides that, the biggest advance has come to the schools that they have had in my day and generation of teaching, when our boys went over to France and found out that when they went in as privates they came out the same, if they were simply grammar school boys, but if they were high school boys they came back officers."

"There is no greater work before the federation, now that it has taken such magnificent care of the economic needs of the teacher, than to see that the teachers are kindled to the accomplishment of their own intellectual growth. We ought not to let a normal school or college exist in this state, that does not open its doors to us every hour that we are free to enter those doors."

She stressed the point that all teaching should be done for the country and the development of a true spirit of democracy, but added that first this spirit must be in the hearts and work of the teachers.

At the close of her address the teachers of the Pawtucket, Greenhalge and Riverside schools served refreshment and proved charming hostesses.

### SANCTUARY CHOIR

Holds Annual Minstrel Show and Dancing Party

St. Patrick's sanctuary choir entertained a large audience in Associate hall last evening when it presented its annual minstrel entertainment and dancing party. The minstrels showed the results of continual training in vocal work and handled their various numbers with marked ability. James J. Neilligan as interlocutor did much to make the affair a success and similar commendation is due Charles N. Sladen, vocal instructor of the choir, and John J. McNabb, minstrel instructor.

Following the minstrel show, general dancing was enjoyed until midnight. The program was as follows:

Opening Chorus: Starlight Love; Everybody's Crazy Over Dixie; Everybody Calls Me Honey; soloist, Master A. Finn; Alexander's Band, in Back in Dixie Land; There's a Typical Tipperary Over Here.

End Song: That's Worth Waiting For, James Keefe

Song: Boy of Mine, Master John Spillane

End Song: At the Darktown Dancing School, John Keefe

Song: Thomas Delmore

End Song: Come Play With Me, John Stapleton

Song: James S. King

End Song: You Never Can Tell, Daniel A. Powers

Song: Andrew A. McCarthy

Pinale: Stars and Stripes, Vocal instructor of choir, Charles N. Sladen.

Minstrel instructor, John J. McNabb, Accompanist, Wm. A. Paul McCarthy.

The officers of the dance were: General manager, Eugene F. Dean; assistant general manager, Joseph F. Sexton; floor director, Daniel A. Powers; assistant floor director, John T. Powers; chief aids, Thomas F. Delmore, James J. Neilligan, Martin F. Clough, John J. Bolan, aids, John J. Keefe, James Keefe, Thomas Furey, Edward Ryan, Raymond O'Brien, John J. Neilligan, Joseph Flannery, Joseph Rezac, Timothy Stapleton, James Furey, John Savare, Raymond Connolly, Charles Roslin, Thomas Crowe, John Caney, Charles Brown, Thomas Lenihan, Edward Garrigan, William Monaghan, Walter Miskell, James F. O'Sullivan, Charles Gallagher, Leo Dinneen.

## Pennsylvania VACUUM CUP CORD TIRES

Not High Priced

DEALERS tell us that many people infer Vacuum Cup Tires and "Ton Tested" Tubes are high priced, assuming that quality and high prices naturally go together.

To the contrary, they are very moderately priced, due to a perfected factory organization operating in a plant utilizing every modern improvement and practical labor saving device, and marketing under an independent zone selling system which makes possible highest quality at economy prices.

Compare these prices—standardized net and uniform throughout the United States—with those of ordinary makes. Pay no more for Pennsylvania products—do not expect them for less.

Adjustment basis—per warranty tag attached to each casing:

### HELD WHIST AND

### DANCING PARTY

Members of the League of Catholic Women residing in the Sacred Heart parish staged a very enjoyable whist and dancing party in the school hall in Moore street last evening for the benefit of the diocesan bazaar to be held in Boston later in the month.

The national colors and potted palms made up the decorative scheme and there was a large attendance. Whist was played from 8 until 10 and dancing from 10 to midnight.

The committee in charge of the affair was as follows: Chairman, Miss Nellie Nison. Misses Loretta Mayo, Mary Cowell, Margaret Linane, Catherine Craig, Eva Trainor, Margaret Vaughan, Anna Bradley, Anna Donohoe, Margaret Connolly, Anna Farrell, Anna Mullin, Mollie McGann, Frances Kivlan, Anna McElough, Margaret Black-

burn, Nora Cryan, Nellie Sweetney, Josephine Nison, Mary Devine, May McHugh, Julia Harrington, Lucy Sharkey, Mrs. Joseph Mahoney, Mrs. Michael Coughlin, Mrs. James Shea, Mrs. John J. Higgins, Mrs. Leon Mullin, Mrs. Corbett Hosmer, Mrs. James Garrity and Miss Mary McCarron.

The bazaar committee of the parish includes the following: Miss Mary E. Wood, chairman, Mrs. Maria Doherty, Mrs. Isabelle Kennedy, Mrs. Coleman, Miss May McElough, Miss May Cowell, Miss Anna McHugh, Miss Anna Mullin, Miss Margaret Blackburn, Miss Anna Devine, Miss Katherine Whittemore, Mrs. Bryan McFadden, Miss Katherine Flanagan and Mrs. Leon Mullin.

Headaches From Slight Colds—LAXATIVE BROMO QUININE Tablets relieve the headache by curing the cold. A tonic laxative and germ destroyer. Look for signature E. W. GROVE on box. 30c.—Adv.

## The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected.

Nightly applications of Vick's VapoRub will aid nature to clear up that inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots

and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to The Vick Chemical Company, 235 Broad Street, Greensboro, N. C.

Your Bodyguard Against Colds

More Than 17 Million Jars Used Yearly

## Lift Off Corns!

Doesn't hurt! Lift touchy corns and calluses right off with fingers

Apply a few drops of "Freezone" upon that old, bothersome corn. Instantly that corn stops hurting. Then shortly you lift it right off, root and all, without pain or soreness.

Hard corns, soft corns, corns between the toes, and the hard skin calluses on bottom of feet lift right off—no humbug!

Tiny bottles of "Freezone" cost but a few cents at drug stores

## Add to YOUR Weight

Overcome Nervousness, Gain Strength, Acquire Healthy Flesh, Add Years to Your Life

Become well, strong, cheerful, robust. Here's plain talk. Read every word if you seek true happiness.

Are you nervous? Are you too slender? Brain or mind weariness? Do you feel weakness at spells? Are there times when you are mentally depressed? Do you find it difficult or impossible to avoid worry? Sleepless nights sometimes? Constant fear of your health? Lack of personal magnetism or vigor? Memory defective? Do you pity yourself?

BE ROBUST  
Cheer up—right now. Nature never intended you to be miserable. Good health is your birthright. A long, contented life, full of happy epochs, is what you are entitled to. Awaken!

### CALM NERVES

Wonderful benefits are being reported by those who take BITRO-PHOSPHATE and follow the simple health directions. Gains in weight 5 to 33 pounds reported. Tranquil nerves. New energy with cheery voice and smile, and sparkle in the eye. No more melancholy. Peaceful sleep. No worry, calm confidence instead. Better memory. In fact, the reports are amazingly delightful for they prove the actual genuineness of the BITRO-PHOSPHATE health system. Now is YOUR turn!

### YES, FOR YOU

You are perfectly safe in using BITRO-PHOSPHATE. No opium, morphine, cocaine, nux

vomica, digitalis, no purgative or laxative drugs. The chief element of Bitro-Phosphate is a phosphoric compound, known favorably to foremost physicians throughout the world.

### HAPPINESS NOW AHEAD

\$300 GUARANTEE is in every box of BITRO-PHOSPHATE: you are positively assured that you will take on healthy flesh, or have whatever other benefit you need (for which Bitro-Phosphate system is purposed) or the test of treatment will not cost you a cent. We could not make this incontrovertible CASH GUARANTEE if we did not have ABSOLUTE CONFIDENCE in what we offer you.

### HOW TO GAIN WEIGHT

Are you thinner than is natural for a healthy person of your height? Then your body is partially starved, although you may eat more than even a robust person. You are missing certain elements that are not coming to you in your food or drink.

You have tried various remedies but have found nothing satisfactory. Now is just the time that we want you to follow the BITRO-PHOSPHATE system, under our \$300 guarantee.

Users of Bitro-Phosphate, following the simple system, have reported increase in weight, 5 to 33 pounds in a short time, plus better health and many other benefits.

### NOT A PATENT MEDICINE

Good physicians are recommending BITRO-PHOSPHATE. It is not a patent medicine; it is a reliable proprietary preparation, compounded in a high grade laboratory, under supervision of expert chemists. Be careful not to confuse the name with that of anything else.

### WATCH IN YOUR MIRROR

Go to the drug store. Buy BITRO-PHOSPHATE. Remember that name. Write it down if necessary. But be sure you get just what you're after. It comes in a brown box. Take a tablet into your mouth and swallow it, or dissolve in a half glass of water. Agreeable taste. Follow the simple directions of Bitro-Phosphate health system. Watch yourself in the mirror. Watch the scales. Enjoy real contentment. Listen to the compliments of friends.

### HOW TO LIVE LONGER

Become healthy and contented. Awaken with a smile at the outlook of a pleasant day, even if it rains. Find pleasure in your work. Troubles become mere details. Smile! Let your play be full of exuberant joy. Laugh at the things that you get into. Be sure you get just what you're after. It comes in a brown box. Take a tablet into your mouth and swallow it, or dissolve in a half glass of water. Agreeable taste. Follow the simple directions of Bitro-Phosphate health system. Watch yourself in the mirror. Watch the scales. Enjoy real contentment. Listen to the compliments of friends.

### SEE THESE PICTURES

Look at the pictures: they are hypothetical, to illustrate how one feels and looks before and after becoming healthy and robust. Bitro-Phosphate system is accomplishing wonders for many—why not let it prove what CAN BE DONE FOR YOU!

### SENT YOU BY MAIL

On request by mail we will send you our interesting booklet free and if you cannot obtain Bitro-Phosphate locally, we will mail a full box and Bitro-Phosphate system, for \$1.15, plus 5 cts. war tax; total, \$1.20; postage prepaid. Address:

Before and after using Bitro-Phosphate

ARROW CHEMICAL COMPANY, 31 Union Square, Dept. New York, N. Y.

## LOWELL TEXTILE SCHOOL

Exercises of Graduation Held  
in Southwick Hall Last  
Evening

Although 55 diplomas were presented at the annual graduation exercises of the evening classes of the Lowell Textile school, which were held last evening, the 1920 class consisted of only 55 graduates, for one of the students of the school, Nicholas Veneri Kefalalas received two diplomas, one for three years' elements of engineering and the other for three years' mechanical drawing, which means that for three years the young man followed two courses at the school, attending class sessions four nights a week.

The exercises were held in Southwick hall at 8 o'clock and were largely attended. In the early part of the evening the large school was thrown open to the general public and many took advantage of the opportunity to inspect the building. The diplomas were presented by Mayor Perry D. Thompson, who briefly complimented the graduates for the success achieved during the year, while there were addresses by Principal Charles H. James, who presided over the evening's program; James T. Smith, former clerk of the board of trustees, and father of the school, and Prof. David D. Vaughan, professor of social service at the Boston university.

Mr. James in his opening address congratulated the students for the showing made during the year, and bid the guests a hearty welcome. He commended the teachers and introduced as the first speaker, Mr. James T. Smith to whom much of the credit for the establishment of the school is due.

**"Isn't It Fine  
After Shaving?"**

Do you shave yourself? The next time wash down with a light lather of Palmer's SKIN-SUCCESS Soap. Note the feeling of cooling relief and supreme comfort. Note the clean feeling. Everybody must use toilet soap—why not try the old reliable Palmer's SKIN-SUCCESS Soap, which not only thoroughly cleanses the skin and the pores but acts as a gentle and thorough antiseptic? In these respects it is greatly superior to ordinary soaps. Try it just once!

Ask Your Dealer.

a man, he said, who for a great many years worked unflinchingly for the success and advancement of the institution.

Mr. Smith spoke briefly on the school and what it has accomplished. He reviewed the years he spent as clerk of the board of trustees, telling of the progress made by the institution and of the success of its graduates. His remarks were very interesting.

Mayor Thompson was a little late in arriving, but he informed those present that it was through no fault of his, for his automobile went back on him and a lot of good time was spent, he said, in coaxing it to function again.

The mayor, speaking to the graduates, pointed a warning note. "I know," he said, "the sacrifices you are making to acquire knowledge in your particular lines. I know what it is to work all day and to study in the evening, and you are to be congratulated for your untiring efforts, but do not stop there, for remember it is upon your shoulders that rests the great responsibility of our country, the final settlement of the world's difficulties."

The mayor said education at one time meant a training purely for the accumulation of wealth, but the conception today is a different one, for education also means service to other men. "Let it be your aim in your future life to not only look after yourselves, but also to endeavor to make others happy."

"The Spirit of Youth" was the subject dealt with by Prof. Vaughan. He referred to the early days of the world when man was leading a primitive life and he told of the many evolutions in the life of man since that time. "There is something in man," he said, "which drives him forward and that is the enlargement of the spinal chord, or in other words, the brain. In the early days of the world man had to use his brains against the brutal force of animals, or die." Mr. Vaughan said the primitive man could not talk but through the enlargement of his spinal chord he has mastered the art of language. He has learned to draw pictures, he has learned to photograph, he has learned to make moving picture machines and he has learned to make the phonograph which reproduces the sound of the voice and all this through the enlargement of the spinal chord. The speaker then referred to the engineering feats that are being performed in this country and cited the erection of the bridge over the Niagara river, a stream which no animal could cross. He told of the large oil engines in the southern states and spoke briefly on the suspension bridge, saying this great engineering problem has been solved through the careful study of a spider's web.

"Man can do millions of things simply because he has that growth on the spinal chord and because he possesses the psychological delight of being the cause of something and it is that spirit which is eternal youth. It is that spirit which causes men to educate themselves, to inquire more deeply into interesting subjects."

In the course of the evening enjoyable selections were given by the school orchestra.

The list of graduates follows:

List of Graduates

The list of graduates is as follows:  
Knitting, one year: Lewis Bradford Diman, Arthur Joseph Houle, Brackett Parsons.

Worsted Spinning, 3 years: Roy Fremont Dobbs, Nathaniel Sears, Cambridge; Paul L. Wilde, Lawrence.

## LEFT WEAK BY THE GRIPPE

MRS. BEATRICE AVARD

I was one of the numberless victims of the Spanish Grippe, which left me in a weakened condition, Stomach trouble, backaches, headaches and very nervous. My case was called "General debility". Other women who were in a position to know of my pitiable state of health, advised me to try RED PILLS for Pale and Weak Women. I did so and now, thanks to the good results obtained from their use, I am enjoying good health and feel fine. Now it is my turn to recommend them to women who suffer like I did before I took RED PILLS.

MRS. BEATRICE AVARD,  
22 Dodge Street,  
Lowell, Mass.

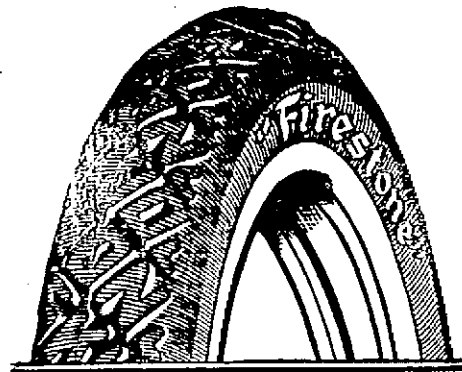

RED PILLS are for women only. They are always sold in boxes of fifty pills, 50 cents a box, 6 boxes for \$2.50. See that the name of the "Franco American Chemical Company Limited" is on every box.

Louisa Hammett, Mary Frances Harahan, George Thomas Walsh.

Analytical Chemistry, 3 years: Leo J. Kennedy, William John Magee, Lawrence; Michael Daniel Morgan, George Ernest Parkhurst, Lawrence.

Textile Chemistry and Dyeing, 3 years: Archibald Kerr Innes, Lawrence.

Elementary Chemistry, 3 years: Lester Harold Bailey, Ernest Frank Bowser, Methuen; Jack Wilson Bines, Lawrence; Edwin A. Rulmann, Lawrence; George A. Cain, Lynn; Everett C. Cookson, Lawrence; Mark L. Davis, Lawrence; Francis M. Flanagan, Manchester; D. Frazee, Emilie Louis Mosat, Jr.

**Doing the  
BIG things  
FIRST**

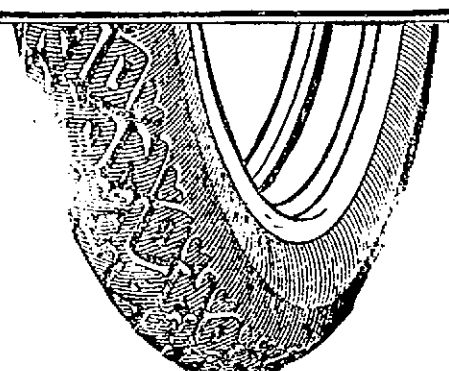

HERE is the first tire that ever was given a whole factory to itself!

Firestone Plant No. 2, with a capacity of 16,000 tires per day, is devoted solely to the production of the 3½ inch size.

It was a problem made to order for Firestone—big volume production of a high grade article.

Firestone met it with a typical Firestone answer—a separate \$7,000,000 factory.

Buy Firestones.

Most miles per dollar is a Firestone pledge, to the big car owner as well as to the owners of light cars. See the new Standard Oversize Firestone Cord.

Getting What You Pay For  
— IN YOUR —

# Spring Clothes

It's so easy to pay the price of good clothes and not get them that it behooves every man to be careful. Prices are pretty high, it's true; too bad as much can't be said for quality. It's more important today than ever to select a store where you're sure to get everything you ought to get for your money---style, quality, tailoring and a guarantee of satisfaction.

The Merrimack Clothing Co. guarantees all of this---and our prices are not any higher than you'll be asked to pay for the uncertain clothes offered so freely by unreliable dealers.

When you pay the price---be sure of the quality---Do your Spring buying at the Merrimack.

**\$40 \$45 and \$50**

Are prices which we feature this week for Men's and Young Men's Dependable Suits and Topcoats.

ENTERTAINMENT AT  
PAWTUCKET CHURCH

"Hitty's Service Flag," a side-splitting comedy in two acts was ably presented by the Amica class of the Pawtucket Congregational church before a large audience in the church vestry last evening. Miss Jeanne Pierce Jackson directed the performance. The cast of characters was as follows:

Methilable Judson, Mabel G. Armstrong, Mrs. Lucella Perkins, Rebecca Fish, Mully Emerson, Marion M. Seton, Stella Hussy, Grace A. Mansfield, Mrs. Stacia Brown, Gertrude Mason, Marion Winslow, Ruth Howe, Barbara Winslow, Doris Rigby, Mrs. Lishabrook, Ina M. Connell, Mrs. Winslow, Edna H. Armstrong, Mrs. Cobb, Edna H. Armstrong, Alta Linscott.

During the intermission musical selections were offered by Leonard Fish, Stanley and Raymond Davis, Barbara C. Davis, Amy French, Carina Bartlett, Ethel Vance and the Pawtucketville Boy Scouts' drum corps. Refreshments were served.

MANHATTAN SOCIAL CLUB

A largely attended meeting of the Manhattan Social club was held last evening at which officers were elected and plans advanced for the farmers' ball to be held next month. It was also decided to hold a parade through the business section on the night of the ball. Eugene McArdle was chosen to act as chief marshal of the parade, with Charles Dillon and John Baxter as assistants. The officers of the ball will be John McIlhenny, boss farmer; Thomas Healand, assistant; Dan O'Connell, foreman; Andrew Kelley, assistant; Chief hay shakers, Bernard Ready and John Farrell.

STUDENT LABORERS AT WELLESLEY

WELLESLEY, April 15.—Shortages of domestic servants and laborers with resultant high wages, were conditions of the past at Wellesley college today. A lack of dining room maids and of men to care for the college grounds resulted in squads of girls volunteering to do the work. The student laborers will receive 50 cents an hour and a small wage will be paid the dining room maids.

**BIG FOOD SHOW****AT UNION MARKET**

The food-fair held at the Union market yesterday afternoon from 2 to 5 o'clock, was an unprecedented success. During the entire time that the fair was on, the spacious store was always full—to the limit—and with the class of people to which such an affair appeals, the family woman—or the family man.

However, despite the large attendance, there was no confusion, due to the careful planning of all details and as carefully carried out by the special representatives of the firms exhibiting, assisted by the special representatives and demonstrators of the firms holding spaces.

And to each and every one attending was given numerous samples, both to be eaten on the premises and to be taken away, as well as numerous booklets containing recipes or especially appealing descriptions of the pure goods.

The fair was conducted by James W. Garland, superintendent of the Metropolitan division, Boston, of the American Sugar Refining company; William F. Gately, the local representative, and Henry Sargent of Haverhill.

Among the exhibits of which generous samples were given were Campbell's soups, J. P. Squires, Bond bread, Fletcher's tea and coffee, Simonson's pie lemon, Million dollar oleomargarine, Rumford baking powder, Sunshine biscuits, Curtis blue label chocolate, D. & L. Slade's spices, Simpson spring ginger ale, Mrs. Chapin's mayonnaise and marmalade, Libby's, McNeill and Libby's pickles, No-Maid brand, Stuckey's and Poor's, Baker's extract, Warner's macaroni, Pines Prize nut margarine.

In addition there were pleasing exhibits of Bridal Veil hour, which has gained wide popularity in Lowell, and which is in great demand at the present time, represented by Laurence Galvin of the D. W. Foye Co., this city; Jiffy-Jell, a nationally advertised product, represented by D. A. Johnson, manager of the New England territory; National Biscuit company, represented by Mr. King; Proctor and Gamble's, represented by F. C. Thomas; Gold Medal Flour, represented by G. J. Baker, the "Sally" Doughnut King, and who is to take an active part in the coming Salvation Army drive throughout the country; Corn Products company, having Mazola Oil, Karo and Argo Starch, and represented by S. P. Breene; Curtis Marshmallow Cream.

Perhaps the most distinctive exhibit was that of the American Sugar Refining company, in charge of William F. Gately, local representative, which showed the remarkable qualities and uses of Domino Golden Syrup. Some very neat displays of meats, etc., were also seen to advantage, and were presented by the market.

And all the time that the fair was on an orchestra furnished a splendid program of the latest selections, and kept the crowd in a merry mood.

The entire affair, in fact, was as complete an exhibit of food products as has been seen in many large halls, and the nature of the comment as people left the market was that its popularity as an annual event is practically assured.

**CLAN GRANT MEETING**

The members of Clan Grant held their regular meeting in Post 120, G. A. R. hall last evening and transacted routine business. Past Chief James MacGrandles was appointed a delegate to the grand clan convention to be held in Boston April 19. In the course of the meeting it was announced that next Tuesday Clan Johnstone of Andover with its ladies' auxiliary will be the guest of the local clan.

In India, if a man is not married at the latest by his twenty-fifth year, his reputation suffers.

**This Skin Peeler All the Rage in Society**

There is a growing tendency among women of culture and fashion to pay more attention to hygienic means of preserving their complexion. The advent of mercurized wax douches has been largely responsible for this. This remarkable substance produces complexion so natural in appearance, so gracefully beautiful, artificial complexion is no longer desired. Instead of "doctoring" an offensive skin, the skin is peeled off. The wax peels the skin so gradually, in such fine particles, no discomfort is experienced. The fresher, younger skin beneath, wholly in evidence within a week or two, is like white, satin soft and smooth. It's not a patched-over complexion, but a brand new one. That's why mercurized wax has become such a rage among society folk. The wax is put on nights like cold cream and washed off mornings. All druggists have it, of course; one ounce will do.—Adv.

THE BRUNSWICK

## OUR FOOD RESERVES IN CASE OF RAIL TIEUP

If the strike of railroad men extends to Boston, Lowell would face a shortage of fresh meat, fruit and some vegetables. Not only is the local meat supply low today, but the reserve in Boston is entirely too small to offer any foundation for a belief that meat would continue to be received here, with railroad transportation tied up.

Groceries would be more easily obtainable, however, and for as long a period as the Boston reserve would last. It would mean over-the-road hauling, but local wholesalers are well equipped for truck deliveries. If the city was forced to depend on canned goods, the local supply is considered sufficient, unless, of course, a strike continued for an unusually long time. Smoked and pickled products are on hand locally in adequate amounts and could be used as substitutes for fresh meat. Should daily supplies of the latter be cut off.

The potato supply in Lowell is decidedly limited; there are turnips enough on hand to meet the demand for about two weeks; very few tomatoes; oranges, scarce and high in price; apples, local supply probably fairly good; moderate supply of onions because dealers are buying closer at this time of year; cabbage, would last less than a week, with no more in sight; lemons and grapefruit are on hand only in small amounts, with Boston reserve at low ebb; bananas, are scarce.

Dealers already report a shortage of sugar and are inclined to trace it back to the fairly recent government order that quantities of Cuban sugar, offered to the United States at re-

duced prices, could not be recognized by American refiners.

No fears are entertained for Lowell's supply of salt or flour. There is always the possibility, however, that people will hasten to purchase in excess of their actual needs when a shortage is threatened, and if this should occur, the flour in reserve would not be sufficient for equitable distribution. If, in the case of a great emergency, a salt shortage would develop, it is believed that people could worry along by using the many kinds of goods which now come seasonally.

Other supplies of packed groceries such as raisins, currants, all cooking necessities and canned fruits are coming through slowly but steadily to Boston and the surplus on hand by the canners is said to be considerable. For such things, therefore, Lowell can rely upon Boston.

Lowell need have no fear of severe shortages of butter, eggs, lard or tea because the several large companies dealing in these provisions have well stocked warehouses in Boston capable of providing their stores for considerable time even if all railroad shipments were cut off. All such produce could be brought over the road from Boston.

## WHEN CHECKS COME HOME TO ROOST

In the kitchen of her own home Slater Mary cooks daily for a family of four adults. She brought to her kitchen an understanding of the chemistry of cooking, gained from study of domestic science in a state university. Consequently the advice she offers is a happy combination of theory and practice. Every recipe she gives is her own, first tried out and served at her family table.

(Copyright, 1920, N.E.A.)  
When checks come back from the bank a good way to straighten out accounts for the month is to paste the checks back on the stubs. The returned check is in itself a receipt and takes care of that part of the business.

The large check books having three stubs on a page are a little easier to handle than the small books. A rubber band snapped around the returned checks keeps them from the blank part of the book and causes no inconvenience.

This is really worth trying, for it verifies the monthly statement and preserves the checks and does away with the necessity of keeping receipts.

### Menu for Tomorrow

Breakfast—Sliced oranges, waffles, syrup, coffee.  
Luncheon—Broiled cottage ham, Hungarian potatoes, hot rolls, marmalade, tea.

Dinner—Corned beef, boiled potatoes, parsnips, brown bread and butter, raisin pie, coffee.

### My Own Recipes

A cottage ham is nothing more or less than the front part of pork shoulder. As there is no bone there is no waste. These little hams are usually very carefully cured and smoked. Broiled or boiled, the meat is tender

and a delightful change from the ordinary fare.

### BROILED COTTAGE HAM

Slice the meat quite thin. Broil just on one side under the flame of the gas oven until the edges curl.

### HUNGARIAN POTATOES

2 onions.  
3 tablespoons bacon fat  
1 teaspoon salt.  
1/2 teaspoon paprika.  
1/2 teaspoon pepper.  
3 cups potato cubes.  
3 cups boiling water.

Saute onion in fat till yellow. Add salt and paprika. Scald potatoes for five or ten minutes. Drain. Add potatoes to onion, pour over boiling wa-

## TERRIBLE ECZEMA FOR 10 YEARS

No Trace Of The Disease Since Taking "Fruit-a-lives"

DORRIS, NEW HAMPSHIRE.

"In 1906, I began to be troubled with Eczema. My arms and legs were handaged most of the time; and sometimes I could squeeze the pus out of my hands; they were so bad. About 3 months ago, I chanced to read an ad. of 'Fruit-a-lives' and 'Sootha Salva', in which was told of a person cured of Weeping Eczema by these remedies.

After using two boxes of 'Fruit-a-lives' and one box of 'Sootha Salva', I am entirely free of Eczema."

Dr. E. N. OLZENDAM, D.V.M.  
50c. a box, 6 for \$2.50, trial size 25c.  
At dealers or from FRUIT-A-LIVES Limited, OGDENSBURG, N. Y.

ter and cook in a covered dish till tender.

### CORNERED BEEF

3 1/2 pounds cornered beef.  
Cold water.  
Rinse beef well in cold water. Tie to keep in shape. Put in a kettle, cover with cold water, and bring slowly to boiling point. Remove scum as it rises. Simmer for two or three hours until tender. The potatoes and parsnips may be boiled in the broth.

## GIVE HIM TIME AND HE'LL HAVE A RANCH

HOUSTON—Arthur Brown, sent to jail for stealing two cows and a mule, broke jail and rode away on a stolen horse. Judge Robinson, who sentenced him, now wants to sell his cow fearing he can't keep it with Brown free.

**THIEVES GET GOAT**

**ADVENTURES OF THE TWINS**  
by Olive Roberts Barton.

### The Spilled Paint

After old Mr. Crow was gone, Rub-jor white-and-purple! "My goodness! adub, the fairy-man, went back to What's wrong with the yellow paint?" scrubbing up the wood-chuck, and he asked. "I'm sure the people will Nancy and Nick picked up some little wonder why they have no yellow flowers on their lawns if you make crocuses.

"You're dear little things!" said them all one color.

Nancy, cuddling two of the modest little flowers against her soft cheek. "Please, sir," said Nick, "there isn't a drop of yellow paint left in the can. I let everybody tramp on you and got tired waiting for his turn and never say a word, you're going to be off."

get your turn now, and you can be off. "What?" cried Rubadub. "No yellow to the Land-Where-Spring-Is-Coming! And spring almost here! What shall we do for the daffodils and right away."

So the twins got the big picture of tips and dandelions, to say nothing

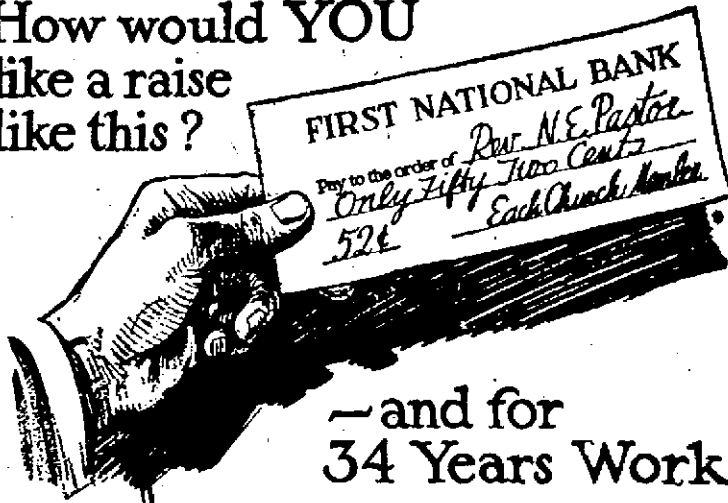

"YOU'RE DEAR LITTLE THINGS!" SAID NANCY, CUDDLING TWO OF THE MODEST LITTLE FLOWERS AGAINST HER CHEEK.

book to see just how crocuses should look and what colors to use, then they got paint and brushes and set to work. After a while Rubadub peeped at the row of finished blossoms. His little helpers were doing wonderfully well, and at the rate the creatures and flowers were getting fixed up he felt that Scrub-Up land would soon be empty and he could take a rest. But what was that? All the crocuses were purple, or white, or purple-and-white, daisies and pansies and buttercups? "The Fairy Queen has a supply of her palace store-room," said the Fairy Queen. "She makes it look like a garden."

"Good!" said the fairy-man. "I send the fairies for some as soon as they return from sticking on the yew say-willows."

But tomorrow you shall hear how the Green Rovers had to help them out (Copyright, 1920, N.E.A.)

52¢  
How would YOU like a raise like this?

—and for  
**34 Years Work**

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

### The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

### We Pay Him Half the Wages of a Mechanic

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic. And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

### We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can make.

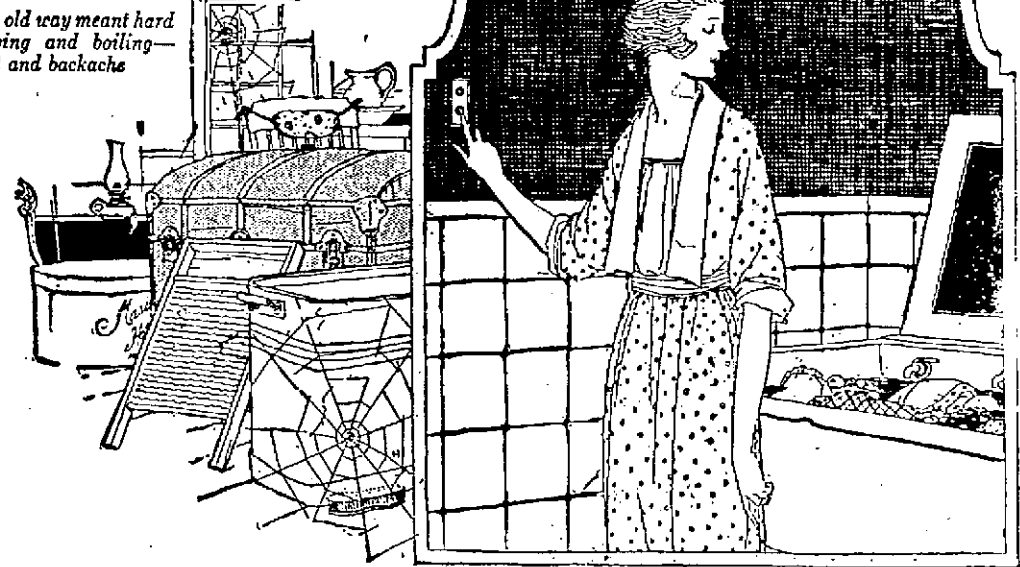

**INTERCHURCH WORLD MOVEMENT**

45 WEST 18th STREET, NEW YORK CITY

The publication of this advertisement is made possible through the cooperation of 30 denominations.

The old way meant hard rubbing and boiling—heat and backache

The new way—just soak, then rinse—that's all!

## Away with the washboard—the boiler!

You can get your clothes gleaming white—just by soaking

NOW is the time to send all the old washing things to the garret. The boiler and the washboard. The scrub brush, the pails and the dippers. The laundry soap, the washing powder, and the soda. You can do without them all. They only recall the drudgery and the backaches.

All you need today is Rinso.

Rinso is the wonderful new form of soap in granules—for the family washing. The Rinso granules, dissolved first in a little water, stir up into a soapy, bubbly tubful. You leave the clothes in over-night or for three hours in the morning. Then just rinse and hang out.

The new way saves your clothes—time

Your clothes are as safe in Rinso suds as in clear water. Rinso is so pure and so high in soap value that it loosens every speck of dirt right out—even in cold water. You can actually feel the soap in the water.

No hard rubbing. Only very soiled places,

wristbands, cuffs, etc., need a little light rubbing between your hands, no more. Rinso does away with that awful bending over a board and scrubbing until your hands hurt.

No boiling—Rinso makes perfectly white clothes without boiling. You need never boil your clothes again unless occasionally to sterilize them.

Aprons, housedresses, men's shirts, the hand towels—you can just rinse them white and clean, after a soaking in Rinso suds. And the clothes last twice as long without that heartless scrubbing and boiling to weaken the fabric and fade the colors.

Try the Rinso way this very next Monday. Until you have tried it once you cannot realize what a relief it is from the old-fashioned washday methods.

Get Rinso from your grocer today and follow the easy directions on the package. One 8c package does your whole week's washing. Lever Bros. Co., Cambridge, Mass. (Makers of Lux.)

# AN ALARMING PAPER SHORTAGE

Comprehensive Policy of Forest Protection Necessary, Says Pres. Sisson

Paper Head Declares Prodigious Methods Responsible for Situation

NEW YORK, April 15.—Prodigious methods in American forests and paper mills have brought the industry and the consuming public face to face with an alarming paper shortage which can be remedied only by adoption of a comprehensive policy of forest protection, George W. Sisson, Jr., president of the American Paper and Pulp Association, declared in his address before the association's annual convention here today.

Mr. Sisson said a program of legislation calculated to affect this result would be brought before the convention for action at a later session.

His Retailing Measures

The speaker deplored intimations from Canada that export of pulp wood from private lands might be curtailed hinting what retaliatory measures might be sought by Americans in the event of such action.

"Canadian industry must have coal," Mr. Sisson said, "common fairness indicates that access to raw materials should not be denied on either hand."

Mr. Sisson charged that government control of or interference with industry in general, was one of the prime causes of "the general lowering of efficiency in many powers," and urged that only such governmental restrictions be placed on business as are necessary to protect the public.

"If our government and civil servants and commissions would not so often misinterpret their functions as to become irritants rather than helpful, our entire business structure would be more stable and efficient," he said.

He declared conservative Americans were displaying a "shocking" apathy toward the spread of radical propaganda and urged that more effort be made to offset it. Especial attention should be given, he said, to the nation's schools, which are facing a shortage of 100,000 teachers next year. Many poorly paid teachers, he declared, are restless and out of sympathy with the communities they serve and are open, because of this, to the propaganda of radicals.

A letter to the association from E. T. Meredith, secretary of the department of agriculture, said the pulp and paper situation "is the most critical in the history of the United States."

Demand for News Print

"Our demands for news print increased very uniformly from 562,000 tons in 1899, to 1,700,000 tons in 1919," Mr. Meredith said. "Present demands, abnormal though they may seem because of the greatly increased advertising, are merely an incident in the rapidly growing demand for news print paper."

"The most disturbing phase of the matter is that 10 years ago, when the development of our industry stopped, the United States was practically self supporting in news print production. Today we are dependent upon other countries for the equivalent of two-thirds of the pulp wood, pulp or news print which goes into American newspapers. Our news print industry is concentrated largely in New England, New York and the lake states. I am told that 60 per cent of the pulp and paper mills in New York have no stumpage of their own and that less than two have enough timberland for future continuous operation. The predicted life of the industry in the northeastern states is alarmingly short. We have, on the other hand, large quantities of suitable news print woods in the Pacific northwest and in Alaska.

"A far greater degree of independence in news print manufacture can be accomplished by two measures, the development of the industry in the Pacific northwest and in Alaska and the large scale growing of timber in New England and the lake states. A fundamental question is the permanent supply of raw materials through the practice of forestry in both east and west.

"The capacity of the department of agriculture to serve our industry and, through it, the interests of the public, rests fundamentally upon two things: To hold well trained and experienced men under the compensation afforded by congress, and its financial resources for undertaking or extending work of obvious importance. The present situation of the federal department in both these respects is extremely critical."

Disorders in New York

Continued

The food crisis, intensified by the teamsters' strike, the "dying squadron" of the department of justice today arrested Nicholas J. Eschenbrenner, general manager of a wholesale firm dealing in Danish butter. He was accused of violating the Lever act by making 10 cents a pound on a large lot of butter, his profit totalling over \$60,000.

The railway mail service is handling foods which usually come by express or freight, it was announced today. Eggs and live chickens are being brought in wherever possible. Yesterday 2031 crates of eggs were delivered in Manhattan by box cars in the mail service. Freight cars are being pressed into extra service as postal carriers on virtually all roads.

Army Trucks Carry Mail

Nine army trucks continue in the mail service in Jersey City railroad yards, and 14 trucks have been made available for Manhattan for carrying perishable foods.

The department of justice and the postoffice authorities have decided to prosecute vigorously strikers interrupting the mails, and postal clerks are under strict orders to report all delays in mail transportation, the United States Railway Mail service announced.

Train service for mail has improved materially on all lines out of New York. Eighty-one extra cars of mail were shipped out of New York yesterday.

Passenger Service Better

Suburban passenger service generally was reported by the railroads much improved, due in large measure to collegians, ex-service men and others who were operating many trains.

The Hudson tubes were closed, however, and no trains ran on the Staten Island Rapid Transit Co.'s steam lines.

The New York Central announced it had five volunteers for every man in the service, but was "letting the unions handle the situation."

Officials of the road said one hundred car loads of provisions and foodstuffs had been made available during the night for distribution today.

Officials of other roads notified commission merchants where carloads of produce stranded by the strike could be found and efforts were being made to bring the shipments into the city by motor truck.

Volunteers Run Trains

The Pennsylvania announced that with nine volunteer yard crews at work movement of coal for New York public utilities was partially resumed today.

Out of the Pennsylvania station through train service was reported 50 per cent normal, a decided improvement over yesterday.

Your trains of perishable foodstuffs bound here from the south will arrive at Jersey City and be ferried across the Hudson to Manhattan before nightfall, the Pennsylvania announced.

On the Long Island railroad, Stevens Institute and Princeton volunteers were put to work as firemen, and 23 steam trains were operated.

The ferries made a new high record for passenger transportation from the New Jersey shore to Manhattan, the Pennsylvania alone bringing in 22,395.

Kissers Volunteer Firemen

The N.Y.N.H. & H.R.R. announced

haggage cars were being restored on regular through trains and local mail service was being revived. Through passenger service was reported normal, except for parlor car accommodations.

The American Railway Express announced that its embargo, had been lifted on shipments to Chicago for today only. On the success of a trip of express for that point will depend a permanent lifting of the embargo.

Frank Kramer, former national bicycle champion, and Mayor Martens of East Orange, N. J., were volunteer firemen on a Central railroad of New Jersey train today. When the train arrived at South Orange, an emotional young girl ran to the begrimed firemen and kissed them.

Call for Reinforcements

Police officers commanding the 100 reserves doing strike duty in the eggs and butter market district this afternoon sent a call to headquarters for 200 reinforcements, as reports were received of more trucks having been attacked.

No Decision on Strike

PHILADELPHIA, April 15.—The conference of representatives of striking Pennsylvania railroad men in the Philadelphia district, officers of the railroad brotherhoods and representatives of the company, and of the state bureau of mediation, which met here last night in an effort to end the strike in this vicinity, adjourned early today without reaching any definite conclusion. Officials of the company, however, appeared optimistic.

In Japan the sewage and refuse of every house is collected nightly and carefully used in agriculture.

AMERICAN, REPORTED EXECUTED, IS ALIVE

WASHINGTON, April 15.—John Reed, an American magazine writer, reported recently to have been executed in Finland, is alive and well, according to an official report received at the state department today from the Finnish government. Reed is under indictment at Chicago, charged with conspiracy to advocate the overthrow of the government by force.

MINSTREL SHOW AND DANCE TO AID PAWTUCKETVILLE MEMORIAL FUND

Further assistance for the Pawtucketville memorial fund will be forthcoming this evening when the memorial committee will sponsor a minstrel show and dance in Associate hall in aid of the fund. The Knights of Columbus-Glee club will put on the minstrel performance and those who have seen these entertainers in previous productions look forward to a most enjoyable evening.

Some of the most talented soloists and end men of the city are included in the aggregation and under the direction of William F. Thornton this evening's performance should score another hit for the minstrels. Following the show general dancing will be held until midnight.

Next Saturday will be "Banner day" in Pawtucketville and on that occasion every resident will be asked to buy a banner for the benefit of the memorial fund.

Owing to the embargo on railroad and strikes, goods are hard to get and will be higher, so buy NOW and save money.

Police officers commanding the 100 reserves doing strike duty in the eggs and butter market district this afternoon sent a call to headquarters for 200 reinforcements, as reports were received of more trucks having been attacked.

No Decision on Strike

PHILADELPHIA, April 15.—The conference of representatives of striking Pennsylvania railroad men in the Philadelphia district, officers of the railroad brotherhoods and representatives of the company, and of the state bureau of mediation, which met here last night in an effort to end the strike in this vicinity, adjourned early today without reaching any definite conclusion. Officials of the company, however, appeared optimistic.

In Japan the sewage and refuse of every house is collected nightly and carefully used in agriculture.

AMERICAN, REPORTED EXECUTED, IS ALIVE

WASHINGTON, April 15.—John Reed, an American magazine writer, reported recently to have been executed in Finland, is alive and well, according to an official report received at the state department today from the Finnish government. Reed is under indictment at Chicago, charged with conspiracy to advocate the overthrow of the government by force.

MINSTREL SHOW AND DANCE TO AID PAWTUCKETVILLE MEMORIAL FUND

Further assistance for the Pawtucketville memorial fund will be forthcoming this evening when the memorial committee will sponsor a minstrel show and dance in Associate hall in aid of the fund. The Knights of Columbus-Glee club will put on the minstrel performance and those who have seen these entertainers in previous productions look forward to a most enjoyable evening.

Some of the most talented soloists and end men of the city are included in the aggregation and under the direction of William F. Thornton this evening's performance should score another hit for the minstrels. Following the show general dancing will be held until midnight.

Next Saturday will be "Banner day" in Pawtucketville and on that occasion every resident will be asked to buy a banner for the benefit of the memorial fund.

Owing to the embargo on railroad and strikes, goods are hard to get and will be higher, so buy NOW and save money.

TRUNKS ..... \$6.50 to \$67.50

BAGS ..... \$2.00 to \$50.00

SUIT CASES ..... \$1.50 to \$35.00

SHOPPING AND SCHOOL BAGS ..... \$2.00 to \$10.00

POCKETBOOKS ..... 25¢ to \$15.00

UMBRELLAS ..... \$2.50 to \$18.50

## Fresh Ammunition for Lowell's Army of Spring Cleaners

NEXT MONDAY, April 19th, you'll probably attend to that long deferred job of painting. We've just put in a carload of paints and finishes; so you'll find full stocks of every "PAINT-UP" need on Coburn's paint shelves. While there are plenty of colors on hand at present, far-sighted property owners will order materials at Coburn's TOMORROW—That will mean prompt deliveries, and everything should be in readiness for a good start on Patriots Day.

**TOWN AND COUNTRY PAINT**—Four hundred brands of ready-mixed paints are now being made in the United States. Among them are plenty of imitations of one kind or another, sold under misleading names. Some of them are good paints but none of them will give such service on homes as TOWN AND COUNTRY PAINT. That's because it is made with scientific care from pure linseed oil, white lead, zinc and unfading color pigments. After twenty-five years experience with this paint, C. B. Coburn Co. can safely recommend it to anyone who wants a 100 per cent. "Surface Saver." Regular Shades, 1-2 pt. \$1.25, 1-2 Gal. \$2.50, Gal. \$5.00

**QUEEN ANNE PAINT**—Though not as old in years as many of its competitors, this most securely the niche of top notch excellence at the much desired medium of price. Under average conditions one gallon will cover 400 square feet, two coats. It is made in 24 standard shades, including Inside and Outside White and Black. The colors are always uniform, and can be matched at Coburn's any time for repainting. Regular Shades, 1-2 pt. 25c, 1-2 Gal. \$3.15

**U. S. N. DECK PAINT**—Has been satisfying Coburn's customers for more than thirty years. It is a quick-drying, extremely durable, general purpose paint, especially suitable for porches, walls, floors, interior wood, plaster, surfacing, porch chairs, lawn swings, fences and all boat and canoe painting. Its smooth, pleasing lustre withstands washing, scrubbing and the most severe conditions of wear and weather. Regular Shades, 1-2 pt. \$1.50, 1-2 Gal. \$2.50, Gal. \$5.00

**RICE'S GLOSS MILK WHITE** is an enamel finish at a paint cost. This Milk White is now offered for sale in small convenient cans. It is for interior use on the ceilings and walls of any room in your place of business or home. It is especially sanitary, gives a spotlessly clean appearance, is germ-proof, and actually reflects every ray of sunshine that enters a room. 1-2 pt. \$1.30, 1-2 Gal. \$2.50, Gal. \$5.00

**FLOOR AND DECK PAINT**—This is an ALL-QUALITY paint, yet its price is not beyond the most sensitive purse. It dries promptly and dries hard. It is especially resistant to moisture and gives long service under the trying conditions such a covering must necessarily meet. Tasteful colors aplenty. Quart \$1.07

**WIRE SCREEN PAINT** that brings the wire netting back to its original freshness and prevents rust. It flows freely and completely covers the wire strands without clogging the meshes. One quart will cover 18 window screens and two screen doors, both sides. 1-2 pt. \$1.00, 1-2 Gal. \$2.00

**SANITARY FLAT**—In the soft, velvety tones of this modern wall finish, decorators and home builders find the perfect combination of beauty, sanitation and economy. It provides the ideal background for home furnishings and yields the much desired atmosphere of good cheer and restful harmony. Gallon \$3.95

**OXIDE PAINT** is ready for use on roofs, barns, fences, warhouses and all outside work and rough lumber. Oxide paint works easily under the brush and is the cheapest paint in the long run because of its greater covering power and durability. Gallon \$3.10

**DUPONT OIL STAINS** for use on new wood work. They greatly enhance the color of pine, poplar, cypress and birch, securing hardwood effects, while they also serve to deepen the tone and beautify the finish of oak, walnut and mahogany with equal satisfaction. See color cards and get prices on all shades. Light Oak Oil Stain. Quart, \$1.00

**COBURN'S OUTSIDE SPAR VARNISH** is for marine and exterior finishing. It will give better results than any other spar varnish sold at a similar price. Perfectly adapted for hurried work. Flows freely and dries hard overnight with a deep lustre. Will not spot, blister or scale. Quart \$1.05

**COBURN'S PRESERVATIVE**—Made from pure imported gums and pure turpentine. It is of good body, easy working and covers well. May be rubbed or polished. Dries fast in four to five hours. Quart \$1.25

**COBURN'S ELASTIC FLOOR FINISH** is a tough, elastic varnish for finishing floors in homes, hospitals and public buildings. It dries over night and can be washed with hot water and soap without harming it in the least. Quart \$1.30

**COBURN'S CABINET RUBBING VARNISH**—A pale, free working, rubbing varnish of choice quality to be used on all kinds of fine furniture and repair work. It will take a high polish. Sets and dries promptly. Quart, \$1.05

**COBURN'S EXTRA NO. 1 FURNITURE VARNISH** is a hard drying varnish for use on chairs, settees and other household and office furniture. It works well, is of good body and dries with a high gloss. Quart \$1.05

**COBURN'S T. ASPHALTUM** is a heavy black varnish that withstands heat and is proof against rust. It affords the best possible protection for boiler doors, smoke stacks and other iron work. Quart \$1.00

**MONOLAC** meets the demand for a satisfactory universal varnish. It comes clear and in colors. Gives glossiness, hardness and elasticity to floors. Adds freshness and brightness to staircases, pillars and the mouldings. Eight natural wood shades. Qt. \$1.10

**MONOLAC GRADING COLOR**—Ground in distemper, for painting in imitation of the grain or texture of oak. Jar \$1.00

**READ THIS LIST OF VARNISHES**  
 Floxol-Flint Finish, qt. \$1.00  
 Coburn's No. 1 Furniture Varnish, qt. \$1.05

 Wearing Body Varnish, qt. \$1.50  
 Calman's All-In-One Varnish, qt. \$1.70  
 Chicago Supreme Varnish, qt. \$1.70  
 Crockett's Star Composition, qt. \$1.50

**MURESCO**—(White and Tints) for decorating and beautifying walls and ceilings. On smooth plaster surfaces Muresco will cover fifty to seventy-five square feet one coat. On rough surfaces one pound will cover thirty-five to fifty square feet one coat. Low prices on large quantities. Single pound, 8c

**MASTER PAINTER'S CALCIMINE**—A superior cold water wall finish for interior decorating. It comes in dry powder form in a variety of attractive shades and is ready for immediate use when mixed with cold water. Pound, 8c

**COBURN'S STANDARD COLD WATER PAINT**—For outside and inside use, is made in dry powder form, ready to apply when mixed with cold water. Five pounds will make one gallon of paint. Single pound \$1.10

**COBURN'S HIGH GRADE BRONZES** Are for use on all exposed iron or woodwork. Especially good for touching up radiators, exposed plumbing, picture frames, mail boxes, gas fixtures, elevator fronts and automobile engines.

Fire Bronze, oz. \$1.10  
 Brilliant Copper, oz. \$1.10  
 Brilliant Rich Gold, oz. \$1.10  
 Fine Flesh Copper, oz. \$1.10  
 Aluminum Bronze, oz. \$1.10  
 Antiqued Mission Green, oz. \$1.10  
 Dark Brown Bronze, oz. \$1.10  
 Dark Green Bronze, oz. \$1.10  
 Incomparable Gold, oz. \$1.10

**FOR MIXING BRONZE POWDERS**  
 Bronzing Liquid, 2 ozs. \$1.00  
 Banana Oil, 2 ozs. \$1.00

**COBURN'S GOLD AND SILVER FINISHES** are bright, ready-mixed and durable. They make wooden and metal articles look like gold and silver.

Lowell Silver Finish, 1/2 pt. \$1.00  
 Lowell Gold Finish, 1/2 pt. \$1.00

**BASENE LIQUID PIGMENT PUTTY** is an ideal preparation for filling cracks, grain and pores of wood, preparing it for the finish. Two shades, natural and golden oak. Pound \$1.00

**JOHNSON'S PASTE WOOD FILLER**—For filling the grain and pores of wood, preparing it for the finish. Two shades, natural and golden oak. Pound \$1.00

**CHURCH'S WOOD, CRACK AND CREVICE FILLER** is a non-shrinking, tough, elastic and adhesive compound for filling cracks caused by shrinkage of flooring and smoothing old floors. Pound \$1.00

**WHEELER'S WOOD FILLER** forms a hard, firmly fixed and transparent substance, which can be rubbed, sanded and polished to the very bottom of the pores within a reasonable time. Light and dark. Pound \$1.00

**PAINT AND VARNISH REMOVER** (Bull Dog). The only remover that satisfactorily removes old lead, zinc paint, enamel or shellac. It removes paint or varnish that has been baked on metal or wood. Cream and Liquid. Quart cans \$1.00

**STEEL WOOL**—The metal fibre which is made of the fine, hair-like shavings of steel is fine for rubbing down the surface to be painted or finished. Packages 10c and 20c

**PEMICE STONE** is considered one of the best articles for rubbing down a coat or finish. Pound \$1.00

**POWDERED SILEX** when properly mixed makes a good, hard filler. Silica is an ingredient of the best prepared fillers. lb. \$1.00

**PARIS WHITE**—Some painters claim that a little Paris White added to kalsomine will improve it. Pound \$1.00

**CALCINED GYPSUM** or Plaster of Paris, as it is commonly called, besides being used for castings, is good for mending large breaks in walls or ceilings. It holds still better when whiting and fine sawdust are added. Pound 7c

**Powdered Alum**—A little alum will prevent kalsomine from setting in hot weather. It also hardens it, as it does not remain jelly long. Pound \$1.10

**STENCIL PATTERNS**—The use of stencils on walls, draperies and hangings is an important feature of decorative art. Coburn's Stencils range in price from 25c to \$1.00

**PURE PUTTY**—Coburn's Lowell Brand Putty, made from pure whiting and pure linseed oil. White, lb. 10c. Red and Black, lb. 10c. Pure Whiting Putty, Commercial White, lb. 6c. Red and Black, lb. 10c

**PUTTY KNIVES**, made with the blade running through the handle, and triple beveled. 25c, 40c and 50c

**FEELLESS GLAZING POINTS** stop glass from sliding. These are used by florists and market gardeners. Pkg. \$1.25

**STANDARD GLAZERS' POINTS** are the old reliable triangles. All numbers. Pkg. \$1.50

**RED DEVIL GLASS CUTTERS**—The famous little wheel does the trick. \$1.00

**VITROLAC AUTO FINISH** will make the "Old Bus" shine like a new tin roof. The bright warm days are coming, the sun will soon be shining on both sides of the fence, and don't forget that Daylight Saving goes into effect April 25th. The birds of the countryside will be calling and you are going to GO. Many of these bright, new-looking cars you pass will owe their brightness to Vitrolac Auto Finishes—the finishes that add worlds to the appearance and dollars to the value of the used car. It is easily applied, flows out well and dries promptly. Set color card and prices on Vitrolac colors. Black \$1.40

**MOTOR TRUCK AND WAGON PAINT**—A very durable, high gloss paint, excellent for use on motor trucks, wagons, farm implements, tools, ice cream tubs, milk cans, fire plugs, pumps, separators, any wood or metal surface on which a high gloss finish is desired. Black, Gal. \$1.50; Vermillion, Gal. \$1.50; Blue, Green, Red, Yellow \$1.50

**BILCHACO CEMENT FLOOR COATING** is oil-proof and can, therefore, be used on floors likely to become injured from the action of lubricating oils and greases. One or two applications will keep cement floors from becoming stained or dusty. Regular Shades \$2.65

**ANTONIDE** is for all iron. For years it has stood alone, as champion, in "The Battle With the Iron-Eaters." Examine your rain pipe to see if it shows signs of rust. If it does, you'll probably have to touch them later unless you PROTECT them NOW. ANTONIDE, the rust prohibitive paint, will do this surely, easily and at little cost. Gal. \$1.10

**DIXON'S SILICA-GRAPHITE PAINT** is distinctively a protective paint. It is adapted to certain ornamental work where dark colors are appropriate, such as cornices, fences and so forth; but it is primarily a protective paint for all outside metal surfaces. It gives long service and is economical in labor and material. Gal. \$2.20

**COBURN'S SPECIAL BRONZE GREENS** are designed to meet the need for a green paint in paste form suitable for painting blinds, store fronts and work of this description. Master painters will find that these greens combine splendid working properties with price economy, and are thoroughly dependable. Dark Bronze Green in 5-lb. lb. lots \$1.50

**RIPOLIN ENAMEL** is made in Holland by the Dutch Ductal process under a secret formula. Its peculiar advantages are its wonderful elasticity, its permanency, its grainless, washable surface and its exceptional covering capacity. It rubs and polishes. 1-2 pt. 70c; 1-2 Gal. \$1.35; 1-2 qt. \$2.65

**BATH TUB AND REFRIGERATOR ENAMEL**—For metal lined bath tubs, refrigerators and sinks. This enamel, with its heavy tile-like, water and germ-proof surface, will keep them well protected and it is not affected by hot or cold water. 1-2 pt. 45c

**FLOWKOTE ENAMEL** is one of the best all-around enamels. It gives a surface almost equal to porcelain. It may be scrubbed with soap and water without injuring it in the slightest degree. Flowkote is easily applied. Qt. \$1.75; Gal. \$4.40

**CAJMAN'S ENAMOLIN** flows as freely as the finest carriage varnish. It may be brushed for half an hour without showing laps or brush marks. It spreads over 600 square feet per gallon. 1-2 pt. \$1.00; 1-2 Gal. \$2.00

**SANITARY ENAMEL GLOSS** makes a special appeal to the housewife because grease, dirt and stains can be readily washed from its surface without marring the hard enamel finish. Qt. \$1.10; Gal. \$1.90

**STOVE ENAMEL**—Keeps metal articles free from rust. It brightens up and preserves coal stoves, gas stoves, stove pipes, bread boxes, spice, tea and coffee tins and other household metalware. Pt. 40c

**PERMANENT GLOSS ENAMEL**—The black boiler enamel that will stand 700 degrees of heat. Unexcelled for auto and boiler fronts, steam pipes, radiators and all hot surfaces. Gal. \$1.00

**COLUMBIA YACHT WHITE** is a pure semi-gloss white paint, suitable for the finest boat work. Qt. \$1.85

**GREEN COPPER PAINT**—This copper boat paint is an anti-fouling composition for boat bottoms. Qt. \$1.80

**GOOD PAINT AND VARNISH BRUSHES**—Before buying brushes visit Coburn's Brush Department and see what this store has to offer in round, flat and oval Paint and Varnish Brushes. Inspect the quality of the bristles and you will notice that they are of good uniform length, are elastic and are solidly set in rubber, cement or glue. All of the styles and qualities carried are not included in the following list. You should come in and witness the complete line.

**THE GLOBE WALL PAINT BRUSH**—Brushes set in rubber. Nos. 70, 50 and 20. Priced \$1.50, \$2.00, \$3.25

**THE LAWRENCE WALL PAINT BRUSH**—Set in rubber. Nos. 60, 70 and 80. Priced \$1.50, \$2.75 and \$3.45

**HAMILTON PLAT PAINT BRUSHES**—3 inch, 3 1/2 inch and 4 inch. Priced \$3, \$3.15, \$4.10

**SOLID CROW OVAL VARNISH BRUSHES**—Nos. 1 to 20 \$1.05 to \$2.05

**COBURN'S CHINESE CHISEL PLAT VARNISH BRUSHES** are very popular. XX, in five sizes, 2 1/2 to 5 1/2 in. \$1.07; XXX, in five sizes, 2 1/2 to 5 1/2 in. \$1.07; XXXX, in five sizes, 2 1/2 to 5 1/2 in. \$1.07

**DARIAN SASH AUTO FINISHING BRUSHES**—In ten sizes. 15c to 40c

**BEST WHITEWASH AND KALSOMINE BRUSHES**—Satisfaction gained by using good tools makes work a pleasure. Don't get an impression that Coburn's Whitewash and Kalsomine Brushes are expensive. They were made to fit a practical want rather than to fit a price, and they are the most economical brushes to buy.

**GRAY WHITEWASH BRUSHES**—Made of pure Russian bristles. Two sizes. \$2.52 and \$1.64

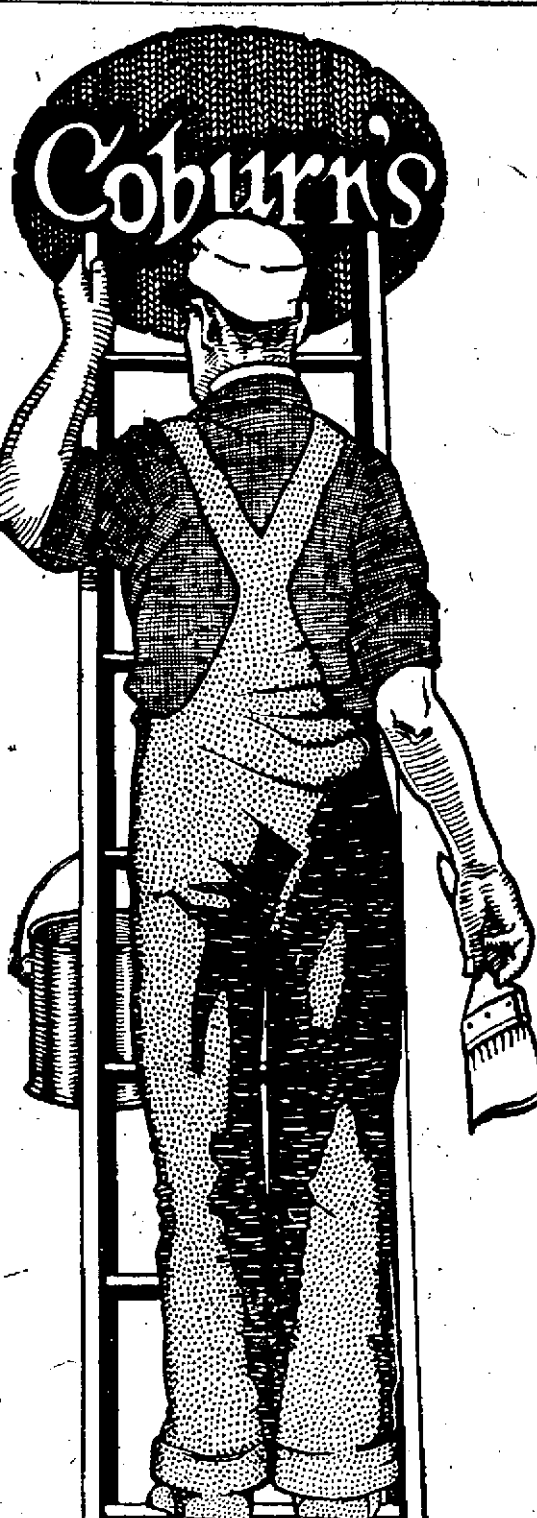

**WHITEWASH BRUSHES**—White bristles with gray centres. \$2.52 and \$1.58

**OKATA KALSOMINE BRUSHES**—White with gray centre. \$2.52, \$1.52, \$1.00

**SICK'S PAPER HANGERS' SIZING**—For papering over whitewashed, kalsomined and painted surfaces. Gal. \$2.70

**GROUND SIZING GLUE**—For the priming of plaster walls. Pound \$1.70

**GRAINING TOOLS**—Monolac Grainer and Comb with simple directions for using over Monolac ground coat. \$5c

Mrs. Elsie Lentino

## WANTED: A SOLOMON

NEW YORK—Who shall have the child of Mrs. Elsie Phillips Lentino? Five years ago when little Elsie Lentino was born her mother was unable to care for her. The baby went to neighbors and finally to Mrs. Ada Feser, the Bronx. Mrs. Feser who has no children of her own, now fights the mother for possession of the child in the Bronx supreme court. "I was sick in bed and had been given 'hot drinks' before I signed the adoption papers," says Mrs. Lentino. "The child is mine by adoption," says the foster-mother.

## President of Guatemala Flees

HAVANA, April 15.—Manuel Estrada Cabrera, president of Guatemala, against whose administration a revolution has been going on during the past fortnight is believed to have fled from that country and to be on his way to Cuba, according to the newspaper El Mundo.

## To Bar Food Exports From Ireland

DUBLIN, April 15.—Prohibition on food exports from Ireland until the market becomes normal, is demanded in a manifesto issued last night by the labor party. It says the dislocation of traffic and the absence of transports have denuded towns of food.

## TRANSFORMER STATION AND WATER TOWER

Permits were issued today at the office of the buildings department at city hall to the Bay State Cotton corporation for the erection of two buildings auxiliary to the new \$1,000,000 plant now under process of construction in Broadway. One was for a steel water tower to be erected east of the main storehouse, 50 feet from Broadway. The foundation would be of reinforced concrete with a gravel foundation. The tower will be used for water protection. The Chicago Bridge and Iron works are the builders and the cost is estimated at \$15,000. The tower will have 100,000-gallon capacity.

The other permit is for a transformer station of reinforced concrete to be erected by the Abernethy Construction company. No estimate of its cost is given.

## OUR KINGDOM FOR THAT COMBINATION

"I suppose you haven't forgotten about the three barrels of whiskey seized by the police Tuesday evening," queried Supt. Welch of the police department, when the police reporter casually dropped into his office this morning, in search of a little news. The reporter admitted that he hadn't forgotten—nor was he likely to, for a while, either.

"Some time ago," the chief continued reminiscently, "we seized a large amount of whiskey and part of it was afterwards stolen. You perhaps remember that, too?"

And again the news hound admitted that such was the fact.

"Well, this whiskey isn't going to be stolen," declared the chief emphatically—and he can be decidedly emphatic when he chooses, can the chief?

"Not so you could notice it. That whiskey is in a vault in the police station cellar and that's where it's going to, remain until it is turned over to the federal authorities. The vault is securely locked and I'm the only man in Lowell who's got the combination."

The reporter wanted to know what would happen to the booze after it was turned over to the federal authorities and the chief explained that it would be utterly, completely and entirely destroyed. Probably they'd pour it into a catch basin or some such place, he said, and that would be the end of it.

It's mighty good whiskey too, the chief pointed out. Federal authorities tested it yesterday, and found that it registered as high as 110 proof.

Reporter explained just before leaving that he had been the unlucky possessor of a bad cold for the past month.

The chief wouldn't fall for it, however. Just said again that the three barrels aforesaid were in the vault and by the great horn spoon, that's where they'd stay, and there you are.

## Names New Firemen

Continued

McCready, being adjutant of the local post of the American Legion. The ten new men are the following: Daniel P. O'Connor, 53 Adams st. John J. Mulligan, 49 Andover st. Daniel P. Murphy, 55 Manchester st. Walter J. Powers, 545 Central st. James P. McCready, 126 Bowers st. Warren White, 46 Andover st. Walter E. McNally, 57 So. Whipple st. John P. Thomas, 59 Fourth ave. William F. McNiff, 25 Bowne st. John P. Mealey, 215 Cross st. William F. Keenan of 15 Otis street was fifth on the list of eligibles furnished the commissioner by the civil service commission, but he did not wish to accept the appointment. The appointees are the highest men on the list.

## A Friend Worth Knowing

We make many acquaintances, some of which develop into friendship, but not all prove themselves true friends. It is just as essential that we have a reliable friend in the form of a medicine as a personal friend, so that when we are afflicted with various ailments we can have something we can absolutely depend upon.

The next time you have any stomach, liver or kidney trouble, and you are not already acquainted with the wonderful merits of SEVEN BARKS, nature's remedy of roots and herbs, we urge you to give it a trial, and we will predict that it will become one of your most valuable friends from a medical standpoint.

For nearly half a century SEVEN BARKS has been a valuable and timely friend to all sufferers of stomach and liver disorders. A trial will quickly prove its wonder efficiency, and after that you will never be without it, and gladly recommend it to your friends. Doctor's bills these days run into money fast, and can often be saved if you will but keep on hand a bottle of SEVEN BARKS, the old-fashioned remedy that our parents and grandparents used to keep their families rugged and well.

If you want a friend that will stand by you in time of need, ask your druggist for SEVEN BARKS. Price but 50 cents per bottle, enough to last a long time—Adv.

## Chancing

That's what you're doing every time you take new unknown remedies, for which marvelous claims are made. Your health is too important to risk in questionable experiments, especially when your druggist always has the tried and tested "L.F." Atwood's Medicine on hand. This worthy old remedy well deserves the confidence that 60 years of unchanging quality have established.

At the first signs of stomach disorder, biliousness, or headache, one or two teaspoonfuls of "L.F." will quickly restore normal conditions to your digestive organs. Small doses, taken regularly, will maintain a healthy condition that will ward off colds and disease. Get a bottle today and keep a supply always on hand. Large bottle, 50 cents, or a generous free sample from the "L.F." Medicine Co., Portland, Maine.

## PULL GUNS TO HALT STRIKERS

Crowd Attempting to Reach Strikebreakers at Somersworth, N. H., Routed

Fire Department Ready to Turn Hose on Mob if Disturbances Continue

SOMERSWORTH, N. H., April 15.—Labor disturbances at the shoe shop of J. W. Warren here caused sheriff and police officers today to hold back a crowd with pistols drawn while strikebreakers and some regular employees went to work. The crowd rushed the officers in an attempt to reach the strikebreakers, but were thrown back or retreated under the show of weapons. One man was hurt by a brick.

The appearance of the strikebreakers yesterday had been marked by disorders in which three of their number were injured, and the party chased from the shoe factory across the state line into Newkirk, Me., to the hotel where they were quartered. A crowd which surrounded the hotel, shouting that they wanted to get at the strikebreakers, was dispersed when Deputy Sheriff Coffin had the fire department set up three lines of hose which he threatened to turn on the crowd.

The United Shoe Workers of America demanded recognition of their union a month ago. When the employees returned to work from dinner that day they found notices on the gates that the plant was closed indefinitely. Attempts have been made to operate it for the past two weeks.

## Mayor Issues Proclamation

Continued

names next Monday as the opening day, an effort is being made to have the work started next Saturday afternoon and continue over the week-end. Chief Saunders of the fire department says that particular attention should be paid to alleys where rubbish has accumulated to a alarming degree during the past winter. Such debris not only presents an excellent opportunity for a dangerous fire, but also impedes firemen when they are called upon to extinguish a fire in such surroundings. Alleys should be thoroughly cleaned out and where rubbish has been allowed to accumulate in cellars particular attention should be paid to them.

The board of health will do its share in the campaign. Agent Francis J. O'Leary urges a thorough cleaning up of the city for no other reason than the sanitary benefits to be derived.

This man are ready, he said today, to collect whatever rubbish is left out for them on their regular collection days. His only stipulation is that householders refrain from filling large sugar barrels with several hundred pounds of material and expect the collectors to be able to handle them. Ordinary barrels are sufficient for most families and if there is a large amount of rubbish to be disposed of several small barrels should be used instead of one large one. Very often the collectors strain themselves in handling such heavy loads and are forced to give up their labors for some time.

The mayor's proclamation given out today is as follows:

## PROCLAMATION

To all men, women and children of the City of Lowell. During the week of April 19th and for as many weeks thereafter as may be convenient, you are invited to participate in the annual campaign to keep the community life throughout our city, clean, healthy, thrifty, safe and beautiful.

And to that end, all are invited to expend their energies in removing all debris, junk, rags and unnecessary inflammable accumulation from their premises; and to clean their yards, cellars, attics and closets, in order that the city of Lowell will stand in the forefront of the cities of our commonwealth as a real clean city.

Let there be an active participation in this campaign of every city department, of every corporation and factory in our city, so that there may be presented the highest standard of our civic life by a demonstration of a clean, wholesome city.

Let everybody, therefore, get together, and exert his best energies in making this annual spring cleaning campaign a genuine success.

PERRY D. THOMPSON, Mayor and Commissioner of Public Safety, Lowell, Mass., April 14, 1920.

## Coal Supply Cut Off

Continued

Boston & Albany roads have announced a refusal to make further deliveries of soft coal to commercial consignees, due to the fact that their supply of available fuel for motive power has reached the danger point.

In case of dire necessity, however, attempts will be made to deliver coal to industrial consignees exclusively served by either of these roads. "Dire necessity" covers only such plants as will be compelled to shut down if emergency supplies of soft coal are not immediately received.

One local dealer said today that he has found the Boston & Maine railroad

men very willing and anxious to release as many cars as possible, but that not only has he lost cars in transit, but also the road has taken them after their arrival in Lowell.

Most of the larger textile mills of the city have comfortable supplies of soft coal on hand, accumulated during the past several weeks, or since the railroad recovered from their winter freeze-ups. There are other local industries, however, that rely upon almost daily deliveries and it is in regard to these plants that the present concern is felt.

## Says Advertising Pays

Continued

position of the dangers of carelessness given through the medium of public speakers and the presentation of the "Careless America" film during the past two weeks cannot fail but result in minimizing our street traffic accidents in future.

Supt. Welch also stated that he wishes to thank officials of the local chamber of commerce, the community club, and Hugh J. Molloy, superintendent of schools, for efficient assistance in sending the campaign over the top.

He also wishes to thank the following speakers, who made addresses in the local theatres during the drive: Mayor Perry D. Thompson, Commissioner George E. Marchand, City Auditor J. Joseph Hennessy, Rev. A. W. Shaw, assistant rector of St. Anne's church, Major Walter H. Jones and Allyn's Bennett Silverblatt, Arthur L. Eno, Frank Goldman and Albert S. Howard.

Lowell's theatre managers, who did their bit by making possible the presentation of the "Careless America" accident prevention film in the local theatres during the drive, are also entitled to a large share of credit of the success of the campaign, the chief declared.

The campaign was officially closed last evening, when several speakers appeared at the theatres of the city and spoke briefly on the dangers of carelessness in connection with the final presentation of "Careless America." Commissioner George E. Marchand spoke at the Jewel theatre, Rev. Arthur W. Shaw at the Merrimack Square theatre, Arthur L. Eno at St. P. Keith's theatre, Bennett Silverblatt at the Owl, Major Walter H. Jones, Crown theatre and Supt. Welch at The Strand theatre.

An Alabama man has invented a pistol that is practically a miniature machine gun, as its cartridges are loaded into a chain of almost any length desired.

## She was Fat

The shadow on this picture gives you an idea how she looked and felt. By using the 50¢ bottle of Allenburys' Dietetic Food, she reduced 24 lbs. in three months. Now she is slim, attractive, energetic, alert and in better health. Reliable and safe! Guaranteed to reduce 24 lbs. in 10 to 30 days. Becomes rapidly thinner and more active. Pleasant and palatable. Guaranteed by physicians. 100¢ GUARANTEE. Buy 50¢ of Koenig at any druggist, or while the free brochure, write to you in plain English to Koenig Co., RD-201, Station P, New York City.

## EXPECT BIG BREAK IN STRIKE

Atty. Gen. Palmer's Charge Expected to Bring About End of Railroad Strike

Charge Foster, Head of Steel Strike, Also Man Behind R. R. Walkout

Railroad officials whose lines have been crippled by the unauthorized strikes of operating employees waited today for the big break in the strikers' ranks which they hoped would be produced by Atty. Gen. Palmer's announcement that the strike leadership had been traced to radical quarters. Mr. Palmer's statement that William Z. Foster, radical leader of the unsuccessful steel strike last fall, was the guiding genius in this strike, and that its object in reality was the formation of "one big union" was expected to influence many of the less radical strikers to return.

Hope that the Palmer statement would break the back of the strike, however, did not deter railroad officials from exerting every effort to speed the process by operating their lines with volunteers and loyal employees.

Conditions in the central and far west were declared to be returning steadily toward normal and marked increases in both freight and passenger service were reported in the east.

The first sign of willingness on the part of eastern strikers to negotiate came last night when Edward McHugh, chairman of the strike committee, sent a message to the new railroad labor board stating that the men would welcome an opportunity to lay their grievances before the board. He asserted, however, that the men would not return to work, pending a hearing. The transportation act, under which the board functions, provides that no consideration shall be given to claims of men actually on strike.

United States capital placed in Canada in 1919 totalled \$100,000,000.

## How You Can Quickly Remove Hairy Growths

(Aids to Beauty)

A well known beauty specialist advises this treatment for the removal of hair from the face. Mix into a paste some powdered delatone and water, apply to hairy surface and after about 2 minutes rub off, wash the skin and every trace of hair has vanished. This method is quick and entirely safe. To avoid disappointment, however, it is well to make certain you get genuine delatone.—Adv.

## SERIOUS SHORTAGE OF COAL IN NEW ENGLAND

BOSTON, April 15.—A serious shortage of coal for New England's railroads and industries threatened today, to necessitate curtailment of all passenger schedules and a partial industrial shut-down. Coal stocks of the railroads were said by officials to be sufficient for only four or five days. Industries suffered through confiscation by the railroads of commercial coal.

The N.Y.N.H. & H.R.R. announced that a drastic reduction in passenger service might be expected Saturday or Monday. Officials declared that improvement of conditions was not altogether contingent on settlement of the strike of railroad employees outside of this region as it would be some time before New England would have sufficient coal.

Officials of the Boston & Albany and Boston & Maine railroads were awaiting more complete reports on their coal stocks before determining on changes in schedules. Freight service within New England was reported as virtually normal with the exception of coal shipments.

Food supplies were reported to be sufficient to relieve anxiety of an immediate serious shortage. Many fleets of motor trucks were added today to those already engaged in transporting perishable foodstuffs. The products of numerous industries also were being shipped in this manner.

Railroad employees on regional lines continued at their work. The roads have received offers of volunteers in the event the men join the strikers.

Bathing in Nevada has been pronounced a luxury by the United States government.

## RHEUMATISM

LEAVES YOU FOREVER

Deep Sealed Uric Acid Deposits Are Dissolved and the System Within Twenty-four Hours

Every druggist in this country is authorized to say to every rheumatic sufferer that if two bottles of Allenburys' the sure conqueror of rheumatism, does not stop all aches, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenburys has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenburys, who for many years suffered the tortments of acute rheumatism, does not want a cent of anyone's money unless Allenburys decisively conquers this worst of all diseases, and he has instructed every druggist, to guarantee it in every instance.—Adv.

## Less Than a Nickel a Week

This is all that Swift & Company's profit cost the average American family in 1919.

Here are the figures and authorities for them.

The average consumption of meat per person for a year is about 180 pounds (U. S. Government)

The average American family is 4½ persons (U. S. Census).

Swift & Company's profit from all sources in 1919 averaged less than ¼ cent per pound on all products including meat.

This averages for the family less than the price of—

1 cigar per week for father, or 1 street car fare per week for mother, or 1 package of gum per week for the children.

The complex service which we furnish the public is efficient and economical. The cost to the public in the shape of profit is too small to be noticeable in the family meat bill.

## AMUSEMENT NOTES

(By Theatres' Own Press Agents)

**H. F. KELTH'S THEATRE**  
The delicious travesty surveyed at the B. F. Kelth theatre this week by Tom Smith and Ralph Austin is headed "All Fun." It's that, and more. Smith and Austin are two really very funny men, who are dancers par excellence. In order to bring laughter they are willing to sink their abilities in certain lines, and by so doing they make a "different" kind of act. Harry Green is still singing songs about his audience, and "The Daily" variety splendidly and insistently with a dance that is nothing if not a positive hit. A rather unusual comedy is "The Meanest Man in the World," played by Jack MacGraw and Marion Day. Other acts on the bill are: Dancing Melodrama, Perme and Shelley, and "Turner & Grace."

**MERRIMACK SQUARE THEATRE**  
Wallace Reid's new picture, "Excuse

My Dust," which is the feature attraction at the Merrimack Square theatre tomorrow and Saturday, is an exciting automobile story and is the sequel to the handsome star's former success, "The Hearing Room." "Excuse My Dust" was adapted by Will M. Ritchey from an original magazine story by Byron Morgan. The same stars who figured in "The Hearing Room" have prominent parts in this production, including Theodore Roberts, Ann Little, Tully Marshall and others. "My Lady's Car," an exciting detective story produced by Maurice Tourneur, is the other feature for the latter half of the week. Burton Holmes travel pictures and a comedy round out the bill.

**OPERA HOUSE**  
"The Escape," Paul Armstrong's celebrated melodrama, is the offering of the Lowell Players at the Opera House for the remainder of the week. "The last performance given yesterday afternoon and last evening were greatly enjoyed by large audiences. Although programmed as a melodrama offering, the production also has a very tender love story running through it, and the artistic interpretation of the principal roles presents a pleasing mixture of the humorous as well as the serious side of life.

"The story deals with the lives of two sisters, whose early life is spent in the town of New York city. The older sister eventually realizes that her life will be but a miserable failure if she remains in the squalid surroundings where her parents seem perfectly content, and finally decides to go "up town" and make her own way in the world. How she finally succeeds in achieving success and finds true happiness is an enthralling story.

## Rosindale Woman Recommends This Prescription

Mrs. Albert J. Patch of Rosindale, Mass., writes: "Before taking your medicine (Dr. True's Blixir) I was troubled with what I thought stomach trouble. I had that terrible gnawing in my stomach nearly all the time. Within half an hour after eating a hearty meal I would have that same disagreeable feeling. I was losing my weight every day. After taking your medicine (Dr. True's Blixir) I was relieved of the terrible gnawing in my stomach, expelled worms, and I felt like a new person in many ways, and would heartily recommend it to any one suffering as I did. Headaches, tired feeling, weakness, spots before the eyes, bad breath, sleeplessness, irritability, dizziness, constipation can be relieved, if you take Blixir. The Family Laxative and Worm Expeller. It has done much for sick people, men, women and children, ever since 1851—over 68 years reputation. AT ALL DEALERS—Adv.

replete with tense and thrilling situations. Her younger sister, who remains too long in the tenements and marries a bully of the district, dies a short time after the older girl leaves home.

The cast is the strongest seen on a local stage in a long time for every role is well adapted to him or her. Miss Marguerite Fields, as the girl who left home to make a success of her life, is seen in one of the best roles in which she has appeared, and adds another triumph for her already long list. Hooper Atchley, who plays the part of a young doctor who falls in love with her, appears to the advantage and all others in the cast give most creditable interpretations of their parts. Director J. Francis Kirke, as the father of the sisters, and Eugene Shakespeare, her brother, are especially good. Others in the play are: Miss Violet Stuber, Miss Jennie Knapp, Miss Mabel, Jack Bennett and William Melville.

**THE STRAND**  
Taylor Holmes will come to "The Strand" today in his newest, funniest comedy, "The Very Idea," adapted to the screen from the New York comedy success by William Lellaron. Those who are still chuckling over the last comedy success, "Seaside Bus the Truth" will have in this most recent production an attraction which is utterly different except that it is fully as hilarious and diverting. Mr. Holmes will be seen as Gilbert Goodhue, a young husband who has been pampered all his life and who, after marriage, finds his wife is the same sort. The thing they want above all things is a baby, and doctors have assured Gilbert that Edith is too frail to have many babies in the world, grown up and otherwise. That it would seem on first thought an easy matter to put one of them without being missed but the story of "The Very Idea" belies this assumption. Edith's brother, an authority on eugenics, comes to the rescue, and in only the start of the trouble. What follows forms one of the most absurdly funny, yet none the less human and appealing comedies ever written. A cast of exceptional ability helps Holmes enact the play. Don't miss it if you want a good, hearty laugh.

"A Manhattan Knight," the George Walsh special for the latter part of the week, was founded on the successful novel "The Woman" which has the singular distinction of being practically without lapse of time and is an exceptionally fast-moving story in which nothing is left to chance or other without pause. It has the proverbial "pew" that marks all Walsh productions.

**THE OWL THEATRE**  
An entire change in vaudeville and pictures is scheduled for the Owl Theatre today. Three brand new vaudeville acts of the big time type will be shown in addition to two headliners, Dorothy Dalton in "Gambie In Souls" and Vivian Martin in "Luxuries and Wives." Both six dramatic pictures, a scheduled "The Lost City," comedy and weekly, complete the bill for which the performances are continuous daily starting at 1 p. m. Night prices are 10c, 15c and 25c. See the big bill of vaudeville and main features.

**BUTCHERS AND GROCERS**  
The Butchers and Grocers' association held a reorganization meeting in the quarters of the Master Plumbers' association in the Donovan building last evening. Several communications from the state and national associations were read and considerable business was transacted. It was voted to retain membership in the Community Service, Inc., and David Gerow was appointed as the association's delegate. John E. Reagan of the Lowell Credit association gave an interesting talk on the results of co-operation. The following reorganization committee was appointed by President Cosgrove: David Gerow, Joseph Green, Joseph R. Donovan, George C. Fairburn and M. B. Kahn. The following were appointed to attend the state convention to be held soon in Haverhill: President Cosgrove, John H. Burke, Joseph R. Donovan and George H. Maguire.

## HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lary, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study. Dr. Edwards' Olive Tablets are a pure vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Millions of boxes are sold annually at 10c and 25c. Take one or two nightly and note the pleasing results.

## HOW WOULD YOU LIKE TO BE AN ENGINEER?

Although the members of Local 754, Stationary Steam Engineers of Lawrence have filed their demand for an increase in wages it is not believed that such action will be taken in this city for some time, for it is stated in union circles that the new scale of wages presented by the down-river city engineers is a state wide affair already in force in this city.

The new scale presented in Lawrence is as follows: Engineers in charge of first class plants, \$50 a week; engineers operating first class plants, \$45 a week; engineers in charge of second class plants, \$45 a week; engineers operating second class plants, \$40 a week; engineers in charge of operating third class plants, \$40 a week. Eight hours shall constitute a day's work and 15 hours a week's work and all work in excess of eight hours in any one day or 45 hours in any one week will be time and a half.

Secretary Prescott, of the Lowell local of Stationary Steam Engineers, stated this morning that the scale was prepared by the International, approved by the state and adopted by different locals. He said this scale of wages, with the exception of a few plants, has been in effect in Lowell for some time and that the plants which have not yet fallen in line are doing so gradually, so that no formal demand for the adoption of the new scale will be made in this city. Mr. Prescott also stated that in some cases Lowell concerns are paying their stationary engineers more than the scale requires.

John Brown's grave has just been sold with the farm at North Elba, N. Y. It was only recently that the grave was marked with a monument.

## DECLARES PRICES OF COAL NOT JUSTIFIED

BOSTON, April 15.—The commission on the necessities of life finds that the recent advance in the price of coal was not justified with respect to at least 75 per cent. of the coal coming into Massachusetts. The commission submitted its report to the legislature yesterday afternoon.

It is stated by the commission that it has transmitted to the attorney general for such action as he may deem proper, the testimony given by coal dealers at last week's hearing before the commission.

The report says the commission is powerless to prevent profiteering on the part of the coal dealers, and it suggests that the legislature re-enact legislation providing for the licensing of coal dealers in this state, such as obtained for many years prior to 1915.

The inquiry by the commission was undertaken in response to an order adopted by the general court April 8, and its first hearing was held the next day.

## Prices Advanced Same Day

After getting forth in some detail the sources from which Massachusetts coal is obtained and the transportation routes, the report says:

"Answering the inquiry of the honorable general court, it would appear that the present price of coal was not justifiable in the case of 75 per cent. of the coal.

"A hearing upon the situation was held on April 8. It was the universal testimony on the part of all the retail coal dealers that their prices advanced in approximately the same amount on exactly the same day (April 1). Collusion or combination was denied. The evidence of the hearing has been taken stenographically and is being transmitted to the attorney general for such action as he may deem advisable.

"The situation in Massachusetts is that the largest coal company, the Metropolitan Coal company of Boston, ordinarily fixes the rate of coal for the whole state, as most dealers follow the Metropolitan company in any change of rate, especially upward. The Metropolitan Coal company is largely dependent upon barge delivery. The barge rates formerly were less than the rail rates, but during the past year it has become a more expensive way of shipping coal.

"It is believed that the present rate of \$14.50 per ton is not justified for the Metropolitan company, even with its increased cost. There is certainly no justification in following such an increase on the part of other dealers whose costs have not advanced in any such degree.

## Costs Dealers No More

"The justification for the increase in price—in so far as there is a justification—appears to be fear on the part of the coal dealers of future increase of rail rates and increase of price at mine due to the readjustment of the coal miners' wages which is now in process of settlement. If the law of supply and demand is a justification, this might also be pleaded, as the present supply of coal in Massachusetts, owing to interference in the normal machinery of transportation, is low.

"It is not felt that either of the foregoing reasons is sufficient to justify the advance in price. It may be that when

the new wage scale of the miners is fixed and when the new railroad rates go into effect in September, the cost of coal will make a retail price of \$14.50 reasonable. But at the present time neither the mine cost nor rail transportation has advanced.

"That there is a relative shortage of coal at the present time seems no justification. The demand for anthracite is very light and the dealer is able to protect his customer and himself in other ways than by an advance in price.

"It is possible that in a few isolated instances dealers who are extremely short in their supply have been obliged to purchase independent coal at speculative prices, but this justification is chapter 151, general acts 1903, and one made much use of by retail coal dealers who base the price of all their prior to 1915, should not be re-instituted upon a very small fraction purchased from a speculative source.

## Commission Has No Power

"Replying to the query of the honorable general court relative to what steps, if any, should be taken to bring about a reduction in the retail price of coal, this commission has no power in the premises, being able only to investigate and report upon the circumstances affecting the prices of necessities of life.

"If the attorney general finds that chapter 228 of the general acts of 1912 has been violated, there is criminal responsibility. If the retail coal dealer continues practices of this nature in future consider whether or not the short in their supply have been obliged to purchase independent coal at speculative prices, but this justification is chapter 151, general acts 1903, and one made much use of by retail coal dealers who base the price of all their prior to 1915, should not be re-instituted upon a very small fraction purchased from a speculative source.

## PALMER REVEALS RADICAL PLOT

Foster, Who Led Ill-Fated  
Steel Strike, Prime Mover  
In "Outlaw" R. R. Strike

Plotted to Disrupt Old Unions  
—Other Big Outlaw Strike  
Planned

WASHINGTON, April 15.—(By the Associated Press.)—Department of Justice investigators report that evidence in their possession proves that William Z. Foster, leader of the ill-fated steel strike, is the prime mover behind the "outlaw" railroad strike. The government let this be known last night, feeling that when the strikers learn what influence are behind the movement they will align themselves with their recognized organizations. Action by the government in the direction of prosecution of strike leaders, therefore, will be held in abeyance pending the expected reaction among the strikers on receipt of information showing the directing impulse of the strike agitation.

The evidence in the hands of Attorney General Palmer shows that Foster was present at union meetings which were adjourned to meet in other halls, not as organizations, but as individuals. Mr. Palmer also said that Carl Pierson and A. B. Reese, both of whom the department's investigators have placed in the category with Foster, were engaged in attempts to expand the strike and were definitely connected with planning it. Both began this work in Chicago, Mr. Palmer said.

As this phase of the situation became known, President Wilson met his cabinet for the first time since

last August. The whole story of the strike crisis was related and it was understood a decision then was reached to seek a solution through the publication of the motives behind the walkout, the strikers being assured at the same time of early consideration of any wage demands they may have by the railway labor board.

This must not be construed to mean the government has adopted a policy of hands off, it was said, but rather that officials believed the time has not arrived for direct governmental action.

### Railway Board Criticized

The senate did not concur yesterday the nominations to the labor board. They were considered in executive session and the president's selections brought sharp criticism in some cases. It was understood. Leaders asserted last night that probably they would be confirmed with little delay unless definite ground for opposition developed from inquiries some senators were making.

Mr. Palmer made public evidence of plans prepared by Foster and his adherents to disrupt the four great railroad brotherhoods and to organize all rail workers into one union. The documents also revealed that a similar course was to have been followed in various other industries where crafts aligned with the American Federation of Labor would be urged to recognize under one name.

### Dates Fixed For Big Strikes

"We have positive proof of the plans for this expansion," Mr. Palmer said. "I know the dates fixed for nationwide strikes in other industries and our investigators have discovered that the fomentation of these outbursts has gone on exactly as in the railroad strike."

The whole program was one phase of the plan of the Russian radicals designed at the ultimate capture of industry the overthrow of government and the setting up of a dictatorship like that in chaotic Russia," Mr. Palmer said. Workers are being led unwittingly into the trap set for them, he added. Through the Industrial Workers of the World, the communist in-

ternationale—headed by Lenin and Trotsky—was attacking America's industrial life. Federal agents had intercepted a courier from Russia March 1, passed bearing messages to American locals of the communists, detailing methods of organizing class war. The radicals were instructed to direct their utmost efforts toward "drawing the proletarian masses into the pathway of revolution."

### Would Wreck A. F. of L.

The organization's first goal, the messages said, must be the wrecking of the American Federation of Labor and it ought to establish direct and close relationship with the I. W. W., and the "one big union" of Canada. The I. W. W., the word continued, was to be the tool employed and it was to establish the basis for uniting all unions under the one big union idea.

As a result of these disclosures, the government has broadened its investigations until agitators in all labor organizations are under surveillance. Funds used are closely watched and all clues to the source of the financial support are being followed.

Following the collapse of the steel strike, Mr. Palmer said, "Foster, Pierson, Reese and others of their associates of the revolutionary parties engaged in the endeavor to promote the present strike."

"Lists of all railroad men who were members of the communist or communist labor parties were sought," he said. "The names of all railroad workers who were opposed to the present management of the four brotherhoods also were collected. Meetings were held in hotels in New York and Chicago and other cities where all of the plans were laid."

### Meet at I. W. W. Quarters

"The basic agitation of these leaders was the destruction of the railroad brotherhoods, the removal of their leaders and the creation of the 'one big union'."

"At first it was planned that the I. W. W. should not figure publicly in the strike, but John Grunau, leader in Chicago, deviated from the original plans and allowed the men to split the strikers into four separate organizations."

"This caused some dissension which has resulted in the movement for the one big union. Several conferences were held at the I. W. W. headquarters in Chicago and in other cities. Grunau had gone too far with the four organizations to turn back and the only way the big union could be put over was through the railway shopmen, who were urged to strike under the one big union banner and force Grunau's union to follow suit, recognize and come into the one big union."

"It was realized that the I. W. W. could not make headway because of the prejudice and fear of those three letters, and the fact that the men would not warm up to the organization. The one big union idea was decided upon and Blidwell, a member of the newly formed engineers' association in Chicago, replaced Grunau."

"Blidwell is confident he can swing the four brotherhoods behind the plan, provided the shopmen follow out his plans."

Federal agents reported that a per-

## How Rheumatism Can Be Overcome

When the general health is broken down, if conditions are favorable for the disease, rheumatism is liable to develop. Without conditions of low vitality and weakened resistance, nature will protect the body against disease. A marked feature of the development of rheumatism is the thinning of the blood. Until the blood becomes rich and well-oxygenized, so that it can eliminate poisons from the system, attacks of rheumatism may be expected from time to time.

Miss Emma Baker, who lives at No. 30 Wentworth street, Blideford, Me., is among those who have been fortunate enough to recover from rheumatism. She says:

"My nerves were all played out. I was tired and had no ambition. Each day my work seemed harder and I thought I would have to give up. To make matters worse, rheumatism developed and I had sharp shooting pains in my body and limbs. My appetite was poor and I was troubled with sour stomach. I was so nervous at night that I did not get much rest."

"About three months ago I read about Dr. Williams' Pink Pills and decided to try them. They helped me almost at once. The pain in my limbs went away, my appetite grew better and my nerves became quiet so that I could get a good night's rest. I cheerfully and gladly recommend Dr. Williams' Pink Pills, for they built me up and made me stronger."

Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, by the Dr. Williams' Medicine Co., Schenectady, N. Y. If you are interested, write today for the free book, "Building Up the Blood," containing a special chapter on rheumatism.—Adv.

manent committee had been named to manage the organization and that each of these were "members of the I. W. W., or would take orders from duly accredited representatives of the one big union." Leading I. W. W. men have been ordered to remain in the background hereafter.

Mr. Palmer believed that the nationwide round-up of radicals, conducted recently by the department, had halted, at least, if not seriously hindered, promulgation of the strike plans by its leaders.

Palmer "Head Policeman" He said that literature distributed among railroad workers described the raids as having shaken "the foundation but not disrupted our organization." In one of the documents the attorney general was termed "America's head policeman."

Mr. Palmer made public at the same time a letter from A. V. Hulgiers, who presided at the third communist internationale, to Ludwig C. A. K. Martens, self-styled envoy of the Russian soviet government.

Martens, against whom deportation proceedings are under consideration, was assailed by the chief communist for methods the agent had employed in "attempting to force recognition" of the Russian soviet. Hulgiers characterized as "childish" Martens' contention, said to have been made in his government, that he had any influence in the making of peace. Martens also was told that if he desired to force recognition by the United States he should do it through the power of the workers.

"All your hope either on small individual bourgeois or parties like the socialist, artistic or politician pacifists and middle-men is not only unfounded but contrary to well-established tactics," the letter said.

Martens then was instructed to omit attempts to establish commercial relations between the two countries and to devote his time to driving revolutionary plans forward.

### BAZAAR FOR CHURCH REBUILDING FUND

Attended by a large crowd, the second evening of the Lawrence Street Primitive Methodist church bazaar—which is being conducted at the Gorham Street Methodist church all week in an attempt to add \$1500 to the rebuilding fund of the former church—proved most successful. The program embraced a splendid concert under the direction of N. W. Matthews, Jr., in which the following members of the parish appeared in songs and musical selections: Ernest Ingle, Miss Bertha Hunt, Bertram Nellis, Miss Belle Libby and Miss Bernice Libby. Rev. N. W. Matthews, pastor of the Gorham street church, acted as interlocutor, and prayer was given by Rev. Mr. Singleton of the Lawrence street church.

The committees having charge of the various booths are as follows: Domestic and dress goods, Ladies' Aid society; groceries, trustees of the church; jams and preserves, Miss Alice M. Downey; home bakery, Mrs. Edward Brooks; refreshments, Mrs. M. Bowden; ice cream, Ladies' Aid; tonic, Mrs. Schran and William Wallcut; fancy articles, Mrs. T. Watson, Mrs. J. Watson and Mrs. Bertha Anderson; grab, Girl Scouts; potato chips, Boy Scouts; candy, Miss Annie Hill; jewelry and novelties, Mrs. Sarah Singleton; bank-kept and flowers, Pollyanna class. John Buchanan has charge of the tickets at the door.

### Miro Pile Ointment Completely Cures

"After suffering from itching piles for over 20 years, secured relief from the first box of Miro Pile Ointment, and after using two boxes am entirely cured, and recommend Miro to all pile sufferers," says J. Ames, Steubenville, O.

IMPORTANT—Miro Ointment is prepared specially for itching piles. Do not advise its use alone in cases of bleeding or protruding piles. For this condition Miro Pile Remedy (Internal) has been prepared. Ask your druggist, or Fred Howard, who sells lots of it.—Adv.

## OBSERVED THEIR GOLDEN WEDDING

Surrounded by their children, grandchildren and a host of friends, Mr. and Mrs. George E. Clogston of 333 Christian street celebrated their golden wedding anniversary yesterday afternoon and evening at the home of Patrolman John T. Whelan, 131 Methuen street. During the evening the happy couple were presented a purse of gold by their 6-year-old granddaughter, Henrietta Clogston of Roxbury. Mr. Clogston is a member of Post 129, G. A. R.

Present at the event were Mrs. John T. Whelan, Mrs. George E. Clogston, Mr. and Mrs. Ralph W. Clogston of Roxbury; Mrs. Laura M. Jennings of Roxbury; Frank G. Clogston of Lowell; Mr. and Mrs. Harry M. Fox and daughter Dorothy of Braintree, and Miss Jessie L. Clogston of Boston. Rev. and Mrs. Nathaniel Matthews of the First

P.M. church were present and the former christened a great-grandson, Edward O. Tabor, Jr., the son of Dr. and Mrs. Edward O. Tabor. Mrs. Tabor is the daughter of Mr. and Mrs. John T. Whelan.

### VETERAN RECEIVING STATE AID DUES LEAVING ESTATE

VALUED AT \$3000 William A. Arnold, superintendent of state aid, has brought to the attention of Commissioner Flynn, head of the department in Massachusetts, the case of a local veteran of the Civil war whose death occurred recently and who had been receiving state aid since 1885, although his finances enabled him to leave an estate valued at \$3000. Shortly before his death the man had received an increase in the amount of aid coming from the state from \$5 to \$16 per month. The discovery of a bank book after his death showed that he had been making deposits since 1895.

# GENERAL STRIKE NEAR REVIEW OF POPULATION

Union Elevator Operators of New York Threaten to Quit Work

NEW YORK, April 15.—A general strike of union elevator operators in New York appeared imminent today, according to union officials, because their demands for wage increases and an eight-hour day had been rejected by owners of apartment houses, office buildings and department stores. The union, which claims a membership of 17,000 out of the 25,000 operators here, will meet tonight to consider a strike proposal.

## WEAR OVERALLS, PUT BOYCOTT ON POTATOES

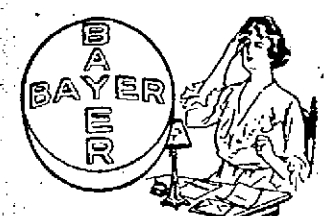

DETROIT, Mich., April 15.—Several thousand members of the Loyal Order of Moose donned overalls today pursuant to a resolution adopted last night calling upon 5000 local members to wear rough raiment until prices of clothing declined. The resolution also endorsed a boycott on the use of potatoes, launched several days ago as a protest against high prices.

## 20,000 AMERICANS IN POLISH ARMY TO RETURN—NEW SHIP LINE

DANZIG, April 15.—Arrangements with American shipping interests for a fast Polish-American passenger and freight service between United States ports and the Baltic have been completed by Polish naval authorities. Twenty thousand American citizens who have been fighting in the Polish army are awaiting accommodations to return home.

## ASPIRIN FOR HEADACHE

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for headache, colds, pain, neuralgia, lumbago, and rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for almost a century. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monacette, a division of Saltylicacid.—Adv.

231-233 CENTRAL STREET

# Communist Arms Hidden at Essen

ESSEN, April 14.—Ninety per cent of the arms owned by the communist adherents in this region have been hidden, instead of being turned over to government officials, it is alleged, and some of the authorities declare a withdrawal of government troops would be followed by disorders. Part of the troops which have been patrolling this city left town yesterday.

## Troops Patrol Kewanee, Ill.

KEWANEE, Ill., April 15.—Two battalions of the 11th Illinois infantry, strengthened by a machine gun company, patrolled the streets here today to prevent a recurrence of scattering disturbances which broke out yesterday between strikers and "loyal" employees of the Walworth Manufacturing Co.

## Germans in Ruhr Region Resent Orders

PARIS, April 15.—German regulars in the Ruhr region are resenting disciplinary rules, according to the Frankfurt Gazette, which says General von Watter, commander of the government forces has left Essen suddenly for Berlin.

## Baseball Opening at Boston

BOSTON, April 15.—The American League Baseball season in this city was opened for the 20th year today, with a game at Fenway Park between the Red Sox and Washington. Bright skies and a wind from the west that had a bit of a tang in it, made seasonable weather conditions for the opening which had to be postponed yesterday because of wet grounds. Governor Coolidge, Mayor Peters and Major General Edwards were among the invited guests.

## Non-Union Crews Work at Boston

BOSTON, April 15.—The docks of the United Fruit Co. here, against which a strike was declared by the longshoremen's union yesterday, were manned today by 300 men. The non-union crews operated without interference, and handled the banana cargo of the steamer San Mateo which arrived today. Other vessels of the company have been diverted elsewhere, but officials announced that hereafter they would attempt to handle all cargoes here.

## Had Terrible Cough in Bed 3 Years

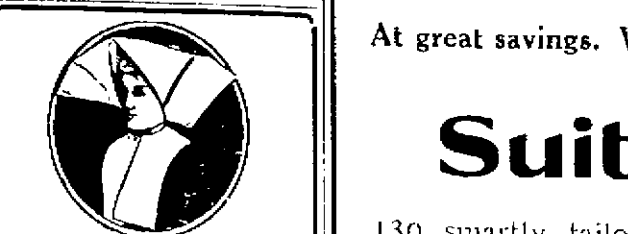

In 3 Weeks, She Was Out on the Street Again, Feeling Fine

"In 1915, I had a gripe, followed by pneumonia which left me with a severe cough. I coughed constantly from morning till night, and then would wake up in the night and cough and choke. I lost flesh and my appetite was very poor. I doctored with a specialist for over a year, and had several other doctors, but got worse instead of better. Last winter I was bed-ridden, had chills and fever and got so weak I could not sit up in bed 5 minutes without fainting.

"In February, 1919, I started on MILKS Emulsion. I was then in bed, but in three weeks I was able to be up and on the streets. Just think of it! For three years I have been a physical wreck. In bed most of the time, and MILKS Emulsion had brought me out in wonderful shape. My friends all tell me how well I'm looking; for they didn't expect me to be living today!"—Miss M. Rousseau, 1003 Opelousas St., Algiers, La.

In thousands of just such cases, MILKS Emulsion has brought the same wonderful relief and improvement. It costs nothing to try.  
MILKS Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, promotes appetite and puts the digestive organs in shape to assimilate food. It helps build up flesh and strength, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are usually relieved in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.  
No matter how severe your case, you are urged to try MILKS Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The MILKS Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere. Sold and guaranteed by Fred Howard, 197 Central St.—Adv.

It is a well established fact that the long winter months have a tendency to heavily tax the system—and waste material is accumulated, to which you can directly charge the cause of all diseases.  
This is the time for Springtime cleaning of the system, purifying the blood and rebuilding the body in general.  
There is no Spring Tonic so helpful as this time as  
SINCE MARY'S COMPOUND is a combination of nature's remedies used and recognized by physicians for hundreds of years all over the world.  
Stomach and Lung Trouble  
The most valued preparation on the market today for  
A Blood Purifier and Body Builder  
Contains neither alcohol nor dangerous drugs.

# "PLEASE BOOST OUR HOURS," ASK GARBAGE DRIVERS!

— (N. E. Staff Special)  
MEMPHIS, April 15.—The old order returns. Memphis is still startled over a request of garbage drivers, that they be permitted to work 10 hours instead of eight! They asked that the same scale of pay be retained—30 cents an hour.

## VERY NOVEL PROCEDURE

"Jury" of Neighbors Decrees Separation of Pastor and Wife  
BY HALL COCHRAN, N.E.A. Staff Correspondent.  
LIVERPOOL, N. Y., April 13.—A selected "jury" of three neighbors has decided that the Rev. W. W. Brunk, pastor of the First Methodist church, and his wife, whom he married 22 years ago, shall separate.

As was agreed before the meeting was called, the pastor and his wife signed the decision and have separated.  
Unable to settle their domestic troubles themselves, and not wishing an airing in the divorce court, Rev. Mr. Brunk and his wife went together to Justice of the Peace Jelsen for advice. He suggested that the Brunks' own neighbors settle the problem.

It was decided that three friends should sit on the "jury," hear both sides of the case and hand down a decision which both Brunk and his wife agreed to abide by.  
The hearing took place in the parlor of the clergyman's home. While the three children of the Brunk family, Lillian, 20, a sophomore at Syracuse university; Alfred, 15, a student in high school, and Clifford, 7, waiting in the dining room, Rev. and Mrs. Brunk told their stories.

First they were questioned separately and then a joint hearing was held. Lillian was called to testify. "Paddy and mother cannot seem to agree on some things," was all she would say.

Then the neighbors deliberated alone and pronounced their decision: that the couple would be—for the time being, at least—better off apart.

The next day Mr. and Mrs. Brunk called together at the office of George B. Dolsen and signed an agreement upon the terms of their situation. The paper read that Mrs. Brunk should take their youngest son, Clifford, and go to live with her bachelor brother, John Battle of Pensacola, Fla.  
Her husband was to pay her \$2000—\$1500 to be raised by placing a mortgage on the Brunk homestead and \$500 in cash at once.

## Prepare Last Supper

After signing the agreement the couple returned to the Brunk home

Life-sized painting of his wife on the wall of their living room.  
"That is a good picture of her," he said, as he sat and gazed on it thoughtfully.  
Alfred, the 16-year-old son, explains that he is ready to help dad keep house.  
"There is one thing I would like to be understood," said the lad. "That is that there is not one breath of scandal on either side. I believe they will be back together soon—they are very fond of each other."  
The three jurors have virtually the same comment to make, regarding their service.  
"We have done what we thought right. We have tried to be 'friendly' and neighbors' in more than just name," said the Y.M.C.A. in France.  
And the little town of Liverpool, with its 1500 people, hums approval over the Brunks' way out of family troubles that only the Brunks can really understand.

## HURLED THROUGH PLATE GLASS WINDOW

Thomas J. Durkin of New Spaulding street and Timothy O'Keefe of Hoyt avenue were injured about 4 o'clock yesterday afternoon when they were struck by a service machine owned by the Electric Light corporation and thrown by it through a plate glass window of the Dickerman-McQuade store at the corner of Central and Market streets. The machine was driven by Robert W. Campbell of Jewett street. The two men, severely cut by the glass, were taken to St. John's hospital and after their wounds had been properly attended to were removed to their homes.

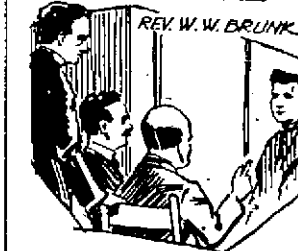

It is said that when the machine was coming from Market into Central street the driver tried to avoid someone on the street, but apparently lost control and ran the machine up on the sidewalk where the two young men happened to be passing.  
Both young men are today confined to their homes and are under physician's care. Mr. Durkin is an employee of The Sun composing room.

## Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisided coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.  
You can get Multisided coconut oil shampoo at almost any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for a month.—Adv.

## Sporting News and Newsy Sports

## BOYLE AND DE FOE CLASH LOWELL DEFEATED BY HERE TONIGHT WORCESTER, 1 TO 0

With a chance to meet Frankie Britt, New England lightweight champion, the incentive Phinney Boyle of Lowell and Billy De Foe of Providence will clash in the feature bout of 12 rounds at the Crescent A. A. tonight.

The bout is regarded as one of the most important in the Lowell boys' career. With recent victories over Chick Simler and Jimmy Duffy and a popular, while not a referee's decision, over Britt to his loss, Boyle has certainly ascended the pugilistic ladder, but he realizes that further honors are within his grasp if he can add the De Foe to his list. Boyle has been before and more than held his own and feels confident that he can remove all doubt relative to his superiority tonight.

De Foe in the past has shown the way to Britt some time ago and he has two recent victories over Halpin Drakey and Donnie Valger. Boyle is expected to meet him in a hard fight, for he, too, showed the way to Britt some time ago and he has two recent victories over Halpin Drakey and Donnie Valger. Boyle is expected to meet him in a hard fight, for he, too, showed the way to Britt some time ago and he has two recent victories over Halpin Drakey and Donnie Valger.

WORCESTER, April 15.—Lowell and Worcester battled through two periods here last night without either getting a goal, but Taylor kicked off a register to the final stanza and the Lowell City crew was shut out. It was by far the best game seen here and one in which the two points of the game's development were displayed through out. Although the victory came to the locals, the Harkins crew deserved a popular, while not a referee's decision, over Britt to his loss, Boyle has certainly ascended the pugilistic ladder, but he realizes that further honors are within his grasp if he can add the De Foe to his list.

LOWELL WORCESTER

THIRD PERIOD  
Worcester Taylor.....34-03  
Summary: Score, Worcester 1, Lowell 0.  
Rushes, Taylor 4, Stens, Pence 3, Conley 4, Foul, Donnelly, Referee, Graham.

WHITERS WIN AGAIN  
NEW BEDFORD, April 15.—The Whalers and Salem were up and down here last night, but the Whalers won the verdict 4 to 1. It was a pretty game to watch and with the teams and tuck going late in the stretch, the Whalers were able to hold their opponents to a single tally. The goal tucks had fewer stops than in any contest here since the Whalers won the title.

MARTIN STOPS CARLIER  
MANCHESTER, N. H., April 15.—Vincent Martin of Buffalo stopped Billy Cahill of Everett in the fourth round of a scheduled 12-round bout before the Queen City A. C. here last night. Billy Cahill of this city knocked out Young Finn of Boston in the fourth round of a scheduled 12-round bout before the Queen City A. C. here last night. Billy Cahill of this city knocked out Young Finn of Boston in the fourth round of a scheduled 12-round bout before the Queen City A. C. here last night.

CARPENTER OFFERED \$10,000 TO BOX TOMMY GIBBONS TEN ROUNDS  
MINNEAPOLIS, Minn., April 15.—Mike Collins, Minneapolis boxing promoter, yesterday offered Georges Carpentier, French heavyweight, \$10,000 to meet Tommy Gibbons in this city some time in June. Collins has offered a certified check of \$10,000 as a forfeit, the money also to be used as a side bet on the St. Louis fight, heavyweight, can defeat Carpentier over the 10-round bout.

POLLARD COMPANY BOWLING LEAGUE  
The A. G. Pollard Co. Bowling League will close its bowling season with an appropriate entertainment and banquet, Tuesday evening, April 20.

## The Call'em

With the return of the baseball season naturally people are beginning to speculate as to the possibilities of professional ball in Lowell this year. Frankly, the prospects are way below par, with no surface signs, at least, of a return to normal. It has just about been decided by those men who have attempted to harvest in this territory that Class B or C ball will not longer grow in the rock-straw soil of New England, unless Sunday ball is allowed. This, some people believe, would be the necessary fertilizer to once more place the territory on a basis of real production financially. However, it looks now as if Lowell folks will have to go to Boston to see professional games this year.

Chance for the Semi-Pro.  
But, it ought to be a blue ribbon year for amateurs and semi-pros. Already there are almost a dozen first class teams in the process of organization and if all managers do not rely upon the same men, as is likely to be the case in some instances, the makings of a good or medium class league are there. It would be possible to play at least three such league games every Saturday—one at Spaulding park, one on the grounds of the Lowell City park—but the scarcity of playgrounds and the large number of amateur teams fighting for a diamond, might make this desirable distribution of playdays, if it does seem, nevertheless, that the time is ripe for a semi-pro league of some kind or another. The makings of a league would enjoy more or less prosperity.

One Suggested Remedy  
If the Red Sox could recall Gardner and Speaker from Cleveland, Leonard from Detroit and Lewis, Ruth and Cobb from the Yankees and put Bill Carrigan at the helm, history would be about finishing in the second division would vanish like the early morning dew.

Cass Hates the Money  
We should say Frankie Britt is a full fledged member of the "sucker" family to again look up with Kibby after giving that gentlemanly whole of a licking in Boston just a few weeks ago. But the answer is here, Ray Cass thinks and sneers in dollars and cents, with but little regard for the welfare of his "meat ticket." Kibby is very liable to turn about and knock the New Bedford batter for a row of telegraph poles, and he is not at all sure, for it is said that Britt is putting in "hard" training on a Boston vaudeville stage.

Good High School Prospects  
Joe Donahue believes he is enacting one of the best high school lines in recent years this season and is most enthusiastic over the possibilities of a successful summer. It looks as if Jimmy Liston has passed the buck to his younger brother, now in school, and one of the catching candidates this year. The younger brother has all the earmarks of a star and may hit Jim's old shoes very nicely.

DAVID CUP TOURNAMENT  
SYDNEY N. S. W., April 15.—Redrawings for opponents in the David Cup tournament took place here today and resulted in Holland and South Africa, and France and the United States meeting in the first round. Canada will not be the winner of the first pair, while the British Isles will meet the victor in the French-American match. Reconsideration by France of their decision to withdraw their team from the tournament made redrawings necessary.

## MAGEE FILES SUIT AGAINST THE CUBS

CINCINNATI, Ohio, April 15.—Suing for \$5000 damages against the Chicago National League club and for an attachment against that club's share of the receipts of the opening game at Holland field was filed in common pleas court here yesterday by Lee Magee, former member of the Chicago team. The suit was filed about two hours before the Cubs and Cincinnati Nationals took the playing field for the opening game of the season.

Magee claims that he has a contract and the amount that he seeks in damages is based on his \$1500 salary and a possible \$5000 that he might receive as a participant in the world series games should the Cubs win the National League pennant. He also alleges that he was dropped from the roster of the Chicago club during the winter as the result of his alleged connection with certain bets said to have been made on the games.

EAGLES PLAN DOUBLE-HEADER  
The Eagles will open their season on Patriots day with a double-header. The Universals will be tackled at 12 o'clock and the White Street Stars as opponents. Doc Harrington, who has extensively read Christy Mathewson's "The Game," will take over both pitching assignments for the Eagles, while his battery mate Kenney, will be on the receiving end.

PEACE TO HER AGAINST  
After 15 years of faithful service, "Susie," a roan mare employed by the street department, has been put to rest. "Susie" was 31 years old and was suffering from an ailment from which a veterinarian said she would not recover. Accordingly, Commissioner Dennis A. Murphy gave the word yesterday to have her killed and a bullet ended her suffering.

DAVID CUP TOURNAMENT  
SYDNEY N. S. W., April 15.—Redrawings for opponents in the David Cup tournament took place here today and resulted in Holland and South Africa, and France and the United States meeting in the first round. Canada will not be the winner of the first pair, while the British Isles will meet the victor in the French-American match. Reconsideration by France of their decision to withdraw their team from the tournament made redrawings necessary.

# Round-up of Strike Leaders Begins

## DISORDER IN NEW STRIKE IN N. Y.

Teamsters on Food Trucks  
Strike, Adding to Troubles  
of New York City

Police Reverses Called to  
Halt Attacks on Wagons by  
Strike Sympathizers

NEW YORK, April 15.—Police reserves were sent to the West Side market district today where several hundred teamsters, chauffeurs and porters had walked out at a time when New York was virtually cut off from its food supply by rail. Several trucks were attacked by strike sympathizers. The wagons of produce merchants, sent to transfer the foodstuffs from the freight yards to the market district, were attacked. Men followed trucks carrying provisions and threatened the drivers. One horse-drawn wagon was attacked by 33 men. They followed the wagon to its destination where they were dispersed by the police.

Business at Standstill  
One hundred policemen, mounted and afoot, were stationed in the district as a precautionary measure. The teamsters' strike affects the transfer of butter, eggs, cheese and frozen poultry from freight yards to markets in Manhattan and Brooklyn. Business was reported almost at a standstill.

Alleged Profiteer Arrested  
In its crusade against profiteering in

## MERRIMACK RIVER HIGH

Water 6 Feet, 7 Inches Over  
Pawtucket Dam—Highest  
of the Year  
Swollen by recent heavy rains, the Merrimack river today is higher by several inches than at any previous time this year, not even excepting the last Sunday in March when it reached the peak of freshet proportions. Water is pouring over Pawtucket dam 6 feet and 7 inches above the stone crest. During the 24 hours between 6.30 a. m. yesterday and the same time today, there was a rise of nearly two feet, representing a heavy flow from northern brooks and larger streams. The Concord river is about normal and shows no signs of high water to compare with the condition of the Merrimack.

## WANT THEIR LIQUOR LICENSES RENEWED

Three former saloon keepers applied for a renewal of their liquor licenses at the office of the Lowell license commission this afternoon. Several more applications will be filed before the office closes tonight. It is understood, this action by the liquor men is said to result from the fact that there is a widespread belief that legislation will be enacted making the sale of 2.5 per cent. beer and light wines legal in the near future. Applications received during the early part of the afternoon were: John J. Murphy, first class common victualler, 493-127 Lawrence street; Jeremiah J. McGlinchey, William McGlinchey, Nellie J. McGlinchey and McGlinchey & Co., first and second class common victualler, 54-56 Gorham street; D. J. Gannon & Co., first class common victualler, 53-57 Abbott street.

## Soup Kitchen at Boston P. O.

BOSTON, April 15.—Postmaster Roland M. Baker today opened a soup kitchen at the postoffice as a means of aiding federal employees to economize on luncheon expenses. He announced that soup would be served at five cents a pint until arrangements could be made to extend the menu.

## Grunau and Six Other "Outlaw" Strike Leaders Are Arrested By Federal Agents

Warrants Issued for 24 Other Alleged Leaders in Insurgent Railroad Strike—Pres. Grunau, Head of Organization Which Started Nationwide Strike Taken in Raid on Strikers' Meeting at Chicago

CHICAGO, April 15.—John Grunau, president of the Chicago Yardmen's association, the "outlaw" organization, which started the nationwide strike of railroad workers, was arrested by federal agents who raided a meeting of the strikers here today. Grunau was arrested while he was addressing the meeting. Six others also were arrested.

Warrants have been issued for 24 other alleged leaders in the insurgent railroad strike. It was said at the federal building.

Those arrested besides Grunau are:

Joseph Scott, trustee of the Chicago Yardmen's association; A. W. Cassidy, secretary; Martin J. Kenney, vice president of Lodge No. 2, C.Y.A., W. Larabell, trustee of the association; Fred L. Schmitt, vice president of the United Engineers' association and Michael Eligas, treasurer of the engineers' association. Department of justice agents expected to arraign the men today before Commissioner Mason.

Poster Refused to Talk

PITTSBURGH, April 15.—W. Z. Foster, leader of the late steel strike, whose name was brought out in Washington yesterday as the prime mover behind the outlaw railroad strike, was located at his home here today.

"I have only been out of Pittsburgh once in four months," said Foster. "My time is taken up these days writing a book on the steel strike. I may have something to say about the statements made in Washington later, but not now."

## COMMISSIONER SALMON NAMES NEW FIREMEN

Commissioner John F. Salmon announced today the appointment of 10 new firemen who will begin their duties next Tuesday morning. The appointments come partially as a result of the double platoon system and partly because the vacation season has started in the department and the regular force will be minus from eight to ten men from now until the late fall.

The new appointees are all former service men, one of them, James P. Continued on Page 8

## EXPECT MYSTIC TO REACH PORT TODAY

BOSTON, April 15.—The disabled steamship Mystic from Avonmouth for New York, which has been in low of the coast guard cutter Osage for five days was expected to reach here today. The Mystic, helpless by boiler trouble and lack of fuel and with seven feet of water in her forward hold, sent a call out for assistance April 8 and the Osage went alongside her, 400 miles east of New York, on the 11th.

Once used, always used. Bruce's Glue.

## MAYOR ISSUES CLEAN-UP DAY PROCLAMATION

Mayor Perry D. Thompson today called upon all men, women and children of Lowell to prepare for the city's annual spring cleaning campaign which this year will begin Monday, April 16, Patriots day.

The local campaign will be part of a nation-wide drive to put the United States in spick and span condition after the storms of winter and consequent accumulation of debris, papers, rags and other inflammable material. The underlying object of the campaign is to remove fire dangers and to this end Commissioner John F. Salmon and Chief Edward F. Saunders of the local fire department have promised the full co-operation of that department in making the drive a success.

Although the mayor's proclamation Continued on Page 8

50 PER CENT DIVIDEND  
BOSTON, April 15.—The Arlington mills, makers of worsteds, today declared a stock dividend of 50 per cent. It was voted to increase the capital stock from \$5,000,000 to \$12,500,000, distributing the new stock among present shareholders.

## OFFICER CHARGED WITH KILLING BOY

CHELSEA, April 15.—Charles H. Mayer, a railroad special police officer, will answer next Wednesday, to the charge of having shot down James H. McCarthy, a 15-year-old boy, while the lad was stealing a ride on a freight train. The boy died at a hospital here recently, refusing to say who shot him.

Mayer, who is said to have signed a confession that he fired at two boys, one of them believed to be McCarthy when he caught them stealing a ride, was arraigned today, but the hearing was postponed until April 21.

## AN EMPHATIC DENIAL

Admiral Badger Declares  
Sims' Charges Unjust and  
Incorrect

WASHINGTON, April 15.—Rear Admiral Badger, head of the navy general board since the death of Admiral Dewey, told the senate investigating committee today that he wished to make "emphatic denial" of Rear Admiral Sims' charges that the navy was unprepared for war, had no war plans or policies in April, 1917, and pursued a vacillating policy for six months after war was declared.

While conceding that some mistakes had been made, Admiral Badger declared the navy on the whole was well prepared and administered. The charge that the navy department had no plans for war was both "unjust and incorrect," the admiral said. "We had plans, well considered ones," he declared.

"The trouble is that the plans and the execution of them did not meet with the approval of the critics. Despite the adverse criticisms that have recently been widely circulated it may confidently be maintained that the navy met and stood the stress of a great war. If success is the test of any organization then the alleged shortcomings of the navy and its directing heads can be dismissed from serious consideration."

## DUBLIN, IRELAND, IS NORMAL TODAY

DUBLIN, April 15.—The capital is normal today following the release of the hunger striking prisoners and the calling off of the general strike. Business is proceeding as usual and the tramways and trains are running, all of the employees having returned to work.

Extensive military raids were carried out in Dublin during the forenoon and a hundred persons are reported to have been arrested. An official explanation of the raids is not available, however.

At the hospitals it is reported that some of the released hunger strikers are very weak, but that the others are progressing well.

Bruce's Glue has no equal.

## LOWELL'S COAL SUPPLY CUT OFF

Railroad Confiscates Practically Every Ton of Bituminous Fuel in Transit

Reserve in Local Pockets at Low Ebb—B. & M. Refuses Further Deliveries

Lowell's bituminous coal supply has been practically cut off and although local dealers feel that they have enough on hand to meet daily needs for a short time, the reserve is so limited as to make a positive fuel famine a reality should the strike of railroad men continue for any length of time.

Practically every ton of soft coal in transit is being confiscated by the railroads. The Boston & Maine and

# ROGER C. SULLIVAN DEAD

Illinois Democratic Leader,  
Led Movement That Made  
Wilson President

CHICAGO, April 15.—Roger C. Sullivan, aged 54, democratic leader of Cook county and prominent in state and national politics for 20 years, died at his home in Chicago yesterday of bronchitis. He had been seriously ill a month.

Mr. Sullivan planned to enter the democratic national convention at San Francisco as leader of the Illinois delegation with the avowed intention of making that his last appearance as a political leader.

Mr. Sullivan, condemned in his own state by his opponents as a "boss" and more than once "read out" of the democratic party by William Jennings Bryan, saw the movement that finally resulted in making Woodrow Wilson president.

It was Sullivan who headed the democratic delegation from Illinois at the Baltimore convention in 1912—a delegation pledged to Champ Clark—and who after sufficient ballots had been cast to discharge his obligation to Illinois, switched the state to Wilson.

Roger Sullivan had been a participant in every democratic convention since 1852 and in at least three a prominent figure.

Coming to Chicago in 1879 to work in the railroad shops as an apprentice machinist at \$1.25 a day, Mr. Sullivan was reputed to be worth more than \$1,000,000 at his death. He made his fortune in Chicago gas companies and in the cracker business.

Mr. Sullivan was born in Belvidere, Ill., Feb. 2, 1861. He married Helen M. Quinlan in Chicago in 1885. They had one son and four daughters.

BY MILTON BRONNER  
European Manager N.E.A.

LONDON, April 15.—Shortly before the Prince of Wales started on his trip to Australia he was a guest of honor at a big dinner. The dinner was very much astonished when, long before the meal was finished the toastmaster arose and gave the toast of "The King." But they got enlightened when they saw the prince smile gratefully at the toastmaster and immediately lifted a glass. To Americans, it must be explained that at an English formal dinner it is the most awful breach of etiquette to smoke until after the king is toasted.

Earl Bessy, hero of the battle of Jutland, broke into bitter verse when making a speech in support of the Seamen's Hospital society:

God and the sailor we alike adore  
When danger looms, but not before;  
The danger past, both are alike  
requited.  
God is forgotten, and the sailor  
sighted.

America is not the only belligerent nation in which red tape was the curse of the army. An architect recently sued the British war office for \$300 for services rendered. The judge, in giving his decision, said: The medical officer sends his request to the D.M.S., who transmits it to the O.M.G., who lays it before the B.G.A., who instructs the S.O.E.R., who communicates with the C.R.E., who details an engineer officer to advise the C.M.O.

In England they have the habit of giving their railway engines names. What is more they name their mills. I asked an English friend the other day why a certain mill was called the "Pinchnoggin." "You know, of course, that noggin is a name for a drink," said he. "Well, there was a certain keeper of a bar who was noted for the short drink of liquor he poured out. In other words, he pinched the noggin. Then he got out of the saloon business and became a mill owner. And the neighborhood supplied his mill with the name."

## LOWELL TEXTILE SCHOOL

## Exercises of Graduation Held in Southwick Hall Last Evening

Although 55 diplomas were presented at the annual graduation exercises of the evening classes of the Lowell Textile School, which were held last evening, the 1920 class consisted of only 53 graduates, for one of the students of the school, Nicholas Venet Kefalakis received two diplomas, one for three years' elements of engineering and the other for three years' mechanical drawing, which means that for three years the young man followed two courses at the school, attending class sessions four nights a week.

The exercises were held in Southwick hall at 5 o'clock and were largely attended. In the early part of the evening the large school was thrown open to the general public and many took advantage of the opportunity to inspect the building. The diplomas were presented by Mayor Perry D. Thompson, who briefly complimented the graduates for the success achieved during the year, while there were addresses by Principal Charles H. Eames, who presided over the evening's program; James T. Smith, former clerk of the board of trustees, and father of the school, and Prof. David D. Vaughan, professor of social service at the Boston university.

Mr. Eames in his opening address congratulated the students for the fine showing made during the year, and bid the guests a hearty welcome. He commended the teachers and introduced as the first speaker, Mr. James T. Smith to whom much of the credit for the establishment of the school is due.

**"Isn't It Fine After Shaving?"**

Do you shave yourself? The next time wash down with a light lather of Palmer's SKIN-SUCCESS Soap. Note the feeling of cooling relief and supreme comfort. Note the clean feeling.

Everybody must use toilet soap—why not try the old reliable Palmer's SKIN-SUCCESS Soap, which not only thoroughly cleanses the skin and the pores but acts as a gentle and thorough antiseptic? In these respects it is greatly superior to ordinary soaps. Try it just once!

Ask Your Dealer.

**PALMER'S "SKIN-SUCCESS" Soap**

SOAP SKIN-SUCCESS Ointment 35c-75c. For the face, neck, throat, hands. BLOOD-SUCCESS 35c-75c. For impure blood. The Morgan Drug Co., Brooklyn, N.Y.

a man, he said, who for a great many years worked untriflingly for the success and advancement of the institution.

Mr. Smith spoke briefly on the school and what it has accomplished. He reviewed the years he spent as clerk of the board of trustees, telling of the progress made by the institution and of the success of its graduates. His remarks were very interesting.

Mayor Thompson was a little late in arriving, but he informed those present that it was through no fault of his, for his automobile went back on him and a lot of good time was spent, he said, in coaxing it to function again.

The mayor, speaking to the graduates, sounded a warning note. "I know," he said, "the sacrifices you are making to acquire knowledge in your particular lines. I know what it is to work all day and to study in the evening, and you are to be congratulated for your untiring efforts, but do not stop there, for remember it is upon your shoulders that rests the great responsibility of our country, the final settlement of the world's difficulties."

The mayor said education at one time meant a training purely for the accumulation of wealth, but the conception today is a different one, for education also means service to other men. "Let it be your aim in your future life to not only look after yourselves, but also to endeavor to make others happy."

"The Spirit of Youth" was the subject dealt with by Prof. Vaughan. He referred to the early days of the world when man was leading a primitive life and he told of the many evolutions in the life of man since that time. "There is something in man," he said, "which drives him forward and that is the enlargement of the spinal chord, or in other words, the brain. In the early days of the world man had to use his brains against the brutal force of animal, or die." Mr. Vaughan said the primitive man could not talk but through the enlargement of his spinal chord he has mastered the art of language. He has learned to draw pictures, he has learned to make moving picture machines and he has learned to make the photograph which reproduces the sound of the voice and all this through the enlargement of the spinal chord. The speaker then referred to the engineering feats that are being performed in this country and cited the creation of the bridge over the Niagara river, a stream which no animal could cross. He told of the large oil engines in the southern states and spoke briefly on the suspension bridge, saying this great engineering problem has been solved through the careful study of a spider's web.

"Man can do millions of things simply because he has that growth on the spinal chord and because he possesses the psychological delight of being the cause of something and it is that spirit which is eternal youth. It is that spirit which causes men to educate themselves, to inquire more deeply into interesting subjects."

In the course of the evening enjoyable selections were given by the school orchestra.

The list of graduates follows:

List of Graduates

The list of graduates is as follows: Knitting, one year: Lewis Bradford Diman, Arthur Joseph Houle, Brackett Parsons.

Worsted Spinning, 3 years: Roy Fremont Dobbs, Nathaniel Sears, Cambridge; Paul L. Wilde, Lawrence.

Freehand Drawing, 3 years: Olive

## LEFT WEAK BY THE GRIPPE

MRS. BEATRICE AYARD

I was one of the numberless victims of the Spanish Grippe, which left me in a weakened condition, Stomach trouble, backaches, headaches and very nervous. My case was called "General debility". Other women who were in a position to know of my pitiable state of health, advised me to try RED PILLS for Pale and Weak Women. I did so and now, thanks to the good results obtained from their use, I am enjoying good health and feel fine. Now it is my turn to recommend them to women who suffer like I did before I took RED PILLS.

MRS. BEATRICE AYARD,  
22 Dodge Street,  
Lowell, Mass.

RED PILLS are for women only.

They are always sold in boxes of fifty pills, 50 cents a box, 6 boxes for \$2.50. See that the name of the "Franco American Chemical Company Limited" is on every box.

Louisa Lambert, Mary Frances Harlan, George Thomas Walsh.

Analytical Chemistry, 3 years: Leo J. Kennedy, William John Magee, Lawrence; Michael Daniel Morgan, George Ernest Parkhurst, Lawrence.

Textile Chemistry and Dyeing, 3 years: Archibald Kerr Jones, Lawrence.

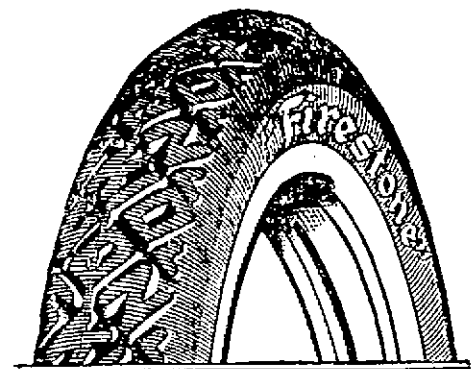

Elementary Chemistry, 2 years: Lester Harold Bailey, Ernest Frank Howler, Methuen; Jack Wilson Hines, Lawrence; Edwin A. Buchmann, Lawrence;

George A. Cain, Lynn; Everett C. Cookson, Lawrence; Mark L. Davis, Lawrence; Francis M. Flanagan, Manchester; D. Frazee, Emile Louis Mesat, Jr.,

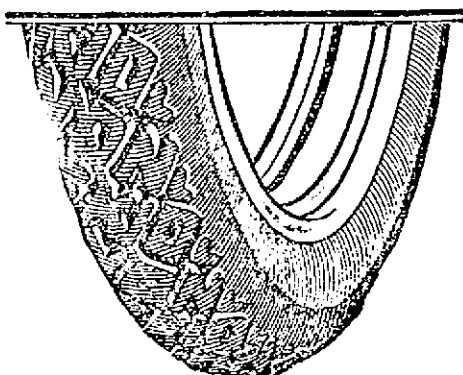

It was a problem made to order for Firestone—big volume production of a high grade article.

Firestone met it with a typical Firestone answer—a separate \$7,000,000 factory.

Buy Firestones.

**Doing the BIG things FIRST**

Most miles per dollar is a Firestone pledge, to the big car owner as well as to the owners of light cars. See the new Standard Oversize Firestone Cord.

OPEN FRIDAY NIGHTS TILL 9.30

Getting What You Pay For  
— IN YOUR —

# Spring Clothes

It's so easy to pay the price of good clothes and not get them that it behooves every man to be careful. Prices are pretty high, it's true; too bad as much can't be said for quality. It's more important today than ever to select a store where you're sure to get everything you ought to get for your money—style, quality, tailoring and a guarantee of satisfaction.

The Merrimack Clothing Co. guarantees all of this—and our prices are not any higher than you'll be asked to pay for the uncertain clothes offered so freely by unreliable dealers.

When you pay the price—be sure of the quality—Do your Spring buying at the Merrimack.

**\$40 \$45 and \$50**

Are prices which we feature this week for Men's and Young Men's Dependable Suits and Topcoats.

OTHERS AS LOW AS \$25 AND UP TO \$70

MANHATTAN SOCIAL CLUB

A largely attended meeting of the Manhattan Social club was held last evening at which officers were elected and plans advanced for the farmers' hall to be held next month. It was also decided to hold a parade through the business section on the night of the ball. Eugene McArdle was chosen to act as chief marshal of the parade, with Charles Dillon and John Baxter as assistants. The officers of the hall will be John McGlinchey, boss farmer; Thomas Healand, assistant; Daniel O'Connell, foreman; Andrew Kelley,

assistant; Chief hay shakers, Bernard Reedy and John Farrell.

STUDENT LABORERS AT WELLESLEY

WELLESLEY, April 15—Shortages of domestic servants and laborers with resultant high wages, were conditions of the past at Wellesley college today. A lack of dining room maids and of men to care for the college grounds resulted in squads of girls volunteering to do the work. The student laborers will receive 50 cents an hour and a small wage will be paid the dining room maids.

## BIG FOOD SHOW

## AT UNION MARKET

The food fair held at the Union market yesterday afternoon from 2 to 5 o'clock, was an unprecedented success. During the entire time that the fair was on, the spacious store was always full—full to the limit—and with the class of people to which such an affair appeals, the family woman—or the family man.

However, despite the large attendance, there was no confusion, due to the careful planning of all details and its carefully carried out by the special representatives of the firms exhibiting, assisted by the special representatives and demonstrators of the firms holding space.

And to each and every one attending was given numerous samples, both to be eaten on the premises and to be taken away, as well as numerous booklets containing recipes or especially appealing descriptions of the pure goods. The fair was conducted by James W. Garland, superintendent of the Metropolitan division, Boston, of the American Sugar Refining company; William F. Gately, the local representative, and Henry Sargent of Haverhill.

Among the exhibits of which generous samples were given were Campbell's soups, J. P. Squires, Bond bread, Fletcher's tea and coffee, Stinson's pie tins, Million dollar eleomargarine, Rumford baking powder, Sunshin biscuits, Curtis blue label chocolate, D. & L. Slade's apples, Simpson spring glaze ale, Mrs. Chapin's mayonnaise and marmalade, Libby, McNeill and Libby's pickles, Nu-Maid bread, Stickney's and Poor's, Baker's extract, Warner's macaroni, First Prize nut margarine.

In addition there were pleasing exhibits of Helical Vell flour, which has gained wide popularity in Lowell, and which is in great demand at the present time, represented by Laurence Galvin of the D. W. Foye Co., this city; Jiffy-kill, a nationally advertised product, represented by D. A. Johnson, manager of the New England territory; National Biscuit company, represented by Mr. King; Procter and Gamble's, represented by P. C. Thomas; Gold Medal Flour, represented by G. J. Baker, the "Sally" Doughnut King, and who is to take an active part in the coming Salvation Army drive throughout the country; Corn Products company, having Mazola Oil, Karo and Arzo Starch, and represented by S. P. Breese; Curtis Marshmallow Cream.

Perhaps the most distinctive exhibit was that of the American Sugar Refining company, in charge of William F. Gately, local representative, which showed the remarkable quantities and uses of Domino Golden Syrup. Some very neat displays of meats, etc., were also seen to advantage, and were presented by the market.

And all the time that the fair was on an orchestra furnished a splendid program of the latest selections, and kept the crowd in a merry mood.

The entire affair, in fact, was as complete an exhibit of food products as has been seen in many large halls, and the nature of the comment as people left the market was that its popularity as an annual event is practically assured.

## CLAN GRANT MEETING

The members of Clan Grant held their regular meeting in Post 120, G. A. R. hall last evening and transacted routine business. Past Chief James MacCrandies was appointed a delegate to the grand clan convention to be held in Boston April 19. In the course of the meeting it was announced that next Tuesday Clan Johnston of Andover with its ladies' auxiliary will be the guest of the local clan.

In India, if a man is not married at the latest by his twenty-fifth year, his reputation suffers.

## This Skin Peeler All the Rage in Society

There is a growing tendency among women of culture and fashion to pay more attention to hygiene means of preserving their charms. The advent of mercerized wax doubtless has been largely responsible for this. This remarkable substance produces complexion so natural in appearance, so gracefully beautiful, artificial complexions are no longer desired. Instead of "doctoring" an offensive skin, the skin is peeled off. The wax peels the skin so gradually, in such fine particles, no discomfort is experienced. The fresher, younger skin beneath, wholly in evidence within a week or two, is like white, satiny soft and smooth. It's not a patched-over complexion, but a brand new one. That's why mercerized wax has become such a rage among society folk. The wax is put on nights like cold cream and washed off mornings. All druggists have it, of course; one ounce will do—Adv.

## OUR FOOD RESERVES IN CASE OF RAIL TIEUP

If the strike of railroad men extends to Boston, Lowell would face a distinct shortage of fresh meat, fruit and some vegetables. Not only is the local meat supply low today, but the reserve in Boston is entirely too small to offer any foundation for a belief that meat would continue to be received here, with railroad transportation tied up.

Groceries would be more easily obtainable, however, and for as long a period as the Boston reserve would last. It would mean over-the-road hauling, but local wholesalers are well equipped for truck deliveries. If the city was forced to depend on canned goods, the local supply is considered sufficient, unless, of course, a strike, continued for an unusually long time. Smoked and pickled products are on hand locally in adequate amounts and could be used as substitutes for fresh meat, should daily supplies of the latter be cut off.

The potato supply in Lowell is decidedly limited; there are turnips enough on hand to meet the demand for about two weeks; very few tomatoes; oranges, scarce and high in price; apples, local supply probably fairly good; moderate supply of onions because dealers are buying closer at this time of year; cabbage, would last less than a week, with no more in sight; lemons and grapefruit are on hand only in small amounts, with Boston reserve at low ebb; bananas, are scarce.

Dealers already report a shortage of sugar and are inclined to trace it back to the fairly recent government order that quantities of Cuban sugar, offered to the United States at re-

duced prices, could not be recognized by American refineries.

No fears are entertained for Lowell's supply of salt or flour. There is always the possibility, however, that people will hasten to purchase in excess of their actual needs when a shortage is threatened, and if this should occur, the flour in reserve would not be sufficient for equitable distribution. If, in the case of a great emergency, a salt shortage would develop, it is believed that people could worry along by using the many kinds of goods which new came seasoned. Other supplies of packed groceries, such as raisins, currants, all cooking necessities, and canned fruits, are coming through slowly but steadily to Boston and the surplus on hand by the canners is said to be considerable. For such things, therefore, Lowell can rely upon Boston.

Lowell need have no fear of severe shortages of butter, eggs, lard or tins because the several large companies dealing in these provisions have well stocked warehouses in Boston capable of providing their stores for considerable time even if all railroad shipments were cut off. All such produce could be brought over the road from Boston.

**Beautiful Women of Society**, during the past seventy years have relied upon it for their distinguished appearance. The soft, refined, pearly white complexion it renders instantly, is always the source of flattering comment.

## WHEN CHECKS COME HOME TO ROOST

In the kitchen of her own home Sister Mary cooks daily for a family of four adults. She brought to her kitchen an understanding of the chemistry of cooking, gained from study of domestic science in a state university. Consequently the advice she offers is a happy combination of theory and practice. Every recipe she gives is her own, first tried out and served at her family table.

(Copyright, 1920, N.E.A.)

When checks come back from the bank a good way to straighten out accounts for the month is to paste the checks back on the stubs. The returned check is in itself a receipt and takes care of that part of the business.

The large check books having three stubs on a page are a little easier to handle than the small books. A rubber band snapped around the returned checks keeps them from the blank part of the book and causes no inconvenience.

This is really worth trying, for it verifies the monthly statement and preserves the checks and does away with the necessity of keeping receipts.

**Menu for Tomorrow**

Breakfast—Sliced oranges, waffles, syrup, coffee.

Luncheon—Broiled cottage ham, Hungarian potatoes, hot rolls, marmalade, tea.

Dinner—Corned beef, boiled potatoes, parsnips, brown bread and butter, raisin pie, coffee.

**My Own Recipes**

A cottage ham is nothing more or less than the front part of pork shoulder. As there is no bone there is no waste. These little hams are usually very carefully cured and smoked. Broiled or boiled, the meat is tender

and a delightful change from the ordinary fare.

**BROILED COTTAGE HAM**  
Slice the meat quite thin. Broil just on one side under the flame of the gas oven until the edges curl.

**HUNGARIAN POTATOES**

2 onions.  
3 tablespoons bacon fat  
1 teaspoon salt.  
1/2 teaspoon paprika.  
1/4 teaspoon pepper.  
3 cups potato cubes.  
3 cups boiling water.

Saute onion in fat till yellow. Add salt and paprika. Scald potatoes for five or ten minutes. Drain. Add potatoes to onion, pour over boiling wa-

ler and cook in a covered dish till tender.

**CORNEB BEEF**  
3 1/2 pounds corned beef.  
Cold water.

Rinso beef well in cold water. Tie to keep in shape. Put in a kettle, cover with cold water, and bring slowly to boiling point. Remove scum as it rises. Simmer for two or three hours until tender. The potatoes and parsnips may be boiled in the broth.

**GIVE HIM TIME AND HE'LL HAVE A RANCH**

HOUSTON—Arthur Brown, sent to jail for stealing two cows and a mule, broke jail and rode away on a stolen horse. Judge Robinson, who sentenced him, now wants to sell his cow fearing he can't keep it with Brown free.

**THIEVES GET COAT**

COLUMBUS—Thieves stole Dr. H. R. Crowder's overcoat from his home here. "I was through with it, anyway; it's spring now," Crowder told the cops.

## ADVENTURES OF THE TWINS

by Olive Roberts Barton

The Spilled Paint

After old Mr. Crow was gone, Hubadub, the fairy-man, went back to scrubbing up the wood-chuck, and Nancy and Nick picked up some little crocuses.

"You're dear little things!" said Nancy, cuddling two of the modest little flowers against her soft cheek. "You let everybody tramp on you and never say a word, so you're going to get your turn now, and you can be on to the Land-Where-Spring-Is-Coming right away."

So the twins got the big picture of white-and-purple! "My goodness! What's wrong with the yellow paint?" he asked. "I'm sure the people will wonder why they have no yellow flowers on their lawns if you make them all one color."

"Please, sir," said Nick, "there isn't any more yellow paint. The canary got tired waiting for his turn and spilled it!"

"What?" cried Hubadub. "No yellow paint! And spring almost here! What shall we do for the daffodils and hips and dandelions, to say nothing

"YOU'RE DEAR LITTLE THINGS!" SAID NANCY, CUDDLING TWO OF THE MODEST LITTLE FLOWERS AGAINST HER CHEEK.

book to see just how crocuses should look and what colors to use, then they got paint and brushes and set to work. "The Fairy Queen has a supply of paint and brushes and set to work," her palace store-room," said the twins. "After a while Hubadub peeped at the row of finished blossoms. His little helpers were doing wonderfully well, and at the rate the creatures and flowers were getting fixed up he felt that Scrub-Up Land would soon be empty and he could take a rest. But what was that? All the crocuses were purple, or white, or purple-and-white, or white-and-purple!"

But tomorrow you shall hear how the Green Sheik had to help them out (Copyright, 1920, N.E.A.)

52¢

How would YOU like a raise like this?

**FIRST NATIONAL BANK**  
Pay to the order of *Rev. N.E. Pastor*  
*Only Fifty Two Cents*  
*Each Church Member*  
52¢

—and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

### The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

### We Pay Him Half the Wages of a Mechanic

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic. And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

### We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can make.

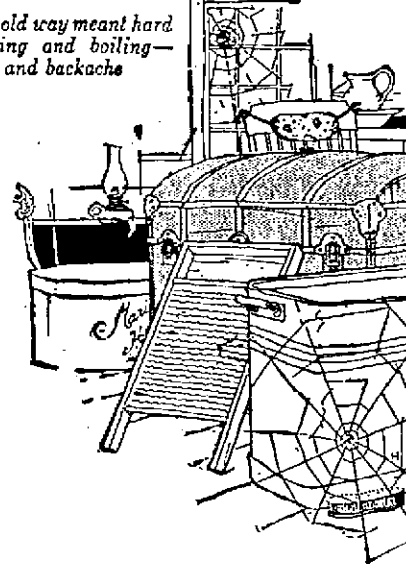

**INTERCHURCH WORLD MOVEMENT**

45 WEST 15th STREET, NEW YORK CITY

The publication of this advertisement is made possible through the cooperation of 30 denominations.

The old way meant hard rubbing and boiling—heat and backache

The new way—just soak, then rinse—that's all!

## Away with the washboard—the boiler!

You can get your clothes gleaming white—just by soaking

NOW is the time to send all the old washing things to the garret. The boiler and the washboard. The scrub brush, the pails and the dippers. The laundry soap, the washing powder, and the soda. You can do without them all. They only recall the drudgery and the backaches.

All you need today is Rinso.

Rinso is the wonderful new form of soap in granules—for the family washing. The Rinso granules, dissolved first in a little water, stir up into a soapy, bubbly tubful. You leave the clothes in over-night or for three hours in the morning. Then just rinse and hang out.

The new way saves your clothes—saves your time

Your clothes are as safe in Rinso suds as in clear water. Rinso is so pure and so high in soap value that it loosens every speck of dirt right out—even in cold water. You can actually feel the soap in the water.

No hard rubbing. Only very soiled places,

wristbands, cuffs, etc., need a little light rubbing between your hands, no more. Rinso does away with that awful bending over a board and scrubbing until your hands hurt.

No boiling—Rinso makes perfectly white clothes without boiling. You need never boil your clothes again unless occasionally to sterilize them.

Aprons, housedresses, men's shirts, the hand towels—you can just rinse them white and clean, after a soaking in Rinso suds. And the clothes last twice as long without that heartless scrubbing and boiling to weaken the fabric and fade the colors.

Try the Rinso way this very next Monday. Until you have tried it once you cannot realize what a relief it is from the old-fashioned washday methods.

Get Rinso from your grocer today and follow the easy directions on the package. One 8c package does your whole week's washing. Lever Bros. Co., Cambridge, Mass. (Makers of Lux.)

## AN ALARMING PAPER SHORTAGE

Comprehensive Policy of Forest Protection Necessary, Says Pres. Sisson

Paper Head Declares Prodigious Methods Responsible for Situation

NEW YORK, April 15.—Prodigious methods in American forests and paper mills have brought the industry and the consuming public face to face with an alarming paper shortage which can be remedied only by adoption of a comprehensive policy of forest protection, George W. Sisson, Jr., president of the American Paper and Pulp Association, declared in his address before the association's annual convention here today.

Mr. Sisson said a program of legislation calculated to affect this result would be brought before the convention for action at a later session.

### Limiting Retaliatory Measures

The speaker deplored intimations from Canada that export of pulp wood from private lands might be curtailed by retaliatory measures which might be sought by Americans in the event of such action.

"Canadian industry must have coal," Mr. Sisson said, "common fairness indicates that access to raw materials should not be denied on either hand."

Mr. Sisson charged that government control of or interference with industry in general, was one of the prime causes of "the general lowering of efficiency in man power," and urged that only such governmental restrictions be placed on business as are necessary to protect the public.

"If our government and civil servants and commissions would not so often misinterpret their functions as to become irritant rather than helpful, our entire business structure would be more stable and efficient," he said.

He declared conservative Americans were displaying a "shocking" apathy toward the spread of radical propaganda and urged that more effort be made to offset it. Special attention should be given, he said, to the nation's schools, which are facing a shortage of 100,000 teachers next year. Many poorly paid teachers, he declared, are restless and out of sympathy with the communities they serve and are open, because of this, to the propaganda of radicals.

A letter to the association from E. T. Meredith, secretary of the department of agriculture, said the pulp and paper situation "is the most critical in the history of the United States."

### Demand for News Print

"Our demands for news print increased very uniformly from 569,000 tons in 1902, to 1,760,000 tons in 1919," Mr. Meredith said. "Present demands, abnormal though they may seem because of the greatly increased advertising, are merely an incident in the rapidly growing demand for news print paper."

"The most disturbing phase of the matter is that 10 years ago, when the development of our industry stopped, the United States was practically self-sufficient in news print production. Today we are dependent upon other countries for the equivalent of two-thirds of the pulp wood, pulp or news print which goes into American newspapers. Our news print industry is concentrated largely in New England, New York and the lake states. I am told that 60 per cent of the pulp and paper mills in New York have no stumpage of their own and that less than five have enough timberland for future continuous operation. The predicted life of the industry in the northeastern states is alarmingly short. We have, on the other hand, large quantities of suitable news print woods in the Pacific northwest and in Alaska.

"A far greater degree of independence in news print manufacture can be accomplished by two measures, the development of the industry in the Pacific northwest and in Alaska and the large scale growing of timber in New England and the lake states. A fundamental question is the permanent supply of raw materials through the practice of forestry in both east and west.

"The capacity of the department of agriculture to serve the industry and, through it, the interests of the public, rests fundamentally upon two things: To hold well trained and experienced men under the compensation afforded by congress, and its financial resources for undertaking or extending work of obvious importance. The present situation of the federal departments in both these respects is extremely critical."

**Gas in the Stomach is Dangerous**

Recommends Daily Use of Magnesia to Overcome Trouble. Caused by Fermenting Food and Acid Indigestion

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis, accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Refined Magnesia and take a teaspoonful in a quart of water right after eating. This will drive the gas, wind and heat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form, never found or mixed) is harmless. It is the most effective and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion. Druggists—Jensen drug stores—Adv.

ence in news print manufacture can be accomplished by two measures, the development of the industry in the Pacific northwest and in Alaska and the large scale growing of timber in New England and the lake states. A fundamental question is the permanent supply of raw materials through the practice of forestry in both east and west.

### Disorders in New York

Continued  
The food crisis, intensified by the teamsters' strike, the "hitting squad" of the department of justice today arrested Nicholas J. Eschenbrenner, general manager of a wholesale firm dealing in Danish butter. He was accused of violating the Lever act by making 10 cents a pound on a large lot of butter, his profit totalling over \$50,000.

The railway mail service is handling foods which usually come by express or freight, it was announced today. Eggs and live chickens are being brought in wherever possible. Yesterday 3034 crates of eggs were delivered in Manhattan by box cars in the mail service. Freight cars are being pressed into extra service as postal carriers on virtually all roads.

### Army Trucks Carry Mail

Nine army trucks continue in the mail service in Jersey City railroad yards, and 14 trucks have been made available for Manhattan for carrying perishable foods.

The department of justice and the postoffice authorities have decided to prosecute vigorously strikers interrupting the mails, and postal clerks are under strict orders to report all delays in mail transportation, the United States Railway Mail service announced.

ed States Railway Mail service announced.

Train service for mail has improved materially on all lines out of New York. Eighty-one extra cars of mail were shipped out of New York yesterday.

### Passenger Service Better

Suburban passenger service generally was reported by the railroads much improved, due in large measure to collegians, ex-service men and others who were operating many trains.

The Hudson tubes were closed, however, and no trains ran on the Staten Island Rapid Transit Co.'s steam line. The New York Central announced it had five volunteers for every man in the service, but was "letting the unions handle the situation."

Officials of the road said one hundred car loads of provisions and foodstuffs had been made available during the night for distribution today.

Officials of other roads notified commission merchants where carloads of produce stranded by the strike could be found and efforts were being made to bring the shipments into the city by motor truck.

### Volunteers Run Trains

The Pennsylvania announced that with nine volunteer yard crews at work movement of coal for New York public utilities was partially resumed today.

Out of the Pennsylvania station through train service was reported 80 per cent normal, a decided improvement over yesterday.

Four trains of perishable foodstuffs bound here from the south will arrive at Jersey City and be ferried across the Hudson to Manhattan before nightfall, the Pennsylvania announced. On the Long Island railroad, Stevens Institute and Princeton volunteers were put to work as firemen, and 22 steam trains were operated.

The ferries made a new high record for passenger transportation from the New Jersey shore to Manhattan, the Pennsylvania alone bringing in 22,376.

### Kisses Volunteer Firemen

The N.Y.N.H. & H.R.R. announced

THERE ARE OTHER CAMPAIGN ISSUES

baggage cars were being restored on regular through trains and local mail service was being revived. Through passenger service was reported normal, except for parlor car accommodations.

The American Railway Express announced that its embargo had been lifted on shipments to Chicago for today only. On the success of a train of express for that point will depend a permanent lifting of the embargo.

Frank Kramer, former national bicycle champion, and Mayor Martens of East Orange, N. J., were volunteer firemen on a Central railroad of New Jersey train today. When the train arrived at South Orange, an emotional young girl ran to the begrimed firemen and kissed them.

### Call for Reinforcements

Police officers commanding the 100 reserves doing strike duty in the eggs and butter market district this afternoon sent a call to headquarters for 200 reinforcements, as reports were received of more trucks having been attacked.

### No Decision on Strike

PHILADELPHIA, April 15.—The conference of representatives of striking Pennsylvania railroad men in the Philadelphia district, officers of the railroad brotherhoods and representatives of the company, and of the state bureau of mediation, which met here last night in an effort to end the strike in this vicinity, adjourned early today without reaching any definite conclusion. Officials of the company, however, appeared optimistic.

In Japan the sewage and refuse of every house is collected nightly and carefully used in agriculture.

### AMERICAN, REPORTED EXECUTED, IS ALIVE

WASHINGTON, April 15.—John Reed, an American magazine writer, reported recently to have been executed in Finland, is alive and well, according to an official report received at the state department today from the Finnish government. Reed is under indictment at Chicago, charged with conspiracy to advocate the overthrow of the government by force.

### MINSTREL SHOW AND DANCE TO AID PAWTUCKETVILLE MEMORIAL FUND

Further assistance for the Pawtucketville memorial fund will be forthcoming this evening when the memorial committee will sponsor a minstrel show and dance in Associate hall in aid of the fund. The Knights of Columbus Glee club will put on the minstrel performance and those who have seen these entertainers in previous productions look forward to a most enjoyable evening.

Some of the most talented soloists and end men of the city are included in the aggregation and under the direction of William F. Thornton this evening's performance should score another hit for the minstrels. Following the show general dancing will be held until midnight.

Next Saturday will be "Banner day" in Pawtucketville and on that occasion every resident will be asked to buy a banner for the benefit of the memorial fund.

### Not Unconditionally Released

LONDON, April 15.—Andrew Bonar Law, the government leader, in answer to questions in the house of commons today, regarding the release of Irish hunger strikers from Mountjoy prison, stated that they had not been unconditionally released. This statement contradicted reports received from Dublin last night.

### Poles Threaten to Occupy Germany

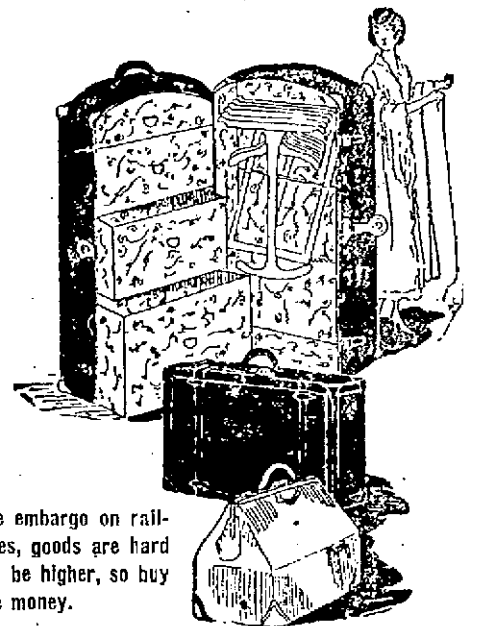

BERLIN, April 15.—The Vossische Zeitung says the Polish government has informed the allied supreme council that it intends shortly to occupy German territory should Germany fail to carry out her engagements with the Poles.

### Famous Prize Winning Horse Dead

BOSTON, April 15.—Dan, a western horse at the navy yard, honored with medals in workhorse parades for 20 years, died today of old age. For several years the horse had been on the retired list but was kept as a pensioner out of consideration for past services. Old stable employees who saw to it that Dan was kept looking fit and given the proper amount of exercise, figure his age at 40 years.

# Fresh Ammunition for Lowell's Army of Spring Cleaners

NEXT MONDAY, April 19th, you'll probably attend to that long deferred job of painting. We've just put in a carload of paints and finishes; so you'll find full stocks of every "PAINT-UP" need on Coburn's paint shelves. While there are plenty of colors on hand at present, far-sighted property owners will order materials at Coburn's TOMORROW—That will mean prompt deliveries, and everything should be in readiness for a good start on Patriots Day.

**TOWN AND COUNTRY PAINT**—Four hundred brands of ready-mixed paints are now being made in the United States. Among them are plenty of imitations of one kind or another, sold under misleading names. Some of them are good paints but none of them will give such service on homes as **TOWN AND COUNTRY PAINT**. That's because it is made with scientific care from pure linseed oil, white lead, zinc and unfading color pigments. After twenty-five years' experience with this paint, C. B. Coburn can safely recommend it to anyone who wants a 100 per cent. "Surface Saver." Regular Shades, Qt. \$1.25, 1-2 Gal. \$2.50, Gal. \$5.00

**QUEEN ANNE PAINT**—Though not as old in years as many of its competitors, it is most securely the niche of top notch excellence at the much desired medium of price. Under average conditions one gallon will cover 300 square feet, two coats. It is made in 24 standard shades including Inside and Outside White and Black. The colors are always uniform, and can be matched at Coburn's any time for repainting. Regular Shades, 1-2 pt. 25c, Qt. 50c, Gal. \$1.15

**U. S. N. DECK PAINT**—Has been satisfying Coburn's customers for more than thirty years. It is a quick-drying, extremely durable, general purpose paint especially suitable for porches, walls, floors, interior wood or plaster surfaces, porch chairs, lawn swings, gutters and all boat and canoe painting. Its smooth, pleasing lustre withstands washing, scrubbing and the most severe conditions of wear and weather. Regular Shades, Qt. \$1.50, 1-2 Gal. \$2.85, Gal. \$5.50

**RICE'S GLOSS MILD WHITE** is an enamel finish at a paint cost. This Mild White is now offered for sale in small convenient cans. It is for interior use on the ceilings and walls of any room in your place of business or home. It is especially sanitary, gives a spotlessly clean appearance, is germ-proof, and actually reflects every ray of sunlight that enters a room. Pt. 75c, Qt. \$1.30, 1-2 Gal. \$2.50, Gal. \$1.50

**FLOOR AND DECK PAINT**—This is an ALL-QUALITY paint, yet its price is not beyond the most sensitive purse. It dries promptly and dries hard. It is especially resistant to moisture and gives long service under the trying conditions such a covering must necessarily meet. Tasteful colors aplenty. Quart ..... \$1.07

**WIRE SCREEN PAINT** that brings the wire netting back to its original freshness and prevents rust. It flows freely and completely covers the wire strands without clogging the meshes. One quart will cover 15 window screens and two screen doors, both sides. Pt. 31c, Qt. 50c, 1-2 Gal. 95c

**SANITARY PLAT**—In the soft, velvety tones of this modern wall finish, decorators and home builders find the perfect combination of beauty, sanitation and economy. It provides the ideal background for home furnishings and yields the much desired atmosphere of good cheer and restful harmony. Gallon ..... \$3.95

**OXIDE PAINT** is ready for use on roofs, barns, fences, warehouses and all outside work and rough lumber. Oxide paint works under the brush and is the cheapest paint in the long run because of its greater covering power and durability. Gallon ..... \$3.10

**DUPONT OIL STAINS** for use on new wood work. They greatly enrich such woods as pine, poplar, cypress and birch, giving hardwood effect, while they also serve to deepen the tone and beautify the finish of oak, walnut and mahogany with equal satisfaction. See color cards and get prices on all shades. Light Oak Oil Stain. Quart, \$1.00

**COBURN'S OUTSIDE SPAR VARNISH** is for marine and exterior finishing. It will give better results than any other spar varnish sold at a similar price. Perfectly adapted for hurried work. Flows freely and dries hard overnight with a deep lustre. Will not spot, blister or scale. Quart ..... \$1.35

**COBURN'S PRESERVATIVE**—Made from pure imported gums and pure turpentine. It is of good body, easy working and covers well. May be rubbed or polished. Dries dust free in four to five hours. Quart ..... \$1.28

**COBURN'S ELASTIC FLOOR FINISH** is a tough, elastic varnish for finishing floors in homes, hospitals and public buildings. It dries overnight and can be washed with hot water and soap without harming it in the least. Quart ..... \$1.30

**COBURN'S CABINET RUBBING VARNISH**—A pale, free working, rubbing varnish of choice quality to be used on all kinds of fine furniture and repair work. It will take a high polish. Sets and dries promptly. Quart, \$1.05

**COBURN'S EXTRA NO. 1 FURNITURE VARNISH** is a hard drying varnish for use on chairs, settees and other household and office furniture. It works well, is of good body and dries with a high gloss. Quart ..... \$1.05

**COBURN'S T. ASPHALTUM** is a heavy black varnish that withstands heat and is proof against rust. It affords the best possible protection for boiler doors, smoke stacks and other iron work. Quart ..... 70c

**MONOLAC** meets the demand for a satisfactory universal varnish. It comes clear and in colors. Gives glossiness, hardness and elasticity to floors. Adds freshness and brightness to staircases, pillars and the moldings. Right natural wood shades. Qt. ..... \$1.40

**MONOLAC GRAINING COLOR**—Ground in temper, for painting in imitation of the grain or texture of oak, jar ..... 60c

**BASINE LIQUID PIGMENT MILLER** is an ideal preparation for filling close grained woods. It is transparent and dries rapidly. Gallon ..... \$2.50

**JOHNSON'S PASTE WOOD FILLER**—For filling the grain and pores of wood, preparing it for the finish. Two shades, natural and golden oak. Pound ..... 35c

**GRIPPIN'S WOOD CRACK AND CRIVICE FILLER** is a non-shrinking, tough, elastic and adhesive compound for filling cracks caused by shrinkage of flooring and smoothing old floors. Pound ..... 45c

**WHEELER'S WOOD FILLER** forms a hard, firmly fixed and transparent substance, which cannot shrink, sweat nor absorb the varnish or finish. It is sold in the very bottom of the pores within a reasonable time. Light and dark. Pound ..... 41c and 45c

**PAINT AND VARNISH REMOVER**—(Bull Dog). The only remover that satisfactorily removes old lead, zinc paint, enamel or shellac. It removes paint or varnish that has been baked on metal or wood. Cream and Liquid. Quart cans ..... 55c

**STEEL WOOL**—The metal fibre which is made of the fine, hair-like shavings of steel is fine for rubbing down the surface to be painted or finished. Packages, 10c and 25c

**PERICE STONE** is considered one of the best articles for rubbing down a coat or finish. Pound 11c

**POWDERED SILEX** when properly mixed makes a good, hard filler. Silica is an ingredient of the best prepared fillers. lb. .... 7c

**PARIS WHITE**—Some painters claim that a little Paris White added to any coloring will improve it. Pound ..... 4c

**CALCINED GYPSUM or Plaster of Paris**, as it is commonly called, besides being used for castings, is good for mending large breaks in walls or ceilings. It holds up better when whitening and lime sawdust are added. Pound, 7c  
 Best Gliders' Botted Whiting. Pound ..... 7c

**POWDERED ALUM**—A little alum will prevent kalsomine from scaling in hot weather. It also hardens it, as it does not remain soft long. Pound ..... 11c

**STENCIL PATTERNS**—The use of stencils on walls, draperies and hangings is an important feature of decorative art. Coburn's Stencils range in price from 35c to \$1.05

**PURE PUTTY**—Coburn's Lowell Brand Putty, made from pure whiting and pure linseed oil. White, lb. 16c, Red and Black, lb. 12c. For Whiting Putty: Commercial White, lb. per Red and Black, lb. .... 10c

**PUTTY KNIVES**, made with the blade running through the handle, and triple bolstered. 25c, 10c and 50c

**PERLESS GLAZING POINTS**—Top class from sliding. These are used by tourists and market gardeners. Pkg. .... \$1.25

**STANDARD GLAZING POINTS** are the old reliable triangles. All numbers. Pkg. .... 15c

**RED RIVET GLASS CUTTERS**—The famous little wheel does the trick. .... 11c

**VITROLAC AUTO FINISH** will make the "Old Bus" shine like a new tin roof. The bright warm days are coming, the sun will be shining on both sides of the fence, and don't forget that Daylight Savings goes into effect April 25th. The birds of the countryside will be calling and you are going to GO. Many of these bright, new-looking cars you pass will owe their brightness to Vitrolac Auto Finishes—the finishes that add worlds to the appearance and dollars to the value of the used car. It is easily applied, flows out well and dries promptly. Get color card and prices on Vitrolac colors. Black ..... Qt. \$1.40

**MOTOR TRUCK AND WAGON PAINT**—A very durable, high gloss paint, excellent for use on motor trucks, wagons, farm implements, tools, ice cream tubs, milk cans, fire plugs, pumps, separators, or any wood or metal surface on which a high gloss finish is desired. Black, Gal. \$1.40; Vermilion, Gal. \$1.50; Blue, Green, Red, Yellow ..... Gal. \$1.55

**RECHACCO CEMENT FLOOR COATING** is oil-proof and can, therefore, be used on floors likely to become injured from the action of lubricating oils and greases. One or two applications will keep cement floors from becoming stained or dusty. Regular Shades ..... Gal. \$3.85

**ANTOXIDE** is for all iron. For years it has stood alone, as champion, in "The Battle With the Iron-Eaters." Examine your rain troughs and spouts. If they show signs of rust you'll probably have to renew them later unless you PROTECT them NOW. ANTOXIDE, the rust prohibitive paint, will do this surely, easily and at little cost ..... Gal. \$1.10

**DIXON'S SILICA-GRAPHITE PAINT** is distinctively a protective paint. It is adapted to certain ornamental work where dark colors are appropriate, such as cornices, fences and so forth; but it is primarily a protective paint for all outside metal surfaces. It gives long service and is economical in labor and material ..... Gal. \$4.20

**COBURN'S SPECIAL BRONZE GREENS** are designed to meet the need for a green paint in places for painting blinds, store fronts and work of this description. Master painters will find that these greens combine splendid working properties with price economy, and are thoroughly dependable. Dark Bronze Green in 5-lb. lb. lots ..... 1 lb. 24c

**RIPOLEN ENAMEL** is made in Holland by the old Dutch hand process under a secret formula. Its peculiar advantages are its wonderful elasticity, its permanency, its grainless, washable surface and its exceptional covering capacity. It rubs and polishes. 1-2 Pt. 70c; 1 Pt. \$1.45; Qt. \$2.55

**BATH TUB AND REFRIGERATOR ENAMEL**—For metal lined bath tubs, refrigerators and sinks. This enamel, with its heavy tile-like, water and germ-proof surface, will keep them well protected. It is not affected by hot or cold water. 1-2 Pt. 45c

**FLOWKOTE ENAMEL** is one of the best all-around enamels. It gives a surface almost equal to porcelain. It may be scrubbed with soap and water without injuring it in the slightest degree. Flowkote is easily applied ..... Qt. \$1.75; Gal. \$6.40

**CALMAN'S ENAMELIN** flows as freely as the finest carriage varnish. It may be brushed for half an hour without showing laps or brush marks. It spreads over 600 square feet per gallon. Pt. \$1.07; Qt. \$2.00 1-2 Gal. \$3.50

**SANITARY ENAMEL GLOSS** makes a special appeal to the housewife because grease, dirt and stains can be readily washed from its surface without marring the hard enamel finish ..... Qt. \$1.40; Gal. \$1.00

**STOVE ENAMEL**—Keeps metal articles free from rust. It brightens up and preserves coal stoves, gas stoves, stove pipes, bread boxes, spice, tea and coffee tins and other household metalware ..... Pt. 40c

**PERMANENT GLOSS ENAMEL**—The black boiler enamel that will stand 700 degrees of heat. Unequalled for smoke stacks, boiler fronts, steam pipes, radiators and all hot surfaces ..... Gal. \$1.00

**COLUMBIA YACHT WHITE** is a pure semi-gloss white paint, suitable for the finest boat work ..... Qt. \$1.50

**GREEN COPPER PAINT**—This copper boat paint is an anti-fouling composition for boat bottoms ..... Qt. \$1.60

**GOOD PAINT AND VARNISH BRUSHES**—Before buying brushes visit Coburn's Brush Department and see what this store has to offer in regard to all oval paint and Varnish Brushes. Inspect the quality of the bristles and you will notice that they are of good uniform length, are elastic and are solidly set in rubber, cement or glue. All of the styles and qualities carried are not included in the following list. You should come in and witness the complete line.

**THE GLOBE WALL PAINT BRUSH**—Set in rubber. Nos. 70, 50 and 30. Priced \$1.80, \$2.05, \$2.21

**THE LAWRENCE WALL PAINT BRUSH**—Set in rubber. Nos. 50, 70 and 30. Priced \$1.80, \$2.27 and \$3.45

**HAMILTON FLAT PAINT BRUSHES**—3 inch, 3 1/2 inch and 4 inch. Priced \$3.12, \$1.49

**SOLID CROW OVAL PAINT BRUSHES**—Nos. 50c to \$2.05

**COBURN'S CHINESE CHISEL FLAT VARNISH BRUSHES** are very popular. XX, in five sizes, 25c to 55c; XXX, in five sizes, 25c to \$1.07; XXXX, in five sizes, 25c to \$1.60

**DARIAN SASH AND FINISHING BRUSHES**—In ten sizes, 15c to 50c

**BEST WHITEWASH AND KALSONINE BRUSHES**—Satisfaction gained by using good tools makes work a pleasure. Don't get the impression that Coburn's Whitewash and Kalsomine Brushes are expensive. They were made to fill a practical want rather than to fit a price, and they are the most economical brushes to buy.

**GRAY WHITEWASH BRUSHES**—Made of pure Russian bristles. Two sizes. \$0.82 and \$1.01

**WHITE WASH BRUSHES**—Of pure black bristles. Three sizes. \$0.80, \$0.75, \$0.50

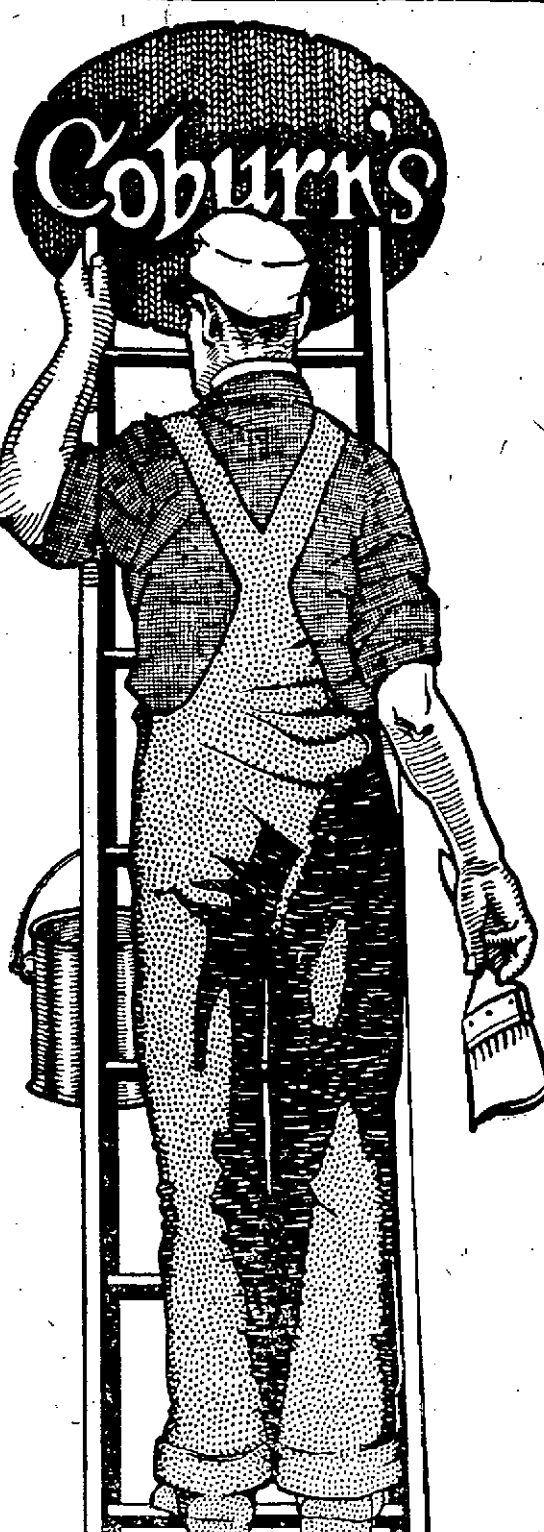

**OKATRA KALSONINE BRUSHES**—Made of pure Russian bristles with ivory centre. \$1.24

**BUCK KALSONINE BRUSHES**, No. 7, 63c

**SIX'S PAINT HANGERS**—Sizing—for painting over whitewashed, kalsomined and painted surfaces. Gal. .... \$2.70

**GROUND SIZING GLUE**—For the priming of plaster walls. Pound ..... 17c

Mrs. Elsie Lentino

## WANTED: A SOLOMON

NEW YORK—Who shall have the child of Mrs. Elsie Phillips Lentino? Five years ago when little Elsie Lentino was born her mother was unable to care for her. The baby went to neighbors and finally to Mrs. Ada Feser, the Bronx. Mrs. Feser who has no children of her own, now fights the mother for possession of the child in the Bronx supreme court. "I was sick in bed and had been given 'hot drinks' before I signed the adoption papers," says Mrs. Lentino. "The child is mine by adoption," says the foster-mother.

## President of Guatemala Flees

HAVANA, April 15.—Mamuel Estrada Cabrera, president of Guatemala, against whose administration a revolution has been going on during the past fortnight is believed to have fled from that country and to be on his way to Cuba, according to the newspaper El Mundo.

## To Bar Food Exports From Ireland

DUBLIN, April 15.—Prohibition on food exports from Ireland until the market becomes normal, is demanded in a manifesto issued last night by the labor party. It says the dislocation of traffic and the absence of transports have denuded towns of food.

## TRANSFORMER STATION AND WATER TOWER

Permits were issued today at the office of the buildings department at city hall to the Bay State Cotton corporation for the erection of two buildings auxiliary to the new \$1,000,000 plant now under process of construction in Broadway. One was for a steel water tower to be erected east of the main storehouse, 50 feet from Broadway. The foundation would be of reinforced concrete with a gravel foundation. The tower will be used for water protection. The Chicago Bridge and Iron works are the builders and the cost is estimated at \$15,000. The tower will have 100,000-gallon capacity.

The other permit is for a transformer station of reinforced concrete to be erected by the Aberthaw Construction company. No estimate of its cost is given.

## OUR KINGDOM FOR THAT COMBINATION

"I suppose you haven't forgotten about the three barrels of whiskey seized by the police Tuesday evening," queried Supt. Welch of the police department, when the police reporter casually dropped into his office this morning, in search of a little news. The reporter admitted that he hadn't forgotten—nor was he likely to, for a while, either.

"Some time ago," the chief continued reminiscently, "we seized a large amount of whiskey and part of it was afterwards stolen. You perhaps remember that, too."

And again the news hound admitted that such was the fact.

"Well, this whiskey isn't going to be stolen," declared the chief emphatically—and he can be decidedly emphatic when he chooses, can the chief.

"Not so you could notice it. That whiskey is in a vault in the police station cellar and that's where it's going to remain until it is turned over to the federal authorities. The vault is securely locked and I'm the only man in Lowell who's got the combination."

The reporter wanted to know what would happen to the booze after it was turned over to the federal authorities and the chief explained that it would be utterly, completely and entirely destroyed. Probably they'd pour it into a catch basin or some such place, he said, and that would be the end of it.

It's mighty good whiskey too, the chief pointed out. Federal authorities tested it yesterday, and found that it registered as high as 110 proof.

Reporter explained just before leaving that he had been the unlucky possessor of a bad cold for the past month.

The chief wouldn't fall for it, however. Just said again that the three barrels aforesaid were in the vault and by the great horn spoon, that's where they'd stay.

And there you are.

## Names New Firemen

Continued

McCready, being adjutant of the local post of the American Legion. The ten new men are the following: Daniel F. O'Connor, 53 Adams st. John J. Mulligan, 49 Andover st. Daniel F. Murphy, 56 Manchester st. Walter T. Powers, 516 Central st. James P. McCready, 125 Bowers st. Warren White, 46 Andover st. Walter E. McNally, 57 So. Whipple st. John F. Thomas, 59 Fourth ave. William F. McNir, 29 Bowne st. John P. Mealey, 215 Cross st. William F. Keenan of 15 Otis street was fifth on the list of eligibles furnished the commissioner by the civil service commission, but he did not wish to accept the appointment. The appointees are the highest men on the list.

## A Friend Worth Knowing

We make many acquaintances, some of which develop into friendship, but not all prove themselves true friends. It is just as essential that we have a reliable friend in the form of a medicine as a personal friend, so that when we are afflicted with various ailments we can have something we can absolutely depend upon.

The next time you have any stomach, liver or kidney trouble, and you are not already acquainted with the wonderful merits of SEVEN BARKS, nature's remedy of roots and herbs, we urge you to give it a trial, and we will predict that it will become one of your most valuable friends from a medical standpoint.

For nearly half a century SEVEN BARKS has been a valuable and timely friend to all sufferers of stomach and liver disorders. A trial will quickly prove its wonder efficiency, and after that you will never be without it, and gladly recommend it to your friends.

Doctor's bills these days run into money fast, and can often be saved if you will but keep on hand a bottle of SEVEN BARKS, the old-fashioned remedy that our parents and grandparents used to keep their families rugged and well.

If you want a friend that will stand by you in time of need, ask your druggist for SEVEN BARKS. Price but 50 cents per bottle, enough to last a long time.—Adv.

## Chancing

That's what you're doing every time you take new unknown remedies, for which marvelous claims are made. Your health is too important to risk in questionable experiments, especially when your druggist always has the tried and tested "L.F." Atwood's Medicine on hand. This worthy old remedy well deserves the confidence that 60 years of unchanging quality have established.

At the first signs of stomach disorder, biliousness, or headache, one or two teaspoonfuls of "L.F." will quickly restore normal conditions to your digestive organs. Small doses, taken regularly, will maintain a healthy condition that will ward off colds and disease. Get a bottle today and keep a supply always on hand. Large bottle, 50 cents, or a generous free sample from the "L.F." Medicine Co., Portland, Maine.

## PULL GUNS TO HALT STRIKERS

Crowd Attempting to Reach Strikebreakers at Somersworth, N. H., Routed

Fire Department Ready to Turn Hose on Mob if Disturbances Continue

SOMERSWORTH, N. H., April 15.—Labor disturbances at the shoe shop of E. W. Warren here caused sheriff and police officers today to hold back a crowd with pistols drawn while strikebreakers and some regular employees went to work. The crowd rushed the officers in an attempt to reach the strikebreakers, but were thrown back or retreated under the show of weapons. One man was hurt by a brick.

The appearance of the strikebreakers yesterday had been marked by disorders in which three of their number were injured, and the party chased from the shoe factory across the state line into Berwick, Me., to the hotel where they were quartered. A crowd which surrounded the hotel, shouting that they wanted to get at the strikebreakers, was dispersed when Deputy Sheriff Coffin had the fire department set up three lines of hose which he threatened to turn on the crowd.

The United Shoe Workers of America demanded recognition of their union a month ago. When the employees returned to work from dinner that day they found a notice on the gates that the plant was closed indefinitely. Attempts have been made to operate it for the past two weeks.

## Mayor Issues Proclamation

Continued

names next Monday as the opening day, an effort is to be made to have the work started next Saturday afternoon and continue over the week-end. Chief Saunders of the fire department says that particular attention should be paid to alleys where rubbish has accumulated to an alarming degree during the past winter. Such debris not only presents an excellent opportunity for a dangerous fire, but also impedes firemen when they are called upon to extinguish a blaze in such surroundings. Alleys should be thoroughly cleaned out and where rubbish has been allowed to accumulate in cellars particular attention should be paid to them.

The board of health will do its share in the campaign. Agent Francis J. O'Hare urges a thorough cleaning up for no other reason than the sanitary benefits to be derived.

His men are ready, he said today, to collect whatever rubbish is left out for them on their regular collection days. His only stipulation is that householders refrain from filling large sugar barrels with several hundred pounds of material and expect the collectors to be able to handle them. Ordinary barrels are sufficient for most families and if there is a large amount of rubbish to be disposed of several small barrels should be used instead of one large one. Very often the collectors strain themselves in handling such heavy loads and are forced to give up their labors for some time.

The mayor's proclamation given out today is as follows:

## PROCLAMATION

To all men, women and children of the City of Lowell: During the week of April 13th and for as many weeks thereafter as may be convenient, you are invited to participate in the annual campaign to keep the community life throughout our city clean, healthy, thrifty, safe and beautiful.

The annual clean-up campaign is now being waged throughout the United States for the purpose of safeguarding the health of the people, in promoting thrift, in furthering fire prevention, in stimulating civic pride and in making the home and city beautiful.

And to that end, all are invited to expend their energies in removing all debris, junk, papers, rags and unnecessary indurables from their premises; and to clean their yards, cellars, attics and closets, in order that the city of Lowell will stand in the forefront of the cities of our commonwealth as a real clean city.

Let there be an active participation in this campaign of every city department, of every corporation and factory in our city, so that there may be presented the highest standard of our civic life by a demonstration of a clean, wholesome city.

Let everybody, therefore, get together, and exert his best energies in making this annual spring cleaning campaign a genuine success.

PERRY D. THOMPSON, Mayor and Commissioner of Public Safety, Lowell, Mass., April 14, 1920.

## Coal Supply Cut Off

Continued

Hoston & Albany roads have announced a refusal to make further deliveries of soft coal to commercial consignees, due to the fact that their supply of available fuel for motive power has reached the danger point.

In case of dire necessity, however, attempts will be made to deliver coal to industrial consignees exclusively served by either of these roads. "Dire necessity" covers only such plants as will be compelled to shut down if emergency supplies of soft coal are not immediately received.

One local dealer said today that he has found the Boston & Maine railroad

men very willing and anxious to release as many cars as possible, but that not only has he lost cars in transit, but also the road has taken them after their arrival in Lowell.

Most of the larger textile mills of the city have comfortable supplies of soft coal on hand, accumulated during the past several weeks, or since the railroad recovered from their winter freeze-up. There are other local industries, however, that rely upon almost daily deliveries and it is in regard to these plants that the present concern is felt.

## Says Advertising Pays

Continued

position of the dangers of carelessness given through the medium of public speakers and the presentation of the "Careless America" film during the past two weeks cannot fall but result in minimizing our street traffic accidents in future.

Supt. Welch also stated that he wishes to thank officials of the local chamber of commerce, the community club, and Hugh J. Molloy, superintendent of schools, for efficient assistance in sending the campaign over the top.

He also wishes to thank the following speakers, who made addresses in the local theatres during the drive: Mayor Perry D. Thompson, Commissioner George E. Marchand, City Auditor J. Joseph Hennessy, Rev. A. W. Shaw, assistant pastor of St. Anne's church, Major Walter H. Jones and Attorneys Bennett Silverblatt, Arthur L. How, Frank Goldman and Albert S. Bond.

Lowell's theatre managers, who did their bit by making possible the presentation of the "Careless America" accident prevention film in the local theatres during the drive, are also entitled to a large share of credit of the success of the campaign, the chief declared.

The campaign was officially closed last evening, when several speakers appeared at the theatres of the city and spoke briefly on the dangers of carelessness in connection with the final presentation of "Careless America."

Commissioner George E. Marchand spoke at the Jewel theatre, Rev. Arthur W. Shaw at the Merzbach Square theatre, Arthur L. How at B. Keith's theatre, Bennett Silverblatt at the Owl, Major Walter H. Jones, Crown theatre and Supt. Welch at The Strand theatre.

An Alabama man has invented a pistol that is practically a miniature machine gun, as its cartridges are loaded into a chain of almost any length desired.

## EXPECT BIG BREAK IN STRIKE

Atty.-Gen. Palmer's Charge Expected to Bring About End of Railroad Strike

Charge Foster, Head of Steel Strike, Also Man Behind R. R. Walkout

Railroad officials whose lines have been crippled by the unauthorized strikes of operating employees waited today for the big break in the strikers' ranks which they hoped would be produced by Atty. Gen. Palmer's announcement that the strike leadership had been traced to radical quarters. Mr. Palmer's statement that William Z. Foster, radical leader of the unsuccessful steel strike last fall, was the guiding genius in this strike, and that his object in reality was the formation of "one big union" was expected to influence many of the less radical strikers to return.

Hope that the Palmer statement would break the back of the strike, however, did not deter railroad officials from exerting every effort to speed the process by operating their lines with volunteers and loyal employees.

Conditions in the central and far west were declared to be returning steadily toward normal and marked increases in both freight and passenger service were reported in the east.

The first sign of willingness on the part of eastern strikers to negotiate came last night when Edward McLaughlin, chairman of the strike committee, sent a message to the new railroad labor board stating that the men would welcome an opportunity to lay their grievances before the board. He asserted, however, that the men would not return to work, pending a hearing.

The transportation act, under which the board functions, provides that no consideration shall be given to claims of men actually on strike.

United States capital placed in Canada in 1919 totalled \$100,000,000.

## How You Can Quickly Remove Hairy Growths

Continued

(Aids to Beauty)

A well known beauty specialist advises this treatment for the removal of hair from the face. Mix into a paste some powdered delatone and water, apply to hairy surface and after about 2 minutes rub off, wash the skin and every trace of hair has vanished. This method is quick and entirely safe. To avoid disappointment, however, it is well to make certain you get genuine delatone.—Adv.

Altenrhu has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable, and where the patient was helpless.

## PALMER REVEALS RADICAL PLOT

Foster, Who Led Ill-Fated  
Steel Strike, Prime Mover  
In "Outlaw" R. R. Strike

Plotted to Disrupt Old Unions  
—Other Big Outlaw Strike  
Planned

WASHINGTON, April 15.—(By the Associated Press.)—Department of Justice investigators report that evidence in their possession proves that William Z. Foster, leader of the ill-fated steel strike, is the prime mover behind the "outlaw" railroad strike. The government let this be known last night, feeling that when the strikers learn what influences are behind the movement they will alienate themselves with their recognized organizations. Action by the government in the direction of prosecution of strike leaders, therefore, will be held in abeyance pending the expected reaction among the strikers on receipt of information showing the directing impulse of the strike agitation. The evidence in the hands of Attorney General Palmer shows that Foster was present at union meetings which were adjourned to meet in other halls, not as organizations, but as individuals. Mr. Palmer also said that Carl Pierson and A. E. Reese, both of whom the department's investigators have placed in the category with Foster, were engaged in attempts to expand the strike and were definitely connected with planning it. Both began this work in Chicago, Mr. Palmer said. As this phase of the situation became known, President Wilson met his cabinet for the first time since

last August. The whole story of the strike crisis was related and it was understood a decision then was reached to seek a solution through the publication of the motives behind the walkout, the strikers being assured at the same time of early consideration of any wage demands they may have by the railway labor board. This must not be construed to mean the government has adopted a policy of hands off, it was said, but rather that officials believed the time has not arrived for direct governmental action.

### Railway Board Criticized

The senate did not concur yesterday the nominations to the labor board. They were considered in executive session and the president's selections brought sharp criticism in some cases. It was understood. Leaders asserted last night that probably they would be confirmed with little delay unless definite ground for opposition developed from inquiries some senators were making.

Mr. Palmer made public evidence of plans prepared by Foster and his adherents to disrupt the four great railroad brotherhoods and to organize all rail workers into one union. Selected documents also revealed that a similar course was to have been followed in various other industries where crafts aligned with the American Federation of Labor would be urged to recognize under one name.

### Dates Fixed For Big Strikes

"We have positive proof of the plans for this expansion," Mr. Palmer said. "I know the dates fixed for nationwide strikes in other industries and our investigators have discovered that the fomentation of these outbursts has gone on exactly as in the railroad strike."

The whole program was one phase of the plan of the Russian radicals "designed at the ultimate capture of industry the overthrow of government and the setting up of a dictatorship like that in chaotic Russia," Mr. Palmer said. Workers are being led unwittingly into the trap set for them, he added. Through the Industrial Workers of the World, the communist in-

ternationals—headed by Lenin and Trotsky—was attacking America's industrial life. Federal agents had intercepted a courier from Russia March 1, passed bogus messages to American locals of the communists, detailing methods of organizing class war. The radicals were instructed to direct their utmost efforts towards "drawing the proletarian masses into the pathway of revolution."

### Would Wreck A. F. of L.

The organization's first goal, the messages said, must be the wrecking of the American Federation of Labor and it ought to establish direct and close relationship with the I. W. W. and the "one big union" of Canada. The I. W. W., the word continued, was to be the tool employed and it was to establish the basis for uniting all unions under the one big union idea.

As a result of these disclosures, the government has broadened its investigations until agitators in all labor organizations are under surveillance. Funds used are closely watched and all clues to the source of the financial support are being followed.

Following the collapse of the steel strike, Mr. Palmer said, "Foster, Pierson, Reese and others of their associates of the revolutionary parties engaged in the endeavor to promote the present strike."

"Lists of all railroad men who were members of the communist or communist labor parties were sought," he said. "The names of all railroad workers who were opposed to the present management of the four brotherhoods also were collected. Meetings were held in hotels in New York and Chicago and other cities where all of the plans were laid."

### Meet at I. W. W. Quarters

"The basic agitation of these leaders was the destruction of the railroad brotherhoods, the removal of their leaders and the creation of the 'one big union.'"

"At first it was planned that the I. W. W. should not appear publicly in the strike, but John Grunau, leader in Chicago, deviated from the original plans and allowed the men to split the strikers into four separate organizations."

"This caused some dissension which has resulted in the movement for the one big union. Several conferences were held at the I. W. W. headquarters in Chicago and in other cities. Grunau had gone too far with the four organizations to turn back and the only way the big union could be put over was through the railway shopmen, who were urged to strike under the one big union banner and force Grunau's union to follow suit, recognize and come into the one big union."

"It was realized that the I. W. W. could not make headway because of the prejudice and fear of those three letters and the fact that the men would not warm up to the organization. The one big union idea was decided upon and Bidwell, a member of the newly formed engineers' association in Chicago, replaced Grunau."

"Bidwell is confident he can swing the four brotherhoods behind the plan, provided the shopmen follow out his plans."

Federal agents reported that a per-

## How Rheumatism Can Be Overcome

When the general health is broken down, if conditions are favorable for the disease, rheumatism is liable to develop. Without conditions of low vitality and weakened resistance, nature will protect the body against disease. A marked feature of the development of rheumatism is the thinning of the blood. Until the blood becomes rich and well-oxygenized, so that it can eliminate poisons from the system, attacks of rheumatism may be expected from time to time.

Miss Emma Baker, who lives at No. 39 Wentworth street, Biddleford, Me., is among those who have been fortunate enough to recover from rheumatism. She says:

"My nerves were all played out. I was tired and had no ambition. Each day my work seemed harder and I thought I would have to give up. To make matters worse, rheumatism developed and I had sharp shooting pains in my body and limbs. My appetite was poor and I was troubled with sour stomach. I was so nervous at night that I did not get much rest."

"About three months ago I read about Dr. Williams' Pink Pills and decided to try them. They helped me almost at once. The pains in my limbs went away, my appetite grew better and my nerves became quiet so that I could get a good night's rest. I cheerfully and gladly recommend Dr. Williams' Pink Pills, for they built me up and made me stronger."

Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 60 cents per box, by the Dr. Williams Medicine Co., Schenectady, N. Y. If you are interested, write today for the free book, "Building Up the Blood," containing a special chapter on rheumatism.—Adv.

manent committee had been named to manage the organization and that each of these were "members of the I. W. W. or would take orders from duly accredited representatives of the one big union." Leading I. W. W. men have been ordered to remain in the background hereafter.

Mr. Palmer believed that the nationwide round-up of radicals, conducted recently by the department, had halted, at least, if not seriously hindered, promulgation of the strike plans by its leaders.

Palmer "Head Policeman" He said that literature distributed among railroad workers described the raids as having shaken "the foundation but not disrupted our organization." In one of the documents the attorney general was termed "America's head policeman."

Mr. Palmer made public at the same time a letter from A. V. Hutzgers, who presided at the third communist international, to Ludwig C. A. K. Martens, self-styled envoy of the Russian soviet government.

Martens, against whom deportation proceedings are under consideration, was assailed by the chief communist for methods the agent had employed in "attempting to force recognition" of the Russian soviet. Hutzgers characterized as "childish" Martens' contention, said to have been made to his government, that he had any influence in the making of peace. Martens also was told that if he desired to force recognition by the United States he should do it through the power of the workers.

"All your hope either on small individual bourgeois or parties like the socialist, artistic or politician pacifists and middle-men is not only unfounded but contrary to well-established tactics," the letter said.

Martens then was instructed to omit attempts to establish commercial relations between the two countries and to devote his time to driving revolutionary plans forward.

### BAZAAR FOR CHURCH REBUILDING FUND

Attended by a large crowd, the second evening of the Lawrence Street Primitive Methodist church bazaar—which is being conducted at the Gorman Street Methodist church all week in an attempt to add \$1500 to the rebuilding fund of the former church—proved most successful. The program embraced a splendid concert under the direction of N. W. Matthews, Jr., in which the following members of the parish appeared in songs and musical selections: Ernest Turle, Miss Bertha Hunt, Bertram Nield, Miss Belle Lilly and Miss Bertrice Libby. Rev. N. W. Matthews, pastor of the Gorman street church, acted as interlocator, and prayer was given by Rev. Mr. Singleton of the Lawrence street church.

The committees having charge of the various booths are as follows: Domestic and dress goods, Ladies Aid society; groceries, trustees of the church; jams and preserves, Miss Alice M. Douray; home bakery, Mrs. Edward Brainerd; refreshments, Mrs. M. Bowdoin; ice cream, Ladies Aid; toys, Mrs. Rebecca and William; stationery, Mrs. T. W. Allen; Mrs. J. Watson and Mrs. Bertha Anderson; crabs, Girl Scouts; post cards, Boy Scouts; candy, Miss Annie Hill; jewelry and novelties, Mrs. Sarah Singleton; fan, towels and flower, Pollyanna class; John Burman has charge of the tickets at the door.

### Miro Pile Ointment Completely Cures

"After suffering from itching piles for over 25 years, secured relief from the first box of Miro Pile Ointment, and after using two boxes am entirely cured and recommend Miro to all pile sufferers," says J. Angus, Stoughtonville, N. H.

IMPORTANT—Miro Ointment is prepared especially for itching piles. We do not advise its use alone in cases of bleeding or protruding piles. For this condition Miro Pile Remedy (internally) has been prepared. Ask your druggist, or Dr. J. Howard, who sells lots of it.—Adv.

## OBSERVED THEIR GOLDEN WEDDING

Surrounded by their children, grandchildren and a host of friends, Mr. and Mrs. George E. Clagston of 353 Christian street celebrated their golden wedding anniversary yesterday afternoon and evening at the home of Patrolman John T. Whelan, 131 Methuen street. During the evening the happy couple were presented a purse of gold by their 8-year-old granddaughter, Henrietta Clagston of Roxbury. Mr. Clagston is a member of Post 120, G. A. R.

Present at the event were Mrs. John T. Whelan, Mrs. George E. Goode, Mr. and Mrs. Ralph W. Clagston of Roxbury; Mrs. Laura M. Jennings of Lowell; Mr. and Mrs. Harry M. Fox and daughter Dorothy of Braintree, and Miss Jessie L. Clagston of Boston. Rev. and Mrs. Nathaniel Matthews of the First

P.M. church were present and the former celebrated a great-grandson, Edward O. Tabor, Jr., the son of Dr. and Mrs. Edward O. Tabor. Mrs. Tabor is the daughter of Mr. and Mrs. John T. Whelan.

### VETERAN RECEIVING STATE AID DIES LEAVING ESTATE VALUED AT \$3000

William A. Arnold, superintendent of the department in Massachusetts, the case of a local veteran of the Civil war whose death occurred recently and who had been receiving state aid since 1882, although his finances enabled him to have an estate valued at \$3000. Shortly before his death the man had received an increase in the amount of aid coming from the state from \$5 to \$16 per month. The discovery of a bank book after his death showed that he had been making deposits since 1893.

# GENERAL STRIKE NEAR REVIEW OF POPULATION

Union Elevator Operators of New York Threaten to Quit Work

NEW YORK, April 15.—A general strike of union elevator operators in New York appeared imminent today, according to union officials, because their demands for wage increases and an eight-hour day had been rejected by owners of apartment houses, office buildings and department stores. The union, which claims a membership of 17,000 out of the 25,000 operators here, will meet tonight to consider a strike proposal.

The operators demand increases of from \$5 to \$10 a week, in addition to time and a half for overtime after eight hours.

## WEAR OVERALLS, PUT BOYCOTT ON POTATOES

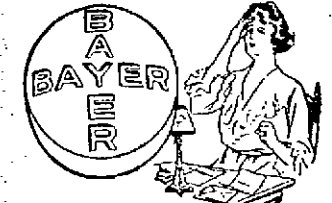

DETROIT, Mich., April 15.—Several thousand members of the Loyal Order of Moose donned overalls today pursuant to a resolution adopted last night calling upon 5000 local members to wear rough raincoat until prices of clothing declined. The resolution also endorsed a boycott on the use of potatoes, launched several days ago as a protest against high prices.

## 20,000 AMERICANS IN POLISH ARMY TO RETURN—NEW SHIP

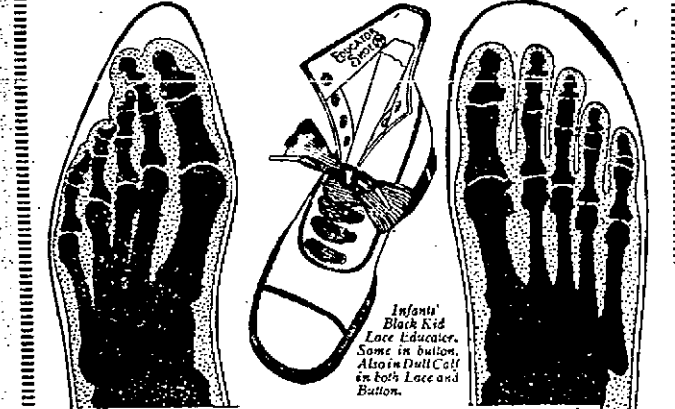

DANZIG, April 15.—Arrangements with American shipping interests for a fast Polish-American passenger and freight service between United States ports and the Baltic have been completed by Polish naval authorities. Twenty thousand American citizens who have been fighting in the Polish army are awaiting accommodations to return home.

## ASPIRIN FOR HEADACHE

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Headache, Colds, Pain, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacturing of Monacelle-acidester of Salicylic acid.—Adv.

# Communist Arms Hidden at Essen

ESSEN, April 14.—Ninety per cent of the arms owned by the communist adherents in this region have been hidden, instead of being turned over to government officials, it is alleged, and some of the authorities declare a withdrawal of government troops would be followed by disorders. Part of the troops which have been patrolling this city left town yesterday.

## Troops Patrol Kewanee, Ill.

KEWANEE, Ill., April 15.—Two battalions of the 11th Illinois infantry, strengthened by a machine gun company, patrolled the streets here today to prevent a recurrence of scattering disturbances which broke out yesterday between strikers and "loyal" employees of the Walworth Manufacturing Co.

## Germans in Ruhr Region Resent Orders

PARIS, April 15.—German regulars in the Ruhr region are resenting disciplinary rules, according to the Frankfurt Gazette, which says General von Watter, commander of the government forces has left Essen suddenly for Berlin.

## Baseball Opening at Boston

BOSTON, April 15.—The American League Baseball season in this city was opened for the 20th year today, with a game at Fenway Park between the Red Sox and Washington. Bright skies and a wind from the west that had a bit of a tang in it, made seasonable weather conditions for the opening which had to be postponed yesterday because of wet ground. Governor Coolidge, Mayor Peters and Major General Edwards were among the invited guests.

## Non-Union Crews Work at Boston

BOSTON, April 15.—The docks of the United Fruit Co., here, against which a strike was declared by the longshoremen's union yesterday, were manned today by 300 men. The non-union crews operated without interference, and handled the banana cargo of the steamer San Malco which arrived today. Other vessels of the company have been diverted elsewhere, but officials announced that hereafter they would attempt to handle all cargoes here.

## Had Terrible Cough in Bed 3 Years

In 3 Weeks, She Was Out on the Street Again, Feeling Fine

"In 1916, I had a gripe, followed by pneumonia which left me with a severe cough. I coughed constantly from morning till night, and then would wake up in the night and cough and choke. I lost flesh and my appetite was very poor. I doctored with a specialist for over a year, and had several other doctors, but got worse instead of better. Last winter I was bed-ridden, had chills and fever and got so weak I could not sit up in bed 5 minutes without fainting.

"In February, 1919, I started on Milks Emulsion. I was then in bed, but in three weeks I was able to be up and on the streets. Just think of it! For three years I have been a physical wreck, in bed most of the time, and Milks Emulsion had brought me out in wonderful shape. My friends all tell me how well I'm looking, for they didn't expect me to be living today."

Miss M. Russell, 1003 Opelousas St., Algiers, La.

In thousands of just such cases, Milks Emulsion has brought the same wonderful relief and improvement. It costs nothing to try.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, promotes appetite and puts the digestive organs in shape to assimilate food. It helps build up flesh and strength, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are usually relieved in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere. Sold and guaranteed by Fred Howard, 197 Central St.—Adv.

**Bent Bones**  
That Were Bent By Pointed Shoes  
POINTED shoes are what make all bent bones, corns, bunions, ingrowing nails, callouses, flatfeet, fatigue, and all the ills that feet are heir to.

**Straight Bones**  
That Grew Straight In Educator Shoes  
EDUCATORS prevent, relieve or free your feet from bent bones, corns, bunions, ingrowing nails, etc., because they let the feet grow as they should.

Get your whole family (men, women and children) into roomy, good-looking Educators today.

See that EDUCATOR is branded on the sole. That name guarantees you the correct orthopedic shape which lets your feet grow as nature intended.

IN THE SPRING BUILD UP YOUR SYSTEM OF YOURS  
It is a well established fact that the long winter months have a tendency to heavily tax the system—and waste material is accumulated, to which you can directly charge the cause of all diseases.  
This is the time for Spring cleaning of the system, purifying the blood and rebuilding the body in general.  
There is no Spring Tonic so helpful as this time as  
SISTER MARY'S COMPOUND  
a combination of nature's remedies used and recognized by physicians for hundreds of years all over the world.  
Stomach and Lung Trouble

# "PLEASE BOOST OUR HOURS," ASK GARBAGE DRIVERS!

(N. E. Staff Special)  
MEMPHIS, April 15.—The old order returns. Memphis is still starved for a request of garbage drivers, that they be permitted to work 10 hours instead of eight! They asked that the same scale of pay be retained—30 cents an hour.

## VERY NOVEL PROCEDURE

"Jury" of Neighbors Decrees Separation of Pastor and Wife  
BY HAL COCHRAN, N.E.A. Staff Correspondent.  
LIVERPOOL, N. Y., April 15.—A selected "jury" of three neighbors has decided that the Rev. W. W. Brunk, pastor of the First Methodist church, and his wife, whom he married 22 years ago, shall separate.

As was agreed before the meeting was called, the pastor and his wife signed the decision and have separated.

Unable to settle their domestic troubles themselves, and not wishing an airing in the divorce court, Rev. Mr. Brunk and his wife went together to Justice of the Peace Jolson for advice. He suggested that the Brunks' own neighbors settle the problem.

It was decided that three friends should sit on the "jury," hear both sides of the case and hand down a decision which both Brunk and his wife agreed to abide by.

The hearing took place in the parlor of the clergyman's home. While the three children of the Brunk family, Lillian, 20, a sophomore at Syracuse university; Alfred, 16, a student in high school, and Clifford, 7, waiting in the dining room, Rev. and Mrs. Brunk told their stories.

First they were questioned separately and then a joint hearing was held. Lillian was called to testify. "Daddy and mother cannot seem to agree on some things," said she would say.

Then the neighbors deliberated alone and pronounced their decision: that the couple would be—for the time being, at least—better off apart.

The next day Mr. and Mrs. Brunk called together at the office of George H. Jolson and signed an agreement upon the terms of their situation. The paper read that Mrs. Brunk should take their youngest son, Clifford, and go to live with her bachelor brother, John Battle of Pensacola, Fla.

Her husband was to pay her \$2000—\$1500 to be raised by placing a mortgage on the Brunk homestead and \$500 in cash at once.

Prepare Last Supper  
After signing the agreement the couple returned to the Brunk home.

life-sized painting of his wife on the wall of their living room.

"That is a good picture of her," he said, as he sat and gazed on it thoughtfully.

Alfred, the 16-year-old son, explains that he is ready to help dad keep house.

"There is one thing I would like to be understood," said the lad. "That is that there is not one breath of scandal on either side. I believe they will be back together soon—they are very fond of each other."

The three jurors have virtually the same comment to make, regarding their service.

"We have done what we thought right. We have tried to be 'friends and neighbors' in more than just name."

During the war Rev. Brunk served with the Y.M.C.A. in France.

And the little town of Liverpool, with its 1500 people, hums approval over the Brunks' way out of family troubles that only the Brunks can really understand.

REV. W. W. BRUNK

where Mrs. Brunk prepared the supper. She straightened up their little home and then left on the midnight train, accompanied by her little son and her brother.

"I believe that our neighbors arrived at the right decision—at least for the time being," says Rev. Brunk. "It is probably the best and most sensible way out of misunderstandings."

When I arrived the pastor was cooking his own dinner.

Rev. Brunk called attention to a months.—Adv.

## HURLED THROUGH PLATE GLASS WINDOW

Thomas J. Durkin of New Spaulding street and Timothy O'Keefe of Hoyt avenue were injured about 4 o'clock yesterday afternoon when they were struck by a service machine owned by the Electric Light corporation and thrown by it through a plate glass window of the Dikerman-McQuade store at the corner of Central and Market streets. The machine was driven by Robert W. Campbell of Jewett street. The two men, severely cut by the glass, were taken to St. John's hospital and after their wounds had been properly attended to were removed to their homes.

It is said that when the machine was coming from Market into Central street the driver tried to avoid someone on the street, but apparently lost control and ran the machine up on the sidewalk where the two young men happened to be passing.

Both young men are today confined to their homes and are under physician's care. Mr. Durkin is an employee of The Sun composing room.

The greatest snuff-taking country in the world is France, though it shows a decline in the habit.

## Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisided coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multisided coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for a month.—Adv.

# LOWELL NORMAL SCHOOL EVENING HIGH SCHOOL

Committee Favors \$30,000  
Appropriation by State for  
Purchase of Land

(Special to The Sun.)  
STATS HOUSE, Boston, April 14.—  
A favorable committee report has been  
returned on the resolve authorizing  
the state to appropriate \$30,000 for the  
purchase of land adjoining the Lowell  
Normal school.

The measure was sponsored by Pay-  
son Smith, commissioner of education,  
who said its passage is necessary in  
the interests of the school in ques-  
tion.

Mr. Smith points out that there are  
no dormitories attached to the school  
and while these are not needed at  
present it will be a question of time  
when they will be, so that provision  
should be made to erect the building  
when the need arises.

In such an event the department of  
education contemplates buying the  
whole or part of the Parker estate,  
which adjoins the Lowell Normal  
school. This consists of about 145,000  
square feet. All of the school ground  
is now occupied. Mr. Smith points out  
that something should be done now  
toward acquiring more land in view  
of the rapid development of the dis-  
trict in the vicinity of the school.

The resolve will be taken up in the  
senate tomorrow and it is believed  
there will be no opposition to its pas-  
sage. It will then go to the house,  
where, it is believed, it will also be  
passed along to its final stage.

Graduation Exercises Held  
Last Evening—Hon. John  
N. Cole Principal Speaker

Coming as it did nearly upon the  
date of the 300th anniversary of the  
landing of the Pilgrims, the gradua-  
tion exercises of the Lowell evening  
high school, held last night in the  
high school hall, were marked  
throughout by themes drawn from the  
characteristics of those colonists of  
1620.

The principal speaker of the evening  
was Hon. John N. Cole, commissioner  
of public works, whose subject was  
"First—the World Need," which con-  
tained many references to old-fash-

DOROTHY FLORENCE TURNER  
Salutatorian  
Photo by Marion

ioned thrift, such as was practiced by  
the Pilgrims. On the platform were  
seated the superintendent of schools,  
Hugh J. Molloy, Chairman Delaney  
and Dr. James I. Rooney of the school  
committee, Principal Henry H. Harris  
and Mayor Thompson, who presented  
the diplomas. The musical selections,  
consisting of six numbers, were given  
by the school orchestra.

The program of exercises was as  
follows:

Graduates' March, "With the Colors"  
Orchestra  
Overture, "The Golden Magnet"  
Bennett  
Salutatory, "The Pilgrim Type of Char-  
acter"  
Dorothy Florence Turner  
Intermezzo, "Tent of Arabs"  
David  
Address, "First—the World Need"  
Hon. John N. Cole, Commissioner of  
Public Works  
Waltz, "My Isle of Golden Dreams"  
Blancett  
Valedictory, "The Nature of Politics"  
James Matthew Shanley  
One Step, "Indian Snake Dance"  
Metz  
Presentation of Class Picture, "The  
Capitol"  
David Hunter, Jr., President of the  
School Committee  
Acceptance for the School  
Mr. Thomas B. Delaney, Chairman of  
the School Committee  
Presentation of Honorary by Mr. Hugh J.  
Molloy, Superintendent of Schools.  
Honorable mention for scholarship:  
Stenography course—Irene Georgiana  
Gagnon, Elise Agnes Parkhurst, Grace  
V. Reed.  
Bookkeeping course—Alice Goldstein,  
Pauline Knopf.  
Manual training course—Alfred V.  
Constantineau, Joseph T. Dunnigan,  
John James Quinn, Osborne Leslie  
Smith.  
Presentation of Diplomas by Hon. Perry  
D. Thompson, Mayor.  
Final, "Our Merrie Sallor Boys"  
Orchestra.

These of the class who had special  
parts in the program showered praise  
upon themselves by their excellent  
work. The salutatory address, deliv-  
ered by Miss Dorothy Florence Turner,  
dealt with the "Pilgrim Type of Char-  
acter," idealizing the sterling traits  
of those early settlers as qualities to  
be imitated today. Throughout the  
hall, which was crowded, her voice  
rang clear and distinct. The valedictory  
by James Matthew Shanley was  
"The Nature of Politics," by Governor  
Calvin Coolidge, a lengthy treatise on  
present-day politics and the remedies  
for perplexing conditions. He like-  
wise proved himself worthy of his part  
in the program and his speech brought  
continued applause. He clinched his  
address very effectively when he used  
the class motto, "We Can; or Course  
We Can," as the closing words of the  
exhortation that all should strive to  
assist in making Lowell a better city.

The presentation of the class gift,  
a picture of the capitol at Washington,  
was made by the president of the class,  
David Hunter, Jr., and the acceptance  
was made by Chairman Thomas B. De-  
laney of the school committee.

In concluding his point that the  
United States has gone so far in its  
waste that there is no sugar bowl in  
its table, Hon. John N. Cole, in his ad-  
dress said in English when you ask  
for sugar, the hostess says, "Pass your  
cup." When you ask for sugar in Ire-  
land, the lady of the house replies,  
"Here's the sugar bowl, help yourself,"  
and in Scotland the hostess replies,  
"Sit your spoon, there may be some  
in the bottom of your cup."

"It seems unnecessary," he contin-  
ued, "to talk of thrift in a prosperous  
city like Lowell where such big enter-  
prises are going on at the present  
time are only possible by the exercise  
of thrift. Yet the American people fail  
utterly to realize the full possibilities  
of that quality and everything which  
is included under the head of thrift."

The speaker then proceeded to talk  
on the old-fashioned thrift of 40 or  
more years ago which is so essential  
in the country today. "Not until the  
United States comes back to the simple  
practices of homely virtues can they  
fulfill their correct position in worldly  
affairs."

He then proceeded to contrast the  
life of 40 years ago with that of today.  
The small pay of the men, the ideal  
homes which they kept, the pleasures  
which they had, how the people made  
their own gardens, how they kept hens,  
pigs, and cabbages, how the moth-  
ers made the clothes, cut their chil-  
dren's hair and did much of the work,

## THE OPEN SEASON FOR BASEBALL

were all treated by Mr. Cole as illus-  
trative of thrift. He said that because  
everyone nowadays falls to keep to the  
old ideas of keeping busy without  
wasting, it costs every man, woman  
and child in the city of Lowell about  
\$170 each year in direct and indirect  
taxation.

He explained how willing were the  
early colonists to take personal re-  
sponsibility for progress in community  
affairs as contrasted with the utter  
lack of co-operation today.

"Although during the war," he said,  
"the American people were led into a  
period of saving which for a time  
caused many to think that we were  
back again into the good old-fashioned  
customs, yet now that the war is over  
we find that the problems are more in-  
tricate than before or during the war.  
The American people are in need of a  
great awakening to bring them to the  
realization that living conditions in  
1910 depend upon present day effi-  
ciency and the practice of old-fash-  
ioned thrift."

Principal Henry Harris and Superin-  
tendent Molloy spoke of the opportuni-  
ties offered in Lowell in the way of  
education, and made the statements  
that the school committee would be  
willing to back up any group of in-  
dividuals in the city who wish to seek  
instruction in practically any course  
consistent with high school work or

Amanda Picard, Mary Agnes Kelly,

Shea, Ella May Stevens, Ann M. Tier-  
ney, James Joseph Grogan.  
Class of 1920—David Hunter, Jr.,  
president; Mary L. O'Brien, vice presi-  
dent; James Joseph Grogan, treasurer;  
Elise Agnes Parkhurst, secretary.  
Class colors: Blue and Gold. Class  
motto: "We Can, or Course We Can."  
Music by the High School orchestra,  
Frederick O. Blunt, director.

Speed Certificate in Shorthand

Not credit in words per minute for  
five minutes: 110 words, Margaret H.  
Sheehan; 115 words, Walter Connor,  
Jeanne G. Giroux.

For perfect attendance the following  
students of the regular course were  
mentioned:

Elise Beattie, Lucie Cauchon, Ma-  
rie A. Cauchon, Edith S. Dube, M.  
Louise Jodan, Elsie H. Kubaeker, Mary  
M. White, John J. Gardner, Louis Ko-  
chnek, Elvior O. Pedneault, Paxlar-  
chus Protapap.

In the stenography course perfect  
attendance was scored by the follow-  
ing:

Irene Gagnon, Lillian Laird, Clara I.  
LaMarche and James J. Grogan.

In the manual training course Daniel  
J. Crowley was similarly honored.

For proficiency in typewriting the  
following pupils received certificates:

Helen S. Haggerty, Elise Storey,  
Jeanne J. Giroux and Walter F. Con-  
nor.

The executive committee of Lowell  
Post, American Legion, met last night  
to consider plans for the observance  
of Memorial day. No attempt was  
made to formulate a definite program.

The ladies of St. Michael's parish  
will conduct a food sale at the Gagnon  
Co's store Friday (tomorrow). The  
proceeds from the sale will be devoted  
to the building fund of the diocesan  
center for the League of Catholic  
Women.

The annual banquet of the high  
school track team will be held at Page's  
tonight at 6:30 o'clock, followed at 8  
o'clock by a theatre party at Keith's.  
No formal post-prandial exercises will  
mark the event, although one or two  
men, including Mayor Thompson, prob-  
ably will be asked to speak briefly.

The British Canadian War Veterans'  
association held a regular meeting  
Tuesday evening at the Community  
club, with President John Hoban pre-  
siding. John Hurst, John Fairburn and  
John Waterhouse were appointed a sick  
committee, while J. Higgs, J. McEntee,  
J. Fairburn and President Hoban were  
elected to serve as a committee on  
sports.

J. Harry Boardman was elected  
president of the Lowell Clearing House  
association at the annual meeting of  
that organization held at the Appleton  
bank yesterday. C. E. Goulding was  
the choice for vice president, Marcus  
Pierce for secretary and John F. Saw-  
yer for manager. Messrs. Boardman,  
Goulding and Pierce will serve as the  
clearing house committee.

## DEATHS

HUNTER—Mrs. Joan Hunter died  
yesterday in Worcester, aged 42 years,  
9 months and 21 days. She leaves her  
husband, David Hunter, one son, David  
Hunter, Jr.; two sisters, Mrs. Jane No-  
watt of this city, Mrs. A. B. Scott of  
Scotland, and one brother, Robert  
Sprout of New Zealand.

LATHAM—Anna Lathams, daughter  
of Athanasios and Rosanna La-  
thams, died last night at the home  
of her parents, 12 Joliet avenue, aged  
8 months and 21 days.

BURNS—Died April 15th, in this  
city, Mrs. Emma E. Burns, aged 51  
years, 10 mos. and 13 days. She  
leaves her husband, Arthur G. Burns,  
one son, Arthur G. Burns, one  
daughter, Miss Edna E. Burns, and one  
brother, Jesse S. Trux, of Mt. Ver-  
non, N. H.

RODRIGUES—Henry Rodrigues died  
this morning at the home of his pa-  
rents, Frank and Fatima Silva Rod-  
rigues, 2 Thompson street, aged 2 years  
and 10 months.

WALSH—Miss Elizabeth W. Walsh,  
a well known young woman of St. Mi-  
chael's parish, died this morning at  
the home of her sister, Mrs. Joseph  
Green, 156 Tenth street, after a long  
illness. She is survived by two sis-  
ters, Mrs. Joseph Green and Mrs. Geo.  
Newell; three brothers, William Walsh  
of Denver, Colo., Thomas Walsh of Bos-  
ton and Robert of Lowell; also several  
nieces and nephews. Friends are kin-  
dly requested to omit flowers.

BURNS—Died April 15th, Mrs. Emma  
E. Burns, at her home, 150 Pine  
street, after a long illness. She is sur-  
vived by her husband, Arthur G. Burns,  
one son, Arthur G. Burns, one daugh-  
ter, Miss Edna E. Burns, and one  
brother, Jesse S. Trux, of Mt. Ver-  
non, N. H.

WALSH—The funeral of Miss Elizabeth  
W. Walsh will take place Saturday  
morning at 8:15 o'clock from the home  
of her sister, Mrs. Joseph Green,  
156 Tenth street, after a long illness.  
Friends are kindly requested to omit  
flowers.

RODRIGUES—Died April 15, Henry  
Rodrigues, funeral will take place  
on Friday morning at 10 o'clock from  
the home of his parents, Frank and  
Fatima Silva Rodrigues, 2 Thompson  
street. Burial will be held at St. Jo-  
seph's church at 11 o'clock. Burial  
will take place in St. Patrick's  
cemetery, Undertakers M. H.  
McDonough Sons in charge.

COUGHLIN—Died April 12, at her  
home, 107 Cashin street, Mrs. Helen  
A. Coughlin. The funeral will take  
place on Friday morning at 8  
o'clock from her home. A solemn  
high funeral mass will be celebrated  
at 2 o'clock at St. John's church at  
North Chelmsford. Burial will take  
place in the family lot in St. Pat-  
rick's cemetery in charge of Under-  
takers James F. O'Donnell & Sons.  
Motor cortege.

WALSH—The funeral of Miss Elizabeth  
W. Walsh will take place Saturday  
morning at 8:15 o'clock from the home  
of her sister, Mrs. Joseph Green,  
156 Tenth street, after a long illness.  
Friends are kindly requested to omit  
flowers.

RODRIGUES—Died April 15, Henry  
Rodrigues, funeral will take place  
on Friday morning at 10 o'clock from  
the home of his parents, Frank and  
Fatima Silva Rodrigues, 2 Thompson  
street. Burial will be held at St. Jo-  
seph's church at 11 o'clock. Burial  
will take place in St. Patrick's  
cemetery, Undertakers M. H.  
McDonough Sons in charge.

COUGHLIN—Died April 12, at her  
home, 107 Cashin street, Mrs. Helen  
A. Coughlin. The funeral will take  
place on Friday morning at 8  
o'clock from her home. A solemn  
high funeral mass will be celebrated  
at 2 o'clock at St. John's church at  
North Chelmsford. Burial will take  
place in the family lot in St. Pat-  
rick's cemetery in charge of Under-  
takers James F. O'Donnell & Sons.  
Motor cortege.

WALSH—The funeral of Miss Elizabeth  
W. Walsh will take place Saturday  
morning at 8:15 o'clock from the home  
of her sister, Mrs. Joseph Green,

Club, 175 Dutton Street, on or before the meeting, April 28th.

The names of nominees will be read before balloting begins.  
Additional nominations may be made at the meeting before ball-  
oting commences.

## Community Service is Good Feeling

Give Cheerfully to Everything! Do Things Willingly!  
As You Are Making Good Money—Give More to Everything.  
If You Are Not So Fortunate—Give Less to Everything—But  
Do Something!

More Important Still—Get Into the Good Things of Your Own  
Accord. No One Likes the Job of Asking You, and Just As Long  
As You Have Not Done Your Part, You Won't Feel Comfortable in  
the Presence of Those Who Are Sponsoring and Working For the  
Movement.

You Make Them Feel That You are Against Them and Resent  
Their Activity—Discouraging Instead of Encouraging.  
Some People Would Rather Lose Friends Than Just Part With  
a Few Dollars, Whilst Others Would Rather Part With a Few Dol-  
lars Than Lose Friends.

Asking and Refusing are Both Hard Work. Save the Asking by  
Giving First. Then You Can Smile as You Have Not Refused and  
Those Who Would Have Asked, Can Smile Because They Don't  
Have to Ask.

Clear the Atmosphere Around You and Make Things Easier All  
Round. This is Your Job. Own Your Own Self-Respect!  
Good Feeling is the Best Investment You Can Buy and It is  
Cheap at the Price. Don't Be Mean or You Are Being Mean to  
Yourself.

You Only Have Your Own Small Individual Part to Play, But  
It Counts, and You Know It.  
Do As You'd Have Others Do, and They'll Do It. As You Are—  
They Are.
